All styles of PRINTING AT THIS OFFICE. Address H. BRUNDAGE.

HON. N. C. McFARLAND, Commissioner of the General Land Office.

The General Land Office of the United States, though not a distinctive branch of the Government, is yet a bureau that is so clearly identified with the dearest interests of the people that its administration if entrusted to incompetent hands wounds the public welfare to an extent not possible with any other branch of the service. It has the practical control of the Government's vast domain, caring for the rights of the millions who seek homes under the magnanimous acts of Congress; distributing among railroad companies, with strict regard for the law, the lands granted them as subsidies; superintending the surveys and sub-divisions, and keeping the original record of title to land covering the whole country, and deciding with judicious discretion the slightest details of the vast business that comes before it in the shape of appeals from the land offices distributed throughout the country. In a word, the head of the General Land Office is at once clothed with almost unlimited power and endless responsibility in the legitimate performance of his duties. This great discretionary power and these vast responsibilities are now entrusted to Hon. N. C. McFarland, who since his accession to the position, has discharged its duties to the acceptance of all with whom he has had official relations, and whose official career has been characterized by a zeal for the welfare of the public rarely demonstrated in these days of political degeneracy.

Born in Washington county, in the state of Pennsylvania, on the twenty-second day of April, 1822, the subject of this sketch was duly prepared and admitted to the college in his native town. In 1846 at the age of twenty-four years, we find him in the office of the late Josiah Scott, judge of the supreme court of Ohio, at Bucyrus, where he pursued his legal studies until 1849, when he with the judge removed to Hamilton, entering into partnership with his instructor, engaging in the active practice of his profession which he continued for some years. In 1865 Mr. McFarland's friends sought a wider distinction for him by choosing him to represent them in the State senate, in which his rare legal abilities were at once recognized by being made chairman of the judiciary committee.

In 1868 he was selected as one of the Ohio delegation to the National Republican Convention at Chicago, which nominated Gen. Grant. In 1872 he was elected to the Kansas senate. In 1878 he was selected by President Hayes as one of the commissioners to the Ute Indians, with a mission to adjust the differences growing out of the infraction of treaty stipulations by that tribe.

In June 1881 President Garfield tendered to Mr. McFarland the position he now holds, and on the twenty-third day of the same month he entered upon his duties. The senate not being in session at the time, he of course was not confirmed, but upon the accession of President Arthur in September following, he was promptly re-appointed by him, and in the following December unanimously confirmed by the senate.

A fire early on the morning of Nov. 27th almost completely destroyed the town of Albany, Wisconsin, situated near the eastern line of Green county. The flames were first discovered at 1 o'clock and spread rapidly, sweeping away before them every business building in the place, including the post office and two newspaper offices. There were no adequate facilities for fighting the fire and it made such rapid headway that a number of people barely escaped from the burning buildings with their lives.

DESTRUCTION OF A TOWN BY FIRE. A fire early on the morning of Nov. 27th almost completely destroyed the town of Albany, Wisconsin, situated near the eastern line of Green county. The flames were first discovered at 1 o'clock and spread rapidly, sweeping away before them every business building in the place, including the post office and two newspaper offices. There were no adequate facilities for fighting the fire and it made such rapid headway that a number of people barely escaped from the burning buildings with their lives.

THE FIRST TWENTY-FOUR O'CLOCK CLOCK. A peculiar clock, which marks the hours from one to twenty-four, has recently been completed by a Wilmington, Del., manufacturer. The new time-piece is of the kind so far not adopted by several of the railroads. The most conspicuous innovations are in the marking upon the dial and in the movement of the wheels which run the hands. The minute hand, instead of making twelve revolutions to every revolution of the hour hand, as in the ordinary clock, makes twenty-four revolutions while the hour hand passes around once. The figures upon the dial are marked in Arabic instead of Roman numerals. They are from one to twenty-four inclusive, the spaces between the figures thus being only half as great as those on the dial of the ordinary twelve hour clocks. The minute hand therefore marks the half minutes as well as the minutes. The railroads proposing to adopt the new system as a standard will prepare new time tables, upon which the distinction between trains marked a. m. and p. m., which is often overlooked by careless travelers, will no longer appear.

A Close Call. A St. Louis special says: An engine with steam up was standing on the track of the Toledo, Cincinnati and St. Louis railroad a few days ago, when by some means the throttle was opened and the engine was started. "Some one shouted 'My God, the regular passenger train is due in half an hour.'" Another engine with steam up had just been run into the round house. The engineer and his fireman boarded it and then began a wild chase; four miles out on the track the wild engine was overtaken and the engineer climbed down upon the pilot of the jumping engine, while the fireman graduated the speed so as to run up close enough for him to climb on to the tender of the runaway engine which was caught in time to prevent a collision.

