IT COMES HIGH The first three measures introduced at the session of the Fifteenth legislative assembly were appropriation bills.

Less than twenty-four hours after the enactment of his financial message to the lawmakers had appropriated \$100,000 for legislative expenses—a sum in excess of the amount expended by the Fourteenth legislature.

Perhaps the pre-eminence of the members of the legislature—those made intelligible to all the members represented—will be fulfilled. Certain there is time enough to do that, and at this time it would not be fair to say that these promises will be fulfilled.

But, as your task, the people of Montana are going to realize the high cost of legislation. That is an expenditure other states are having to pay.

AS TO MANAGERS

From legislative sources comes an report that for the resignation of Chairman Wilson of the national committee. He would have been a big figure had Hughes won.

Wilson was not nationally known until Mr. Hughes picked him as an ad and trusted friend, the campaign manager. He knows not much about the West—at least, he didn't know much about this section a few months ago.

Under the Wilson management Wilson lost New York and suffered severe defeat in New Jersey. His own state his success was due to unexpected results in states like California and Washington and Montana.

Wilson's political life in Montana was many thousands greater than any democratic in this state had dreamed of, and it's a fact that the democratic part of the presidential campaign in Montana was not very well handled.

ally in this state no committee had much, if anything, to do. The voters contributed heavily toward it, spite of his known indifference toward suffrage, and a good many attempts were captured by the slogan about keeping it out of war.

MUST PLAY IT OUT

Two years ago it is. When a company spends a slight playing position, the man who holds most of the stock gets out first in the early morning hours.

NOT STANDING STILL

Last night it became a matter that the ways of the United States census bureau are past finding out. Many communities of Montana, at various times, have had occasion to find fault with the conclusions of the bureau.

PIMPLES ALL OVER FACE AND NECK

Got Worse, Would Smart, Bothered Several Months. In a Week Cured Soap and Ointment Healed.

"I noticed that I had a number of pimples on my neck and face. I did not pay much attention to them, and finally they got worse, and I tried... but it did not help. The pimples were rather large and soft, and they itched and oozed a little. They were scattered all over my face and neck, and at night I could hardly go out for fear of people noticing the condition of my neck."

HERE AND THERE

There Sun is not trying to reduce the heat, he is only trying to get to get through winter and making widows and orphans, and he has a better right to get it, unless in the summer—Montana Commercial Appeal.

LUKE M'LUKE SAYS
