THE INDIANS ARE FULL OF GINGER

Work Out Yesterday Showed Them Sturdy Players.

Lloyd is Working His Men at the Bat to Prepare for Evansville.

NEWS OF THE NATIONAL GAME.

The Indians were out in full force on the reservation at Wallace park yesterday afternoon enjoying a hard work out, and the work was full of ginger from start to finish.

The players were divided into two teams and both showed up well. The pitching was good, batting excellent, and fielding up to the standard of any ever seen in the league.

Chenault's work behind the bat was good. His throwing is wonderful, the big catcher turning them loose with remarkable rapidity.

IN AUTOMOBILE

TELEPHONE OFFICIALS COME TO PADUCAH FROM NASHVILLE.

Made Trip Without Accident—Inspecting Long Distance Lines—Local Manager in Party.

Mr. A. L. Joynes, manager of the local branch of the Cumberland Telephone company, returned from Mayfield this morning.

Mr. Leland Hume, one of the high officials of the company and Supt. W. T. Edwards, of the Nashville district, left Nashville several days ago in the former's big double seated Ford automobile.

Dick Brahe says he has an offer to go to Metropolis and play independent ball. He is considering it.

CALLED BACK

LOVESICK LAD BROUGHT HOME FROM CAIRO LAST NIGHT.

Had Become Smitten With an "Owl" Girl and Followed Her From the City.

A fourteen-year-old boy, the son of a prominent local I. C. engineer was brought home from Cairo, Ill., last night by an officer and the boy's father with enough "theatrical experience" to last him for some time to come.

The boy had just donned long trousers, and he met one of the chorus girls of the "Night Owl" company which played here Saturday night.

He agreed after much persuasion to leave and was brought back. He intended to go with the show but had run out of funds.

RIVER NEWS

The river fell 1.4 in the last twenty-four hours, the gauge today registering 30.2.

The Dick Fowler had a good freight and passenger trip for Cairo this morning.

The Hopkins was the Evansville packet today and had a good trip both ways.

The T. H. Davis came up from Joppa last night with a tow of empties and took a tow of ties back for the Frisco railroad.

The Nellie Willett came in last night out of the Tennessee river.

The Island Queen had a big trip of passengers on her excursion trip this afternoon and should do a big business again tonight.

The Clyde got out for the Tennessee river last night.

The Kentucky is due out of the Tennessee river tonight.

The Georgia Lee will leave Memphis on her trip up for Cincinnati and should be here Saturday afternoon.

WORDS OF PRAISE WELL MERITED

BY A WELL KNOWN ARTICLE.

So much has been written by the standard medical authorities, of all the several schools of practice, in praise of the native, or American, medicinal plants which enter into the composition of Dr. Pierce's Golden Medical Discovery, that in attempting to quote from the various works on Materia Medica one hardly knows where to commence, since they are so voluminous that only the briefest and most important reference can be presented in a short article like this.

Briefly then let us say that the "Golden Medical Discovery" was named from the sturdy little plant Golden Seal, the root of which enters largely into its composition. Besides this most valuable ingredient, it contains glyceric extracts of Stone root, Queen's root, Black Cherrybark, Bloodroot and Mandrake root.

Finley Ellingwood, M. D., an eminent practitioner of Chicago and Professor of Materia Medica in the Bennett Medical College of that city, in his recently published work on Therapeutics, says of Golden Seal root: "It is the most natural of stimulants to the normal functions of digestion. Its influence upon the mucous surfaces renders it most important in catarrhal gastritis (inflammation of stomach) and gastric (stomach) ulceration."

Many other authorities as well as Dr. Ellingwood extol the Hydrastis (Golden Seal), as a remedy for catarrhal diseases of the nasal passages, stomach, bronchia, gall ducts, kidneys, intestines and bladder. Among these, we may mention Prof. John King, M. D., author of the American Dispensatory; Prof. J. M. Scudder, M. D., in his "Specific Medication"; Dr. Hale of the Hahnemann Med. College of Chicago; Grover Coe, M. D., of New York, in his "Organic Medicines"; Dr. Bartholow of Jefferson Med. College and scores of other leading medical writers and teachers.

All the foregoing eminent authorities extol the curative virtues of Golden Seal in cases of stomach, liver and intestinal weakness, torpor and ulceration of bowels. Dr. Ellingwood recommends it most highly, "in those cases of atonic dyspepsia when the entire apparatus, including the liver, is stagnant and inoperative." He also extols it most highly in the many weaknesses and derangements peculiar to women and children.

But to return to the "Golden Medical Discovery" it may be said that its curative properties are not wholly dependent upon Golden Seal, valuable as it is, as other equally potent ingredients add greatly to its value and in fact are not less important than the Hydrastis, or Golden Seal.

In all bronchial, throat, lung and kindred ailments, Stone root, Black Cherrybark, Queen's root and Bloodroot, each plays as important a part in effecting the phenomenal cures of "Golden Medical Discovery" as does Golden Seal. All these ingredients have the endorsement of prominent practitioners of all schools of medicine for the cure of diseases of the bronchia, throat and lungs.

Such further information as to the properties and uses of "Golden Medical Discovery" and Dr. Pierce's Favorite Prescription for weak women, will be found in a little booklet of extracts from standard medical books which will be mailed free to any address on request, by letter or postal card, sent to Dr. R. V. Pierce, Buffalo, N. Y.

All the several ingredients of Dr. Pierce's medicines will be found, from the reading of this little booklet, to have the strongest possible professional endorsements and recommendations for the cure of all the diseases for which these medicines are recommended. No other medicines for like purposes have any such endorsement. They are non-alcoholic, non-secret, safe and reliable.
