EZEMA (Itching, Burning, Scaly Humors), A BLOOD DISEASE. An Old Medicine Which Cures.

The real cause of Eczema is the acid condition of the blood, and to cure this annoying disease requires only patience and plenty of Botanic Blood Balm (B. B. B.). Dr. Gillam made his first cure with this medicine over forty-seven years ago, and the medicine has been a godsend to over 500 sufferers since. Recollect that your system is saturated with this Eczema, or Salt Rheum Humor, and this poison must be forced out, and B. B. B. will do it as sure as the sun is in the sky.

Julia E. Johnson, Stafford's P.O., S. C., writes: "I had suffered thirteen years with Eczema, and was at times confined to my bed. The itching was terrible. My son-in-law got me one-half dozen bottles of Botanic Blood Balm, which entirely cured me, and I ask you to publish this for the benefit of others suffering in like manner."

We have many other testimonials, which we will gladly show. They are printed in a little book, which will be sent, free of charge, to any one who addresses us.

Botanic Blood Balm (B. B. B.) is a purely vegetable preparation, originally compounded by Dr. Gillam, and used in his private practice. It has cured many people of all blood humors, scrofula, and from the common pimple to the worst case of Blood Poison.

It is put up in large bottles for \$1.00, and sold by all druggists. Blood Balm Co., Atlanta, Ga.

Lagomarsino is up-to-date on cold beer.

Queen Victoria's Descendants. A genealogist announces, as the result of careful inquiry, that the queen has had nine children of whom she has lost two; 41 grandchildren of whom eight have died; and 23 great-grandchildren, all of whom are living. She has, therefore, 63 descendants living—7 children, 33 grandchildren and 23 of the next generation. Her next eldest great-grandchild, the Princess Feodora, of Saxe-Meiningen, is now nearly 17, so that in all probability her majesty will live to see her grandchildren's grandchildren. Few English sovereigns before Queen Victoria have seen grandchildren grow out of infancy, and none ever saw a great-grandchild.
