## FILIPINOS ARE NOT SATISFIED

With the Terms Offered by the Americans

## DELEGATES ARE PRESENT

At a Conference That is Being Held in Manila—What Their Chief Objections Are

Manila, May 23.—The Filipino commissioners spent the day at the residence of the American commissioners. They discussed every point of the scheme of government and peace proclamation details asking for information as to what personal rights would be guaranteed them. It was explained that they would be the same as under United States legislation. The Filipinos also desired information as to the school system to be established and approved of the American policy of separation of church and state. They chiefly objected to the scheme on the ground that it gave them personal liberty which they knew they would have, but did not give them present liberty. Finally the Filipinos said they were personally pleased with the plan but could not endorse it officially.

## Dewey Has Sailed

Hong Kong, May 23.—The cruiser Olympia, with Dewey on board, arrived here from Manila. She was saluted by the ships of all nationalities. Dewey, Captain Lambertson, Lieutenant Brumby and United States Consul Wildman were received by a guard of honor of the Royal Welsh fusiliers when they landed to visit the governor of Hong Kong, Sir Henry A. Blake, Major General Gascoigne, in command of the troops, and Commodore Powell, commanding the naval forces. The visit was afterwards returned by the officials mentioned. Dewey is in bad health, being too ill to attend the queen's birthday celebration. The Olympia is going to dock here and will remain ten days at this port.

## Will Be Promoted

Washington, May 23.—General Otis cables the following: "Manila, May 23.—On the urgent recommendation of Lawton, I recommend Colonel Owen Summers to be brigadier general of volunteers by brevet, for conspicuous gallantry at Massan, Bulac bridge and San Isidoro; Captain J. S. Case, major of volunteers by brevet, for distinguished services and gallantry at the above places while acting as division engineer officer. OTIS."

## THE CASE IS A REMARKABLE ONE

New York, May 23.—A special to the Tribune from Washington says: The war department has received from the Philippines the official record of a remarkable trial by court martial of an officer who has escaped conviction on a charge of a grave character in a manner altogether inexplicable to the military legal authorities here. It appears from the order approving the proceedings, which did not, therefore, require action in Washington, that Capt. Jones B. Jeffrey, assistant quartermaster of volunteers, was tried at Manila for "quitting his post, of pillage and plunder, in violation of the forty-second article of war," and for conduct unbecoming an officer and a gentleman. Under the first charge it was specified that Capt. Jeffrey while on duty at Iloilo one night in February, left his post and entered the house of a native against her protest and appropriated household furniture, silverware, jewelry, etc., to the value of about \$500, which he divided among the privates with him. The specifications under the second charge describe him as then appearing intoxicated among the men and offering them liquor, etc. Just how he was acquitted, does not appear, but he was found not guilty and that is the end of the affair so far as the authorities here are concerned. Captain Jeffrey is a native of Canada and was appointed to the volunteer army from Illinois in May, 1898.

## Colored Men's Plea

Chicago, May 23.—At the banquet of the Congregational club last night at the Palmer house representatives of the colored race discussed with their white brethren the problem of the negro in the south. The Rev. L. B. Maxwell of Savannah, Prof. R. W. Taylor of Tuskegee university and Mrs. Ida Wells Barnett

were the colored speakers who pleaded for the education and protection of the negro. The Rev. L. B. Maxwell's address was entitled "The White Man's Burden," who set forth the mission of Congregationalism to the negro. Referring to the elective franchise the speaker said that those who contended that it should have an educational basis were not far apart from the negro in that view. Said Mr. Maxwell: "All we ask is an equal standard for all." President J. G. K. McClure, of Lake Forest university, in the course of an address on "The Burden of the Black Man," said that the solution of the problem was in the determination of the will of the colored people. He said the colored man should not be asking "What are my rights?" nor should we let him, but, "What do I owe to society?" Thus would he elevate himself. Prof. Taylor said that whether the burden was the white man's or the black man's made little difference. The divine injunction "Bear ye one another's burdens" would, if obeyed, lighten both. At the conclusion of this discussion Mrs. Ida Wells Barnett spoke on the southern lynchings, pleading for the enforcement of the laws equally for black and white.

