Pilot John Rollins is in the city today.

The Mary Stewart left at noon for Golconda.

The Charleston will leave this afternoon late for Tennessee river with a good trip.

The Dick Fowler departed on regular time this morning for Cairo with a good trip.

The Buttorf arrived yesterday from Nashville and left this morning for Clarksville.

The Avalon will leave Memphis at 5 o'clock Wednesday and will arrive at Paducah Friday.

The Clifton left St. Louis yesterday afternoon and will arrive here tonight with a good trip.

The big Pittsburg towboat Boaz passed down en route to New Orleans last night at 9 o'clock.

The Clyde arrived out of Tennessee river last night and will leave at 6 o'clock tomorrow afternoon.

The Lyda left this morning for Tennessee river for ties. She had been laying up here for slight repairs.

The marine ways remain idle and the Harley and Alice Barr are still in the river with no repairs being made.

The Clarksville ferryboat is at the bottom of the Cumberland river. The accident was caused by a defect in the hull.

The Thomas Parker arrived out of Tennessee river yesterday afternoon and left this morning on her return trip after more ties.

The Pittsburg steamer Raymond Horner passed Paducah yesterday afternoon at 4 o'clock en route to the lower Mississippi river.

The Duffey will pull out tomorrow for Tennessee river. She was scheduled to leave today but the repairs to her furnaces were not finished in time.

The Sunshine will leave Cincinnati Thursday and will pass Paducah Sun-

day en route to Memphis. She will not lay up yet a while but will continue her trips until the dull season necessitates her laying up.

The Hopkins was due from Evansville at press time today. The Evansville packets are being delayed in their trips by the shortage in deck laborers and can hardly secure a sufficient number to handle the freight.

The City of Memphis arrived out of Tennessee river this morning with a large crowd of excursionists en route to St. Louis. She had an excellent freight trip but little for Paducah. The boat laid here for more than an hour in order to let excursionists see the city.

The Maude Kilgore, which arrived here last week with a tow of ties, passed down this morning to Joppa to unload the same. She landed her tow above the city in order to enable her to make light repairs before discharging the tow at Joppa. Her schedule has not yet been made out but she will go into Tennessee river again within a few days.

PAIN'S CELERY COMPOUND

After the Failures of Physicians, Special Medicines and Electric Battery, Banishes Pain and Tortures and Restores Health.

In the ranks of sick, tortured, and diseased sufferers, many men and women have become hopeless because of the failures of physicians and their medicines.

We would have all such dejected and despairing mortals take comfort this very day. We would impress upon them the blessed truth that Paine's Celery Compound is abundantly able to save and cure even at the eleventh hour. Paine's Celery Compound accomplishes its life-saving work for the old and young when all other medical treatment fails. A multitude of people have furnished strong and incontrovertible testimony in support of the statement that "Paine's Celery Compound makes sick people well." Mr. John W. Boyd, of Mishawaka, Ind., refers to his own case as follows:

"Last winter I was taken down with a very severe attack of nervous and muscular rheumatism, so bad that I could not lie down, sit up or stand, without the most excruciating pain. I was all the time under the care of two of the best physicians of the place, but I did not improve. I took different rheumatic cures and used an electric battery a half hour each day for ten days without relief. Finally I concluded to try Paine's Celery Compound, and to my surprise after using one-half of a bottle I was able to get out, and before I used the whole bottle I went to work and have worked every day since. I have gained 20 pounds in weight and am feeling first rate."

TESTIMONIAL

For six months I suffered with inflammatory rheumatism, stiffness of joints. For four months I did not feed myself or walk a step without crutches and then only in my room. I tried everything that I heard of had three doctors waiting on me at different times and got no relief. After treating myself two days with Dr. Brown's Magic Liniment I walked over two and a half miles without the aid of crutches, cane or assistance of any kind, and I heartily recommend it to any one for rheumatism, aches, pains, swellings, sores, etc. Have been a resident for sixteen years, 1517 Broad street.

MEANS EXPENSE AND CONFUSION

The city council has before it an ordinance to grant a franchise to a new telephone company and while some people may feel that it would be a good thing for the town, the general opinion is that it would be a great mistake. Wherever the experiment has been tried of having two telephone exchanges it has proven a source of not only a great deal of annoyance, but to most of the business men especially a source of increased expense.

A telephone is valuable only for the number of connections it has. In a town the size of ours, if we have two telephones all of those using one system are cut off from those using the other unless they go to the expense of having two telephones and the convenience and use of the telephone is curtailed to that extent.

We have now as good, if not a better, telephone service than any town of its size in Kentucky and in Shelbyville alone there are 305 telephones in use. That means that everybody with a telephone has the opportunity of using it to communicate with 304 other homes and business houses. In addition to the connections in town there are 40 telephones at Simpsonville and 35 at Waddy. Exchanges are in course of erection at Bagdad and Mt. Eden and when they are completed there will be 500 telephones in the county that every subscriber can have access to without extra charge. There is hardly a place in the county now that cannot be reached by telephone without extra charge and to put in a new exchange here means that the subscribers to that telephone will be unable to get the benefit of the connections they now enjoy.

Every business house in town will be compelled to have two telephones and then they will not have any more benefit from the telephone than they now enjoy. As far as the service is concerned it must be remembered that extensive improvements have been made and are still being made all over the town and to those familiar with telephone service in other places, it is apparent that we have here just as good, if not a better service than any other town in the state. It is impossible for all of the telephones in use to be exactly right all the time, but any complaint lodged with the manager receives prompt attention and the telephone company is more interested than anybody else in having the service first class. Taking the experience of other towns and in view of the facts stated above, it seems to us that it would be a great mistake to cripple as it would be a convenience as the telephone fords by adding another exchange and thereby cutting off the subscribers from many of the places they are now able to reach.—Shelbyville Sentinel.

I most heartily recommend Dr. Brown's Magic Liniment. I had a horrible case of pleurisy; swollen chest. The doctors treated me one for pleurisy, one for rheumatism and one for an abscess. I treated myself with three small sample bottles and was instantly relieved and take pleasure in recommending Dr. Brown's Magic Liniment to every druggist and the public generally as a reliable and instant relief for pleurisy pains, soreness, and swollen limbs and shall always recommend it to my customers.
