## MUTINOUS SAILORS BOMBARD ODESSA

### Reign of Terror Results---Quays are in Flames---People Fleeing.

### Four Hundred Men Arrested---General Marmusoff Assassinated at Lodz.

London, June 29.—Dispatches from St. Petersburg say that it is rumored there the crews of the ships of Admiral Kruger's squadron which left Sevastopol Saturday, supposedly for Odessa, followed the example of the sailors of the Kriaz Potemkin, and seized the ships after killing the officers. The admiralty cannot confirm the rumors.

#### 1,000 KILLED AND WOUNDED.

London, June 29.—The Odessa correspondent of the evening Standard telegraphs that Russian troops showed no restraint when ordered to fire on the strikers. It says a thousand innocent onlookers must have been killed and wounded during the firing. The Black Sea squadron is expected anytime. In that event it is expected a naval battle will be fought with the mutineers on the Kriaz Potemkin.

Berlin, June 29.—The correspondent of the Zeitung at Odessa telegraphs that the mutinous crew of the Kriaz Potemkin began a bombardment of the city this morning. The harbor works have been badly damaged, according to the correspondent.

#### Quays in Flames.

Odessa, June 29.—All the quays and buildings around the harbor, were last night in flames and mobs of incendiaries prevent the firemen approaching. Troops are afraid to approach within range of the guns of the Potemkin. Mutineers fired a warning shot, killing four Cossacks and wounding seventeen. The mutineers have seized a steam collier.

#### A Reign of Terror.

St. Petersburg, June 29.—Alarming reports have reached here from Odessa to the effect that a provisional government has been established, and a reign of terror prevails among the peaceful citizens who fear for their lives. Private dispatches have been stopped by the censor, and no authentic news is obtainable.

#### General Marmusoff Assassinated.

Berlin, June 29.—According to the Morgen Post General Marmusoff, commander of the troops at Lodz, has been assassinated. Rebels attacked the general while he was driving through the city according to reports and after dragging him from the carriage, stabbed him to death.

#### Attempt to Assassinate.

Warsaw, June 29.—The news of the revolt of the crew of the battleship Kriaz Potemkin, and the arrival of the vessel at Odessa, became known here last night by a private message which escaped the censor. The news spread rapidly and meetings of the socialists were quickly called which turned into jollification gatherings.

A third attempt to assassinate the chief of police of Czenstochau was made last night, when a bomb was thrown at the official as he was riding through the streets. The horses were blown to pieces and the vehicle wrecked. The coachman was badly injured, but the police chief escaped injury.

#### Over 400 Arrests Made.

St. Petersburg, June 29.—The latest news from Odessa is to the effect that the strike is spreading rapidly, and nearly all the workmen in the city are now out. The police are active in arresting the leaders, and have taken into custody over four hundred men charged with being instigators of the disturbances.

#### Russians to Bombard Lodz.

Vient, June 29.—A dispatch from Lodz says the authorities there have threatened to bombard the town in case there is any further firing on the police or troops by the strikers.

#### Father John Banished.

Berlin, June 29.—The Morgen Presse states that the czar has banished Father John of Cronstadt, to the Monastery, located at a desolate point on the White Sea. The decree was issued according to the paper as a punishment for alleged gross immorality on the part of Father John, and for irregularities in his affairs recently discovered. Father John is idolized by the peasants, many of whom believe him divine.

#### Russia Withdraws Troops.

St. Petersburg, June 29.—Advices have reached the general staff of the withdrawal from Vladivostok of three regiments of infantry, and cavalry and artillery, to the number of 12,000 men. This is part of a rearward concentration necessitated by the advance of Gen. Hasegawa's sixth Japanese army across northeast Korea from the Tumen river. Gen. Hasegawa's force has developed unexpected strength, numbering over

100,000 men, although his vanguard numbers only 5,000. The knowledge that the enemy is so strong in the secondary seat of war has spread a hopeless feeling among the staff in regard to coming operations. It is concluded now that Field Marshal Oyama has a greater preponderance over Gen. Linevitch than he ever had over Gen. Kuropatkin.

