OIL FOUND IN ILLINOIS

Drillers Make Rich Strike at Two Thousand Feet Deep Nine Miles From Greenville.

Greenville, Ill., Aug. 22.—The Producers' Oil company drilled into oil sand at the Brown's Mill well, nine miles west of Greenville, with remarkable success, as shown by the volume of oil brought to the surface. Sample of the oil, struck at 2,000 feet, were brought to Greenville and show a superior grade. The rope on the derrick shows the hole had filled up to a depth of 136 feet at the time the derrick was drawn from the hole. The pressure indicates a strong flow.

Illinois Led Wading Browns. Princeton, Ind., Aug. 22.—Milton G. Krebs, 20, son of L. W. Krebs of Mount Carmel, Ill., was drowned while wading in White river at Kelly's ripple. The boy was a member of the Bob White club, camping here.

Earthquakes in New England. Lowell, Mass., Aug. 22.—Earth tremors accompanied by heavy rainings, caused considerable alarm in this city and surrounding towns. The shocks lasted several seconds but did no damage.

A Powerful Beacon. New York.—To guide ocean liners into New York harbor, through the great \$4,000,000 Ambrose channel, is now nearing completion on the hills of Staten Island a powerful beacon. The lamp itself will give a light equal to 1,000 candle power, which is increased to nearly 1,500,000 candle power by means of the reflector and lens. Such a light will be discernible for no less than twenty miles at sea. The oil used will be vaporized kerosene which, next to electricity, gives the brightest light known at the present day. The cost of the light will exceed \$50,000.

Alfonso's Narrow Escape. Madrid.—Few men of his age had so many narrow escapes as King Alfonso of Spain, who was twenty-four May 17. His life has been attempted twice, in Paris during a state visit there, and in Madrid on his wedding day. He has been in several motoring accidents and on one occasion nearly succeeded in killing the Spanish minister of education as well as himself. When trying a reaping-machine at La Parda some years ago he became entangled in the machinery, and might have been killed if the engineer had not stopped the movement instantaneously.

Air Line London to Paris. London.—Lady Abby, wife of Sir William Abby, has offered \$250,000 toward the promotion of an aerial passenger line between London and Paris.

HERMIT KINGDOM PART OF JAPAN

DISORDERS FOLLOW CLOSE UPON ANNEXATION OF KOREA BY NEIGHBOR.

NEW PROVINCE CHO SEN

Mikado Promised Protection, But Annexes Peninsula and Population of 13,000,000—Army Ordered in Readiness.

Tokio, Aug. 20.—Disorders have broken out in Korea, according to private advices received here, coincident with the formal announcement that the old "Hermit Kingdom," independent for more than 4,000 years, is now the Japanese province of Cho Sen.

The annexation has caused great excitement in Japan, although fully expected. Rejoicing is general, save in radical circles. The socialists have attempted to make capital of the move, pointing out the definite pledge of the maintenance of Korea's independence.

Censorship is Strict. The censorship is strictly maintained, and the actual conditions in the peninsula are not definitely known. It is certain, however, that outbreaks have occurred at several points.

The army of occupation has been ordered ready for instant service, and the patrol of the coast by warships is being continued with vigilance. By the annexation Japan gains a prize that has been practically within her grasp since her successful war with Russia. Her area is increased by 32,000 square miles and her population by approximately 13,000,000.

Japanese-Korean Agreement. China renounced her claim on Korea by the treaty of Shimoneseki, in 1895, when Japanese influence in Korea became predominant. In February, 1904, the Japanese-Korean agreement was signed at Seoul, whereby Japan undertook to insure the safety of the Korean imperial household and guaranteed the territorial integrity of the country.

A strong military force will have to be maintained for several years in Korea, it is believed, to hold in check the younger part of the population, which has always opposed annexation and has resorted to numerous assassinations in the last few years.

Col. Roosevelt is making one of his spectacular tours through the western states, reviewing parades, making speeches and receiving the plaudits of uproarious crowds of cow boys, soldiers and Indians. His tour will take him through fourteen states. What is he fixing for?

The last legislature passed a law increasing the compensation of jailers for the board of prisoners to 75 cents a day. The Attorney General gives it as his opinion that the law does not apply to jailers now in office, as it is in contravention of the constitution of an officer during his term of office. And yet the increase of \$1200 a year in the salaries of circuit judges was held to apply to judges now in office. But that is a gray horse of another color.—Clinton Gazette.

After the ceremony, refreshments were served and the friends and relatives of the contracting parties made merry until a late hour.