GLEANNINGS FROM THE ROCKIES. Seattle, Washington, has five newspapers. Washington Territory is now a woman's suffrage country. A woman had 78 gall stones taken from her side at the Salt Lake hospital on last Monday. The stage road from Wood River to Challis, Idaho, is completed, but will not be kept open this winter. C. C. James, the murderer of N. Barnett at Ellensburg, W. T., has been captured after a desperate resistance. William Young Ogilvie, a merchant of Steptoe, W. T., has decamped, leaving many Portland creditors. In Eureka, Nev., on Saturday, Gus Stoker, a butcher, committed suicide by hanging himself with his leather waist belt to a meat hook. Fine blooded stock, consisting of horses and cattle, are being shipped to the Idaho Fine Stock Breeders' Association at Boise, from Kentucky. Jacob Radcliff, an old time mountaineer, was horribly mangled by a cinnamon bear, near Fairplay, Nev., last Thursday, and he died on Saturday. The Green River (Wyo.) Gazette says: "The Utes are still at work destroying deer and elk for their hides, and occasionally picking up a few head of horses." The D. & R. G. will to-day, Dec. 1st, adopt the new time of the 10th meridian (mountain time) which will henceforth be the standard time of that road. Watches and clocks will be set back six minutes. Numerous counterfeiters have appeared in the Wood River country, Idaho, and some men in putting a new floor in a cabin dug up a complete counterfeiters' outfit, including dies for dollars and half dollars, pulverized glass, etc. In view of the fact that more than thirty murders have been committed in Denver, Colo., within two and a half years, and nobody punished, the public will gladly join with the Utes of that city in the cry of "Hang the Murderers."

In Longmont, Colo., Dr. Strady and Col. Dighton had a fight, in which Strady was worsted. He then offered \$25 to any one who would beat Dighton to death. E. A. Sandy tried it, but Dighton drew a knife and stabbed him in the side so he died in a few hours. A couple of Nevada men have invented a new form of amalgamator and grinder, the object of the invention being principally to render profitable the further reduction of quartz tailings known to contain free gold, but classed as too low a grade to be worked with the ordinary apparatus now in use. The Cheyenne (Wyo.) Leader says: The action of the Stockgrowers' Association at its recent special meeting is already bearing fruit. Warrants were issued the first of the week for the apprehension of ten cattle thieves, who have been operating in the Powder River country, and they are doubtless under arrest before this.

One of the most famous physicians in San Francisco is a Chinaman named Li Po Tai. His patients are nearly all white people, and his income from his practice is some \$6,000 a month, though his charges are but \$10 per week including medicines. All his patients, when able, go to his office and usually take their medicines there. His specialties are dyspepsia, cancers and tumors. Andy McMahon made a flying trip to Wood River last week and returned on Monday. He reports everything lively in and about Bellevue and Hailey, but says that men by the score are being discharged around Bullion, owing to the coming of winter. He made the trip from Hailey to Kuna in less than a day and could have come through to Silver in a day if he could have been met at Kuna by a conveyance—Idaho Avalanche.

SUMMONS. IN the District Court of the Second Judicial District of the Territory of Montana, in and for the county of Beaverhead. William D. Davis, plaintiff, vs. John W. Patton and Maggie F. Patton, defendants. The people of the Territory of Montana send greeting to John W. Patton and Maggie F. Patton, defendants. You are hereby notified that the above named plaintiff, in the District Court of the Second Judicial District of the Territory of Montana, in and for the county of Beaverhead, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons, if served within this county; or, if served out of this county, but in this Territory, within twenty days; otherwise within forty days, according to the provisions of the laws of this Territory, according to the prayer of said complaint. The said action is brought to recover from you the sum of \$400.00 with interest thereon from July 26th, 1882, at the rate of 12 per cent per annum, according to the terms of your promissory note of that date, and for the foreclosure of a certain mortgage of that date, given as security for said note, as more fully appears in plaintiff's complaint on file herein. And you are hereby notified that if you fail to appear and answer said complaint, as above required, the said plaintiff will take judgment against you for the sum of \$400.00 with interest as above provided. Given under my hand and the seal of the District Court of the Territory of Montana, in and for the county of Beaverhead, this 15th day of November, in the year of our Lord one thousand eight hundred and eighty-three. REUBEN L. DAVIS, Clerk. By ROBT. T. WING, Deputy Clerk. C. MEAD, Atty for Plaintiff. (18-52)
