**GAME WARDENS IN EACH COUNTY**

EXTRA PRECAUTIONS TO ENFORCE OBSERVANCE OF LAWS DURING OPEN SEASON.

**PATROLED BY TWO WARDENS**

Act Directly Under Instruction From the State Game and Fish Commission.

(Special Frankfort Correspondence.)

Frankfort—Every county in Kentucky will be patrolled by two game wardens, acting directly under instructions from the game and fish commission, from November 8 until January 1, when the game season will close. The season will open November 15. Executive Agent J. Q. Ward, who has just appointed 30 district wardens, with directions to select a warden in every county where there is none now, will call into co-operation to prevent hunting out of season or without a license and market hunting every available agency. He is sending notices for publication in every county paper, advising hunters of the action of the department; he is calling hunters and hunting clubs to assist, and the wardens have directions to call on the county judges, sheriffs and county attorneys to assist them.

These wardens will go horseback or in buggies and their visitations will be without warning. Instructions as to the character of their duties and the way they are to perform them are explicit.

Market hunters and those who hunt out of season or without a license are the particular objects of this surveillance. Sunday violators and trespassers must be handled by the local authorities, and wardens are instructed to inform landowners who ask them to arrest such violators that they should go to their county authorities.

Mr. Ward said the successful work of the department last year in the fight against market hunting, followed by a dry, good breeding season, has made game birds plentiful this fall, and if the hunters co-operate with the department the sport will be unusually good.

**Hear Grain Rate Case.**

Evidence intended to secure a reduction of Louisville & Nashville grain rates between Eminence and Louisville was presented to the Kentucky railroad commission, at Louisville, by Eminence Milling Co. The commission will hear complaints of E. H. Taylor & Sons Distilling Co. and the Kentucky Distilleries & Warehouse Co. against the same road. Evidence adduced by the milling company showed that the rate on wheat from Louisville to Eminence is 5 cents, while corn, rye and malt go for 6 cents. It also showed that the rate of wheat from Eminence to Louisville was only 7 cents. The three concerns are seeking reparation of approximately \$60,000, of which amount \$52,000 is sought by the Kentucky Distilleries & Warehouse Co.

**Good Roads Movement.**

Calls on the state department of roads for speakers at good roads meetings, school fairs and rallies in the interest of road bond issues are becoming more numerous. M. D. Ross spoke at Union, Boone county, in the interest of a bond issue, and R. H. Reese spoke at Olive Hill in the interest of the Carter county bond issue of \$150,000. Commissioner R. C. Terrell spoke at a school fair at Bardonia, Harrison county has applied for state aid in the construction of one of its principal pikes.

**Ben Hur Gets Reversal.**

The Supreme Tribe of Ben Hur won an appeal from the Jefferson circuit court in the suit of Rosa Cosgrove, who recovered \$2,000, the amount of a policy on the life of her brother, John T. Cosgrove, in that order. The order contested the claim on account of statements made in regard to his health and an affidavit as to his health made when he was reinstated. The case was reversed for error in refusing to admit testimony. Chief Justice Hobson wrote the opinion.

**State to be Center.**

Kentucky is to become the center of the Hereford cattle industry, due to the enterprise of Col. E. H. Taylor, Jr., of Frankfort, in the opinion of the expert, writing for the Livestock World, of Chicago, who says that Kentucky contains every element necessary to that end, and sees in the discriminating buying of the best of this breed in the land by Col. Taylor, a determination on his part to be the deciding factor in Hereford breeding.

**Bothered by Catarrh, Bronchitis, Asthma, Head or Chest Colds**

Try the New External Treatment—Relieves by Inhalation and Absorption. No Stomach Dosing.

For years we have been dosing ourselves to cure cold troubles despite the fact that vapor treatments are quicker and do not disturb the stomach. The trouble has been that the old methods of administering these vapors such as vapor lamps, etc., were very cumbersome. Vick's "Vap-O-Rub" Croup and Pneumonia Salve contains Menthol, Thymol, Eucalyptol, Camphor, and Pine Tar, combined by a special process, so that they are vaporized when Vick's is applied to the heat of the body. These vapors open the air passages, loosen the

phlegm, and heal the inflamed mucous membrane.

For Catarrh and Head Colds melt a little in a spoon and inhale the vapors. Also apply well up the nostrils. For Asthma and Hay Fever follow the above instructions and also rub well over the spinal column, thus relaxing the nervous tension. For Bronchitis, Sore Throat, and deep chest colds, apply well over chest and throat, first opening the pores by applications of hot wet towels. Then cover with a warm flannel cloth, leaving the covering loose around the neck so the vapors arising may be inhaled all night long. In addition Vick's is absorbed through the pores, taking out the tightness and soreness. Three sizes—25c, 50c, and \$1.00.

Members will line up just outside the church door, make remarks and stare at the ladies as they pass, as is their custom. Any member known to escort a lady to church and sit with her like a gentleman will be expelled from membership." The application was to the point and the effect was marvelous.
