Bare Rooms

THAT look of coziness is not there—all due to a missing piece of furniture. Look around your room, then come into our store, look over our stock, and you will find exactly what you need at a most compelling price. And, besides making a room look comfortable, whatever you select will promote your comfort and convenience, thus adding another source of satisfaction to its possession.

News Snapshots Of the Week

Mexico again headed the news of the week when two of our warships were dispatched on quick notice to Vera Cruz to care for Americans endangered because Senors Mujica, Da Gama and Naon, the A. B. C. mediators, with other Latin American representatives, began considering with us means for restoring order in Mexico. The Germans entered Warsaw, evacuated by the Russians, and the latter continued their retreat. Admiral Caperton took charge of the entire official business of Haiti until a new president could be elected. The allies landed 50,000 more troops at the Dardanelles, and the Balkan states were pressed for an early decision as to their stand. The severe floods which swept through Erie, Pa., destroying lives and property, subsided, and work on reconstruction was started at once. The relief expedition sent to find Stefansson, the arctic explorer, reported little hope for his early recovery.

COUNTY CONVENTION SATURDAY, AUG. 28.

For the purpose of adopting a platform of principles, Democrats throughout the State will hold a convention in Louisville Tuesday, August 31.

This was decided upon Saturday afternoon at a joint meeting of the Democratic State Central and Executive Committees held at Louisville. The meeting was presided over by Rufus H. Vansant, of Ashland, chairman, and was harmonious from start to finish. Just before the meeting adjourned, a resolution naming Judge S. W. Hager, of Owensboro, chairman of the Democratic Campaign Committee, with power to appoint Executive and Advisory Committees, a secretary and other assistants, and to select headquarters, was adopted unanimously.

The Fulton county convention will be held at Hickman, Saturday, August 28. This county is entitled to 16 delegates in the State convention, which meets at the time and place above mentioned. W. C. Johnson is chairman of the Fulton county Democratic committee.

The effect of England's declaration of cotton as contraband is going to have a far-reaching effect on the Southern States. The notice of the British action came Tuesday to the State Department—in answer to the U. S. communication of March 11th. The long delay in answering—in fact the crop has been made while we awaited the reply—roused suspicion as to the final answer, and was half expected. When the American steamer Dacia was taken by the allies seven months ago, it was thought an immediate solution of the problem would be announced, but this was also deferred until this week. The result is the cotton was taken by the French government and the American steamer ordered "seized as a prize." The shipment of cotton in American ships was badly handicapped under existing circumstances up to this week, but hereafter it will be worse. Just what effect this is going to have on the crop now ready to pick, is a matter of speculation. The allies appraised the threatened anger of the Southern portion of the United States by taking more cotton than they generally use. It must be plain to everyone that the allies now have an abundance of cotton on hand and will not be in the market during the next twelve months to any great degree. With the markets of Germany, Austria, Holland, Denmark and Sweden cut off, what would the result logically be? The cotton growing States are going to raise a howl about this contraband business—and they ought to. The burden they bore last year—running into millions—on account of the cotton situation is enough; two years in succession would be more than an ample sufficiency. The U. S. government promises to come to the aid of the Southern planter with "every means at the command of diplomacy." Better get a hustle on.
