RAILROAD NOTES.

The Shops Closed Down at Noon Today.

Dispatcher Jorgenson's Vacation to Be Spent East—A Dull Day in Railroad Circles.

An order was issued this morning that every piece of machinery on the entire Illinois Central system stop for five minutes at 9 o'clock, in respect to President McKinley. At that time every train, no matter where it happened to be, stopped for five minutes, and every piece of machinery from one end of the vast system to the other came to a standstill.

Mr. Charles Ortmann, an employee of the I. C. wood working department met with an accident yesterday that will keep him off duty for several days. He was tightening bolts under a car when his wrench slipped, and in catching himself, wrenched his back. His injuries, although painful, are not of a serious nature.

There is at present a little shortage in the machinists employed in the local shops, but all the work can be attended to. No work is sent away from the city if the material for its repairing can be procured here. There has only been one engine sent out of Paducah for repairs in some time, and that was because the necessary material was not on hand here and it would be as cheap to send the engine to Bureau shops, in Chicago, as it would be to have the material shipped here.

Dr. R. E. Duncan, Superintendent of the city hospital of Louisville, is in the city to attend the Gun Club tournament.

The local I. C. shops closed today at noon for the remainder of the day in respect to President McKinley.

A large double desk has been added to the many conveniences in the Master Mechanic's office.

Mr. John Dugger has accepted a position in the Master Mechanic's office and reported for duty this morning.

Engine No. 542, which was slightly damaged in the turn-over at Fulton Tuesday night, has been brought to Paducah and is now in the round house. The engine is very slightly damaged the pilot being off and the bearings of the engine just a little out of gear. It will require about twenty-four hours only to put her in running shape again.

Mrs. J. E. Elthorpe and son, Mr. William Elthorpe, an employee of the I. C. shops, will leave Saturday for St. Louis to visit friends and relatives.

Mr. Chas. Lock is now running the bolt machine in the blacksmith shop.

Engine No. 1184, wrecked in the head-end collision in which Engineer Eubanks met his death, was run into the shops this morning. It is one of the worst wrecked engines in the shops and will require several months to put her in shape again.

Mr. George Bondurant, foreman of the mill department, has gone to Louisville on a visit to friends and relatives.

Chief dispatcher A. J. Jorgenson will leave the city Saturday for Boston and the east on a month's vacation.

The I. C. freight office closed down at 9 o'clock this morning and was not opened until two o'clock this afternoon.

UNUSUAL DISEASE.

A colored patient in the Illinois Central hospital has a disease that is not often met with, especially in this part of the country. The name of the disease is "Pilonia Molluscum." The patient is covered from head to foot, by sores ranging in size from a dollar to a pin head. Some of the sores are filled with puss and when they burst spread the poison over the body and make a sore wherever it touches. The case is considered incurable. He has been in the hospital for some time and every means of ridding him of the ailment have failed.
