NOTED GERMAN IN CHICAGO

Was the Man Who Took Augusti From Manila.

PRAISE FOR THE AMERICANS

He Corrects Some False Impressions Regarding the Attitude of the Germans.

Chicago, Jan. 3.—Maj. Von Sonnenburg, German military attache to the emperor of Japan, the man who carried the message between Admiral Von Diederich and Admiral Dewey by which permission was given for the transportation of Captain General Augusti from Manila to Hong Kong on a German warship, is in Chicago. Major Von Sonnenburg is the typical young man with an erect carriage. He was seen by a reporter at the Auditorium and related certain hitherto unwritten bits of the history of the American operations in the Philippines.

"I am a student of military affairs," he said. "Perhaps I might be called a theoretical warrior."

Inasmuch as he has the Iron Cross for bravery at Sedan and was in 27 battles of the Franco-Prussian war, he is certainly a practical fighter as well.

"After the Greek-Turk war I went on to the Orient," he continued. "I was with Prince Henry and at the outbreak of the Spanish-American war I accompanied Admiral Von Diederich to Manila. I didn't witness the destruction of Montejito's fleet by your Admiral Dewey, but I saw much of the subsequent events. Because of what I saw I want to correct at least one false impression, that there was any ill feeling between the commanders of the American and German fleets. There was a disagreement, I admit, over the right of the Americans to search German ships, but that was soon settled. Then as to the Augusti incident, there was nothing secret about that transaction. I myself, was the messenger between the two admirals in the discussion over the disposition of Augusti. Admiral Von Diederich asked whether or not Admiral Dewey would object to Captain General Augusti taking passage on one of the German dispatch boats running to Hong Kong. Admiral Dewey said that he would not if the captain general would make some kind of parole by which he would no longer bear arms against the United States. This was given and the incident was closed, as the diplomats would say.

"As to the Americans, both ashore and aboard ship, I may say that I never met a finer body of men. I admire your volunteers. To my mind they furnish magnificent material for soldiers, but I am afraid that they have a hard task before them in the Philippines. I shouldn't want the task of controlling those islands unless I had fully 50,000 men behind me. These natives are going to be hard problems to solve. Since the finishing of the Philippine question, I have been connected with the imperial army of Japan as a student of its methods of military discipline. To speak very conservatively, I believe that next to the German army there is not a finer body of fighting men in the world than that same little Japanese collection of troops. Their discipline is perfect and any nation that picks a quarrel with the Japanese is going to have no easy time of it. I consider them one of the important factors in future Oriental complications."

But when Major Von Sonnenburg was questioned in regard to these same Oriental matters he was silent. He said that he was still connected with the Japanese government and with that Germany as well and could say nothing. Turning to more personal matters, he said that he was on his way to Washington with letters to Secretary Alger and General Miles. He would spend a few days about the department in Washington and then would go on to Berlin to report to his own government.

THINGS MOVING ALONG SMOOTHLY

New York, Jan. 3.—A dispatch to the Tribune from Havana says: American control in Cuba works smoothly. Generals Brooke and Ludlow are beginning the reorganization of the civil administration satisfactorily. The Cubans are well pleased. Part of the Spaniards are sullen, but the commercial classes are satisfied with the new regime. The understanding is that no members of the former autonomist cabinet are to be included in General Brooke's proposed council of advisers. They are all unpopular and lack the confidence of both elements. Civil Governor De Castro, by order of the military authorities, has abolished the use of passports and of stamped paper in the government office. They were annoying. Prompt steps have also been taken for improving the system of hygiene. The chief interest on Monday centered at the customs house. Colonel Bliss was assisted by the treasury expert, Mr. Donnellson, who will be in charge at Santiago. The merchants had prepared a change. Since noon on Sunday fifteen vessels had entered the harbor with cargo and for discharge under the American tariff. The first vessel was the Norwegian schooner Kitty, from Mobile, with merchandise. A Spanish ship, the Mexico of Barcelona, arrived in ballast. Among Monday's arrivals was the Segurana, from New York, with merchandise.

