DRIVERS OF AUTOS FINED BY WHITTY

Accident on Flat New Year's Morning—One of Drivers Had Few Drinks.

S. S. Nelson and George Omer, owners of two automobiles which met in a collision 50 feet outside of the city limits several mornings ago, were in police court this morning and each was fined \$20.

Mrs. Paxson, one of the occupants of the machines, was a witness. She said she didn't remember many of the details other than that of hearing a crash. She was injured in the wreck.

Attorney William Meyer for Omer attempted to prove that his client was slowing down to meet the requirements of the city ordinance when the accident happened.

The testimony showed that the driver of one of the machines had several drinks. It was denied, however, that he was drunk.

When Mrs. Jones, whose husband bought a house recently, attempted to collect the rent from Mrs. Thomas, the tenant, the latter chased her out with a broom and threatened to "break her head." Mrs. Jones called the police and Mrs. Thomas was fined \$5 in police court this morning. Sentence was suspended.

CHILDREN FROZEN IN BAD BLIZZARD

Several Lives Lost in Storms in Eastern Montana and the Dakotas.

Wibaux, Jan. 12.—One little girl, while on her way to school yesterday, was caught in the blizzard which swept this part of the country and was frozen to death. Another little girl was lost. A group of searchers started out last night to look for her and at a school teacher, but with no results. A crash. She was injured in the wreck.

News that reached here from Fargo is to the effect that the worst blizzard in the history of that city is raging. Three children are victims of the storm. One was burned to death in his home, which caught fire from an overheated stove. Another died from exposure after being driven out of a burning home and the third was lost in the storm.

After several hours' search Philmore Muhl, a 7-year-old girl, who was lost near Beach, S. D., was found in a homesteader's cabin. Her legs and feet were frozen and her recovery is doubtful.

Trains through here are many hours behind schedule.

WALKERVILLE NOTES

The regular meeting of the Walkerville city council will be held Monday in the city hall.

Miss Josephine Helms of Anaconda is in Walkerville visiting her brother.

Ed Grimes, former superintendent of the Bell mine, is able to be up after an illness.

Fred A. O'Donnell has been appointed night patrolman by the city council. He started his duties Thursday.

"Jack-the-Peeper" is still at work in Walkerville. Last night he was discovered prowling around on Toboggan street and several boys gave chase but he was too fast and escaped. It is believed by the officers in Walkerville that the man is just a drunk.

The following officers of the choir of Mount Bethel Methodist church were elected at a meeting last night: J. B. Williams, president; Richard Lowrey, vice president; Mrs. J. B. Williams, secretary; Miss Elsie Nichols, treasurer; Ernest Oates, choir leader; E. J. Saunders, librarian; Miss Lusha Goodwin, organist; W. H. Williams, Ernest Oates, and E. J. Saunders, executive committee.

A. Vignus of Hornet street is suffering from a severe cut on his head and an injury to his back which he received Wednesday in a mine accident.

The district lodge of the Independent Order of Good Templars, with three lodges from Anaconda and two from Butte, will be entertained tonight by the Walkerville lodge No. 16, in the Masonic hall of Walkerville. Officers for the year will be elected.

WANT STATE PROBE OF PRINT PAPER SITUATION

St. Louis, Jan. 12.—An inquiry into an alleged print paper combination is asked by the Missouri Press association in resolutions adopted at a meeting here, calling on the attorney general of the state to conduct the inquiry. A resolution calling for a similar investigation on the part of the attorney general of Illinois was adopted by the executive committee of the Southern Illinois Editorial association.

RIVER TURNS SPINDLES FOR 400 ACRES OF MILLS

Lawrence, Mass.—More spindles are turned in the mills of Lawrence by the power of the Merrimack river than are turned by any other river in any other city in the world. Four hundred acres of mills, employing 40,000 hands, put out 2,000,000 tons of woven fabric each year.

HIGH POST FOR A GERMAN IN U. S.