#### Postpones Proclamation.

St. Petersburg, June 29.—Some Zemstvo delegates and marshals of the nobility of St. Petersburg were privately arranging for holding a congress at Moscow to consider the national assembly ukase when it is issued, when they were greatly alarmed at a rumor circulating to the effect that the emperor had suddenly decided under stress of adverse influences based upon a recurrence of the disorders throughout the country to postpone the proclamation until the project has been submitted to the council of the empire. As the council has adjourned until October such delay will probably do much to destroy the good effect of the emperor's speech at Tsarskoe Selo to the Zemstvo delegates, and undoubtedly will greatly aggravate the internal situation.

#### Russians Claim Victory.

St. Petersburg, June 29.—The general staff announces that it has absolutely nothing to support the many wild reports that General Kuropatkin has been killed or committed suicide and a portion of the Russian army surrounded. On the contrary the staff reports that the Russians have achieved a considerable victory. According to information in possession of the staff operations thus far have been in the nature of preliminaries for a general engagement which has not begun.

They regard the movement of the Japanese in Korea as being most serious, believing that it indicates a determination to drive the wedge northward and isolate and invest Vladivostok before peace negotiations begin. There are indications that the Russians propose to offer resistance at Tumen river.

#### For Mobilization.

St. Petersburg, June 29.—The imperial edict prescribes mobilization for active service the reservists in 124 districts of St. Petersburg, Moscow, Kieff, Warsaw and Vilna. The districts include the cities of St. Petersburg and Moscow.

The new buggy ordered several weeks ago by the legislative boards for Fire Chief Woods, has arrived and was set up this afternoon. The buggy was sent through the Rehkopf Buggy company. Chief Wood will bring his new buggy into service at once.

#### HAD NO RIGHT

### To Tear Up the Street, Judge Saunders Decided.

The Paducah City Railway Co. was this morning fined \$10 and costs in police court for tearing up the bluish street at Sixth and Broadway without a permit from the proper authority.

Mayor Yeiser, Supt. Gus Thompson, of the street car company, and one or two other witnesses were heard and Mr. Thompson testified that the street was torn up by permission of Mr. Saunders Fowler, secretary of the board of public works. Mr. Fowler does not think it necessary for the company to secure a permit from anyone, while Mayor Yeiser thinks it is and says if the permission was granted by Mr. Fowler it was not legal. The court decided that the company was guilty of a breach of ordinance and fined it \$10 and costs.

There is still another warrant pending against the street car company for refusing to stop a car at Fourth and Jefferson streets for Mr. James E. Wilhelm and this has been set for Monday.

The street car company will not appeal the fine assessed today, although there is some question as to its right to tear up the streets without a permit. Several corporations here claim that they have a right to tear up the streets as often as it is necessary in their business, without securing a permit, but the question has never been settled by the courts.

#### Harvard Won Two.

## FIRST PAYING WAS UNDER OLD CHARTER

### Property Owners Can Not Now be Made to Pay for Sewers.

### More About Sanitary Condition— City Clerk Bailey's Vacation Next Week.

#### AND OTHER MUNICIPAL NOTES

City Solicitor Ed. Puryear, it is said, thinks that suit could be brought by the city against property owners along streets already paved, for half the cost of the storm water sewerage. That is, on all the streets paved since the second class charter went into effect. This would not include Broadway from First to Fifth, which was paved under the third class charter.

One gentleman writes the Sun as follows:

"I notice where the solicitor is quoted as saying that property owners along Broadway and other streets can be sued for half the cost of storm water sewerage. He does not, according to the way he is quoted, exclude Broadway from First to Fifth, which was paved several years ago under the third class charter. If he knows anything about the charters, he must know that under the Third class charter all street reconstruction is paid for by the city, and if this storm water sewerage is a part of the street as he claims, it was properly paid for by the city at that time, as the city had to pay for all street reconstruction under the old charter and property owners cannot be made to pay for it now. Certainly now that there is a new charter the city cannot go back several years and try to collect for something that was properly done under the charter in effect at that time."

The street car company today began laying rails on South Third street and will keep right up with the contractors hereafter in excavating for its track and laying rails.