American shippers seem to have improved their opportunities. Some confusion resulted, as no tariff rates had been translated into Spanish. This deficiency will soon be corrected. The importers had secured American money with which to pay duties. The post-office service for the city and foreign mail shows improvement. The confusion still is due to inefficient employees. The demoralization in the island service cannot be remedied immediately. Chief Director Hathburne's first order after taking charge was to abolish the franking privilege, which has been so seriously abused. A mistake made in Washington in printing 2 1/2-cent stamps for American correspondence has been remedied by selling the stamps for 2 cents. The police service is being slowly organized.

led. No general disorder exists. Two or three homicides during the past two days have been of the ordinary kind and have had no significance. Cubans and Spaniards are getting along together pretty well. Some fears of social demoralization of which Americans complain will be corrected when the police organization is more advanced. The military authorities do not want to use troops for duty of this kind.

CLOSER RELATIONS ARE WANTED

New York, Jan. 3.—The Times says: Negotiations have been pending for some time for closer relations between the New York, New Haven & Hartford and the Boston & Albany railroads, and within the past three days these negotiations have assumed a phase which, certain railroad men say, may result in the control of the Boston & Albany passing into the hands of the other New York city and improving its trackage and terminal facilities. For the past two or three years, the New Haven & Hartford management has been extending its property holdings north of New York city and improving its trackage and terminal facilities. For the past two or three years, the New Haven & Hartford management has been extending its property holdings north of New York city and improving its trackage and terminal facilities. For the past two or three years, the New Haven & Hartford management has been extending its property holdings north of New York city and improving its trackage and terminal facilities.

HALSTEAD MAY BE PROMOTED

New York, Jan. 3.—The Times this morning repeats the story denied on its first publication last week that the retirement of Samuel Sloane from the presidency of the Delaware, Lackawanna & Western railroad next month will be followed by the promotion to that office of W. F. Halstead, at present second vice president and general manager of the road. Mr. Halstead has been connected with the Lackawanna system continuously for about 47 years. He was 17 years old when he entered the service of the company, and he worked himself up through the various grades of trackman, conductor, assistant superintendent, division superintendent and superintendent. Since June 1, 1888, he has been the general manager of the entire system. The selection of Mr. Halstead as President Sloane's successor will signify the desire of the dominating influences in Lackawanna to continue the present policy of management. Mr. Halstead has practically directed the operation of the road for the past five years, and the relations between him and President Sloane have been entirely harmonious.

REV. HILLIS WILL SUCCEED ABBOTT

Chicago, Jan. 3.—News was received here late last night that Rev. Newell Dwight Hillis, pastor of the Central church in this city, is to be called to the pastorate of the famous Plymouth church of Brooklyn, as the successor of Dr. Lyman Abbott. The formal call will be extended to Dr. Hillis soon after the meeting of the committee of the church, to be held today. Dr. Hillis is a native of Iowa, and is 40 years of age. He was educated at Grinnell academy, at Lake Forest university and at McCormick seminary. For three years after leaving his theological studies he was pastor of the First Presbyterian church of Peoria. In December, 1894, he succeeded Professor Swing at the Central church. Dr. Hillis, like his predecessors of the Central and Plymouth churches, is a writer. His four books he has published are "Fore-tokens of Immortality," "How the Inner Light Pales," "A Man's Value to Society" and "The Investment of Influence."

Big Distillery Reopens. Peoria, Ill., Jan. 2.—The Great Western distillery, destroyed by lightning last June, has been remodeled and enlarged and will resume today with a capacity of 15,000 bushels of grain, which means an output of 60,000 gallons of alcohol every day. This is the largest distillery in the world, and work has been pushed on repairing it owing to the unprecedented demand for spirituous powder by various foreign governments.

According to the novels of Richardson and his contemporaries, in the olden days men used to admire women who screamed upon the least provocation and fainting on all occasions, and in the modern days men used to admire women who were always tottering off of their chairs, falling in a "dead faint" in their lovers' arms, having their stays cut and their hands slapped, their temples bathed and their noses smothered with salts.

Both the women and the men have changed radically since those days. The modern man does not admire the fainting woman, neither does he marry her. He chooses a woman who is only a man, and lives to regret it. There is no reason why any woman should be a fainting woman. General bodily weakness and nervousness in women are due to weakness or disease of the delicate, special organs of the sex. Dr. Pierce's Favorite Prescription is a scientific and unfailing remedy for all disorders of this description. It imparts health and strength to the sensitive and susceptible organs upon which a woman's general health is largely dependent. It quiets and tones up the nerves, restores the vigor of youth, rounds out the emaciated form, imparts the glow of health to the complexion and transforms weak, sickly, nervous invalids into new, healthy, happy women. It fits for wifehood and motherhood.