## ARE TESTING THE INHERITANCE TAX

Chicago, May 23.—The constitutionality of the inheritance tax law has been attacked in Judge Carter's court by the heirs of Albert M. Billings, who died two years ago, leaving an estate valued at \$7,500,000 to be divided among his widow, Augusta, his son, C. K. G. Billings, and his grandson, Albert Billings Ruddock. The authorities taxed the estate, under the law, about \$70,000. Attorneys say that the decision of the higher court, after the rendering of the opinion of Judge Carter will be awaited with interest as the validity of the act has not been previously attacked on the grounds advanced. Counsel for the heirs argue that the fact that the inheritance tax establishes a tax when the will provides that the remainder of the estate, after the death of the beneficiary, goes to a lineal descendant while no tax is provided for where no provision for the disposal of the collateral remainder is made to take place after the death of the heir, makes it void as in conflict with that part of the constitution of the state which provides that all privileges in the same class shall be equally taxed. The will of Mr. Billings provided that after the death of his son and grandson the part of the estate he had left them should descend to their lineal heirs. Under the law the estate so disposed of is taxable whereas if it had been left to the heirs without restrictions as to its disposal after their death and by them left to some institutions or to persons out of the lineal line of descent it could not be taxed. Judge Carter, after having listened to arguments took the case under advisement. A decision will be rendered in a few weeks and the case will be appealed to the higher courts by the defeated party.

## SEVEN NEGROES WERE LYNCHED

Cincinnati, May 23.—A special to the Enquirer from Diaz, Mexico, says: There is great excitement in the town of San Diale, ten miles from here, over the lynching of seven colored laborers on the Mexican Central railroad. Jose Santo, a Spanish negro, attempted to assault the wife of Senor Dupley, a ranch owner and escaping from the plantation was tracked by bloodhounds and in company with nine others captured in a hut on a river bank opposite Eagle Pass. The regulators did not wait to prove the guilt of any of the negroes but hung three and shot four more who were attempting to escape. The officials are swearing in deputies as race trouble is threatened in the colored quarters. The four negroes killed are Americans and have all served sentences in the Texas penitentiary.

## The Trip to Dawson.

St. Louis, May 23.—R. P. Elliott, an extensive mine owner of Dawson City, is stopping at the Planter's hotel. Mr. Elliott has just returned to the United States after an absence of nearly a year and a half, which he spent in the gold fields of the Klondike. He is full of enthusiasm over the new country. He left Dawson City in March and will return late in the year. He said: "The Yukon and White Pass railway is now completed from Skagway to the summit of the pass, a distance of about 18 miles and for a distance of about twelve miles further the road bed is ready for the rails. The grading is being done right up to within a few miles of Bennett and by July 4, the management expects to have trains running between Skagway and Bennett, where the passengers can take a steamer to White Horse Rapids, thence by the tramway around the rapids about four miles in length to the other side, where he can take a steamer direct to Dawson. When a connection is made the trip from Seattle to Dawson can be made in from ten to twelve days. It will be a wonderful trip."

## They Want to Retire.

New York, May 23.—A special to the Herald says: An official application has been received from Commodore G. G. Heister, recently ordered to command the Puget Sound naval station to be placed on the list of applications for voluntary retirement. Four captains, three commanders have now applied for retirement, making with casualties which occurred during the year, all the vacancies required by law.

## THE PARIS WILL BE FLOATED

Probably at the Next High Tide.

## THE DAMAGE DONE TO HER

Salvage Tugs Are on the Way From Liverpool and Will Try to Get Her Off the Rocks.

Falmouth, England, May 23.—Most of the passengers of the American liner Paris, which ran on the rocks off Lowland Point Sunday morning, left here on special trains this morning. The majority will take passage on the St. Paul, which sails for New York on Saturday next. The weather is favorable to the stranded ship. Soundings show the ship to be resting more favorably owing to the fact that she has been considerably lightened. She is not straining at all, and there is a perceptible movement of the ship showing a clear passage free from rocks.

Powerful tugs belonging to the Liverpool Salvage association are expected to arrive at the scene of the wreck this evening, and the divers believe the additional pumps will clear the first four holds. The fifth is so badly pierced that no amount of pumping will clear it. The remaining six holds are secure. It is expected the steamer will come off the rocks without sustaining further damage. The officers of the Paris still refuse to furnish any explanation of her getting out of her course.