City Clerk Henry Bailey will leave on July 8th for a ten days' vacation, and desires that all saloon men come up and pay the last half of their license at once. This will be a great benefit to the clerk and will also save the saloon men complications. All license have to be in by July 1st, so they can come before the legislative boards at the first meeting in July and Clerk Bailey desires to have everything as straight as possible before his departure.

Dr. J. W. Pendley, president of the board of health, stated this morning that he would applaud every effort of the press and public to better the sanitary conditions of Paducah, and that the Sun, in endeavoring to secure better results was aiding the board of health very materially in improving the general sanitary conditions of Paducah.

"You see as long as the council has control of the inspectors, the board of health can do nothing," he said.

"If the management of the inspectors were placed in the board's hands the members could see that the city was cleaned up as it should be cleaned. While we have no fault to find with the inspectors, we desire that matters we call attention to be investigated. Several very bad nuisances which have been inspected, notices given and a failure to remedy noted, should be carried into the courts. While I am not in a position to state positively, I have been told that no warrants have been issued for several nuisances which have existed for some time."

It seems from reports that a number of people, including city officials, have called the attention of sanitary officers to nuisances in various places and that is the last heard of it. The nuisances remain, and no warrant is ever sworn out, or any notice whatever taken of the conditions.

The board of health is very anxious to get control of the sanitary inspectors so it can have the work it desires done, but there seems to be no prospect of it at present.

City Treasurer J. J. Dorian will keep his office open tonight, tomorrow and Saturday night for the convenience of the taxpayers.

The June bride now occupies the center of the stage.

#### NEGRO RELEASED.

### Jury Would Not Punish Him When the Alleged Principal Went Free.

Lexington, Ky., June 29.—The jury in the case of Louis Mitchell, the negro charged with attempting to poison the family of Judge James H. Mulligan last fall, returned a verdict of not guilty.

The only testimony introduced this morning was the sworn confession of the negro made just after his arrest, in which he accused James J. Mulligan as being the instigator of the crime, and it was evident the jury were not inclined to convict a tool when the real principal to the alleged crime was permitted to go unpunished.

Had it not been for the warning given by the negro after he had placed the arsenic in the food perhaps the entire Mulligan family would have been victims of the death-dealing substance, as they were in the act of partaking of the salmon in which the arsenic had been baked when the negro Mitchell weakened and confessed that he had put the poison in the dish.

## THE SUPREME COURT AFFIRMS SENTENCE

### Only One More Chance for Young James Ezell.

### His Case Passed On by the Supreme Court of the State of Penn- sylvania Today.

#### ATTORNEY CORBETT NOTIFIED.

Louisville, Ky., June 29.—Attorney Hal S. Corbett, of Paducah, who is in Louisville, was today apprised by a telegram from Philadelphia, that the supreme court of Pennsylvania had upheld a verdict of the lower court in the case of James W. Ezell, sentenced to death.

Young Ezell is a son of W. W. Ezell, a prominent merchant of Mayfield, and left his home four years ago and secured a position as telegraph operator at Uniontown, Pa. Here he met William Porter, yardmaster of a railroad, and they became friends until about a year ago, when after an altercation, Ezell killed him. Ezell admitted the killing, but claimed self-defense.

Arrangements will be made at once to take the case before the state board of pardons and strong efforts will be made to save young Ezell's life. Mr. Corbett is very hopeful of success. The order of Railway Telegraphers is enlisted in the movement in Ezell's behalf.

#### NOTHING TO SAY.

### Says Chief Engineer Wallace About Reports.

New York, June 29.—Engineer Wallace, Panama canal commissioner, refuses to say a word about the situation or his relations with the administration. The reason for this, in his own words, is "The situation is so great I cannot afford to be quoted in any shape, or manner." Mr. Wallace is said to feel that the canal can never be built within the present century if departmental interference is allowed to hamper those on the ground.

## Seven Negroes and One White Man Were Lynched by Georgia Mob

The jailer was compelled to accompany them.

The men were suspected of the murder of two people, and of assaulting Mrs. Weldon Dooley, wife of a prosperous farmer.

The mob was quiet and business-like in the execution of its carefully laid plan.