"Words fail to describe my suffering before using Dr. Pierce's Favorite Prescription," writes Mrs. Sallie Key, of Tampico, Granger Co., Tenn. "I had a general debility, my face was yellow, my hair falling out, my nerves were all in a flutter, and I was very nervous and suffered terribly at all times. My feet and limbs were cold. I had palpitation of the heart, and my back was so weak that I could not turn myself in bed. The thought of food sickened me. My kidneys were very badly affected. I had been down six months. I could not sleep night or day and had given up all hope. My husband got me some of Dr. Pierce's Favorite Prescription. I took it for five months and the end of that time could walk a mile and do all my own housework. I am sure I would be in my grave if it had not been for the 'Favorite Prescription.'"

REGULARS SAIL SOON

Will Replace the Volunteers in Philippines.

GENERAL OTIS IS NOTIFIED

That He Can Expect Them the Latter Part of This Month or Early in February.

Washington, Jan. 3.—Gen. Otis, at Manila, has been notified by cable of the arrangements that have been completed to speedily reinforce his command by the dispatch of six regiments of regular infantry. The Twentieth, now at Fort Leavenworth, will sail from San Francisco on the transport Scandia, Jan. 7, and is timed to reach Manila by the end of the month. Maj. Gen. Lawton has been in command of the Fourth regiment, now at Fort Sheridan, Ill., the Twelfth at Jefferson barracks, O., and is directed to sail with them Jan. 12, to the transports Mohawk and the Massachusetts, proceeding by way of the Suez canal. This force under Gen. Lawton is expected to reach the Philippines the second week in February. The other two regiments selected for garrison duty in the Philippines, the Third infantry, at Fort Snelling, Minn., and the Twenty-second at Fort Crook, Neb., will depart from San Francisco as soon as transports are available. The army steamer Senator, which left Manila, Dec. 15, with the Astor battery and other troops bound for San Francisco, is due there early next week, and will be ready to return with either the Third or the Twenty-second regiment five days later.

While everything is being done by the war department authorities to expedite the departure of these troops in compliance with repeated information from Gen. Otis that he is anxious to exchange his volunteers for regulars, it has been found impossible to start them much earlier than the middle of January, which was the time set when it was first decided two weeks ago to send a portion of the needed force by way of New York on account of the lack of transport facilities in the Pacific. Until these troops reach the Philippines it is not believed by the authorities that Gen. Otis will undertake any aggressive operations for the extension of the American sovereignty over the various provinces now held by the insurgents, although he has full discretion in the matter, but that he will reserve his force for use in emergencies, should the insurgents grow unmanageable in the vicinity of Manila. Confidence was expressed at the war department that there would be no battle at Holo after every resource of peaceable negotiations to induce the rebels to evacuate the city had been exhausted.

INDIANS ARE THREATENING

Tacoma, Wash., Jan. 3.—Passengers who arrived on the Alki from Alaska, some of whom left Dawson as late as December 3, report that the Chiloot Indians are terrorizing the white inhabitants of Pyramid harbor, near Skagway, and have threatened to massacre them. The night before Christmas whites appeared at the Chiloot village with a big supply of whisky, which was sold to the Indians without reserve. The entire tribe got drunk Christmas, and with knives and guns compelled all the whites in that locality to leave. When the Alki left Skagway no blood had been shed, but trouble was imminent. On reaching Indian river the miners were informed that two men, names unknown, had frozen to death on the Yukon between Selkirk and Dawson. They were towing a snow fall of dressed or frozen beef and on one cold night perished. The winter has been so open that Lake Bennett remained frozen up to December 23. In October a speculator cornered the tobacco and butter market at Dawson, and since then both articles have been selling at from \$2 to \$3 a pound.

Given Public Whipping.

Evansville, Ind., Jan. 3.—Miner Garrett, Elijah Scott, Frank Ourl and William Morris, boys, ranging from 10 to 15 years of age, were given a public whipping in the police court for stealing some old wash boilers. Their parents were given the option by Judge Winfrey of whipping the boys or having them sent to the reform school. The boys were led to the hall by the turnkey and given 25 lashes each. Their yells could be heard for two blocks away. One of the boys got so weak after the flogging that he could hardly walk from the police station.

Masquerade Emporium. 105 W. Granite.

\$10,000 REWARD.

We, a committee appointed by the fellow employees of John J. Daly, who was murdered on the morning of November 9, while performing his duties as an election officer in precinct 8 of this county, do hereby offer in behalf of said employees a reward of \$10,000 for information which will lead to the conviction of the murderers.