## BISHOP WHIPPLE GIVES HIS VIEWS

New York, May 23.—Right Rev. Benjamin Whipple, Episcopal bishop of Minnesota, who has just returned from England, said to a Tribune reporter: "The most remarkable thing I noticed in England was the friendly spirit manifested in every quarter to our country and with it a great desire to learn more about the organization of the missionary work of our own branch of the church. There has been a good deal of talk in England and elsewhere about the crisis in the church of England on the question of ritual. I believe that all this is to be settled by the wise counsels of the bishops. A council of advice was in session, presided over by the archbishops of Canterbury and York, to which all these questions presented by representatives of the different schools and I thought I detected in all minds a conviction that the Godly counsel and advice of bishops would be followed. But the question which was most prominent and of which I saw most was that connected with Christian work at home and abroad. I think that the great heart of England realizes, as it has never realized before, that God has placed these English speaking people in the forefront of humanity, reports of constitutional government and Christian civilization, to carry their benefit to all the people of the earth and underlying this desire for closer relations with the United States was the thought that we had a common work and a common mission to do for humanity. There is a good deal of talk about the peace congress, but so far as I could judge the attitude was one of hopefulness that out of this meeting the horrors of war would be mitigated if not entirely done away with. Educated Englishmen give the Czar of Russia credit for the highest motives in proposing the conference."

In response to an inquiry as to how the English clergy regarded the Briggs controversy, Bishop Whipple said they did not know anything about it. He said that he had not heard the subject mentioned. Asked about his own opinions of the Briggs case, he said:

"I have not read Dr. Briggs' book and consequently could not criticize it intelligently, but I will say that I have the utmost confidence in Bishop Potter, whom I have known through all of his ministry. He never loses his head. In every fibre of his being he is loyal to his master and to his church of which he is the chief shepherd. This question which agitates so many minds is not a new question. The Bible is a very wonderful book. It was two thousand years before the first chapter was written before it was finished. The Bible has been in the past and will be in the future, the revelation of the gracious purposes of God to his children and the story of his infinite love. There is a divine element of the sacred scriptures which it is impossible that any human theory or man investigation can ever touch. A devout Christian need not have the slightest doubt of anxiety over critical scholarship. Truth does not fear investigation and I am sure that it will be in the future as it has been in the past, that not one iota of God's truth and his revelation can ever be affected by honest examination. Dr. Briggs has received much praise from scholars of different commu-

nions, even the Roman Catholic church and it is only fair to believe him when he declares that from his heart he accepts the creed and the doctrine of the church. Bishop Whipple said that India, in which he has been interested for years are in a more hopeful condition today than they ever have been. The standard of government employment the Indian service is much higher formerly and the department atington exhibits a deep interest work.

## The Strike is Off.

Buffalo, May 23.—The grain shovellers strike was settled this morning when an agreement was signed by Contractor Connes to withdraw all men now employed by him as grain shovellers and submit names of his old men to a committee of five with President Keefe of the Longshoremen's association as chairman who shall decide the eligibility of such members to join the new local. The agreement was announced to the strikers today but it is believed there will be no further hitch. The coal and ore handlers may be a possible disturbing element. While they originally went out in sympathy with the scopers they have since formulated a demand for increased wages. It is believed their grievance will be adjusted satisfactorily during the day. The marine firemen's sympathetic strike has been declared off and the men are returning to work. Freight handlers are asking for the discharge of several bosses but their grievances will probably be satisfactorily arranged.

## Have Bought a Bank.

New York, May 23.—It is reported Perry S. Heath, assistant postmaster general and his brother, Fletcher Heath, have negotiated for and practically acquired a controlling interest in the stock of the Seventh National bank of this city. In addition to this report it is further rumored that they are on the point of assuming control of the bank as a result of their reported purchases of the stock. Officers of the bank refuse to speak of the matter. The bank's capital is \$300,000. The last bid price per share of its stock was 150. The bank has a surplus of about \$100,000, its statement also showing loans of \$1,700,000, deposits of \$2,500,000 and undivided profits amounting to \$10,000.