Washington, Jan. 12.—Hanel Hancsel, counsel of the German embassy, today was informed by the German foreign office that Emperor William had appointed him minister plenipotentiary in the German diplomatic service. He will remain attached to the German embassy for the present.

FOR POSTAL TUBES IN THE BIG CITIES

Washington, Jan. 12.—By a vote of 152 to 104 the house in the committee of the whole today adopted an amendment to the postoffice appropriations to build postal tube service in New York, Chicago, Philadelphia and St. Louis.

Worth Attention of Women.

When you feel too tired to work, when dark puffs appear under your eyes, when you wake up weary, with backache or pains in sides and loins, when muscles and bones ache, when you suffer rheumatic twinges, when lumbago puts you down, then you know the kidneys are weakened or disordered. Mrs. T. J. Bucknell, Route 1, Hardy, Neb., writes: "I am recovering from an attack of lumbago, by the aid of Foley Kidney Pills. They surely have helped me." Newbro Drug Co.—Adv.

EXCELLENT BILL OPENS AT EMPRESS TOMORROW

Tomorrow afternoon at 1:30 o'clock and running continuously until 11 p. m., the Empress will inaugurate another vaudeville program replete with attractive offerings. Some surprises are in store for theatergoers during the Sunday, Monday and Tuesday which this bill will run.

Charles Prell's miniature circus will head the new list of attractions. Some bright features will be introduced during the presentation of this offering, including "The Robbery of the Overland Mail." This act is one of the sensations of the season in vaudeville.

The London Trio of premier singers will render a repertoire of high class selections and will be heard in selections from "The Pirates of Penzance." This is one of the delightful treats of the year.

Wilson and Wilson in "The Bandman and his Band" will furnish enough comedy to please the most exacting. They are natural born fun-makers and always succeed in keeping their audiences in roars of laughter.

Bayle and Patsey, the long and short performers, will present what they style some "nifty nonsense." They are the possessors of good voices and will introduce some vocal numbers of merit during their performance.

Harris and Nagel are two comedians who are thoroughly at home on the stage. They have been most successful since their advent in vaudeville and are seen and heard in a bright line of music and comedy.

Reo and Helmar will present their famous physical masterpieces. They are marvels of flexibility and grace and their work along athletic lines has placed them among the foremost exponents of physical culture.

The Empresscope will portray "The Shielding Shadow" and a Pathe semi-weekly news pictorial.

BIG FEATURES ARE PRESENTED AT PANTAGES

"Pauline," the mysterious performer who has puzzled scientists and physicians with his remarkable exhibitions throughout the world, opened his engagement at the Pantages Broadway theater this afternoon. The most remarkable thing done by "Pauline" is the demonstration of his ability to control the flow of blood in the human body. This feat is well worth seeing and thousands have ventured an opinion as to the methods used.

Marie Russell, the belle of Kentucky, is a vivacious comedienne whose entertaining qualities are known from coast to coast. She will be heard in a repertoire of her latest successes.

"After Ten Years" is the name of a dramatic sketch presented by the Hugo B. Koch company of players. It describes how a husband discovers his wife's past affair, forces a confession from her, and eventually clears her from all blame.

Goldsmith and Pinard present a novelty offering in which they combine some excellent instrumental music with a bright line of comedy talk. They are accomplished musicians and their fun making efforts always result in no end of fun. They are one of the features of the new show.

Evelyn and Dolly are two nice looking and lively young ladies. They are Buster Brown performers and their novel sketch consists of fancy bicycle riding and roller skating. A feature of their offering is a Chinese song and dance in native costume.

The Pantagescope portrays the latest news events of the day in pictures, while the Pantages orchestra is heard in a new musical program.

PHIL LEVY HOME FROM COAST TRIP

Local Theatrical Magnate Has Much Praise for Alexander Pantages.

Seattle is basking in almost ideal summer weather and the many Montana people who are now making their homes there are very prosperous, according to Philip Levy, general manager of the Ansonia Amusement company, who, with Mrs. Levy, returned last night from a week's trip to the coast. Mr. Levy was principally engaged in business on his trip and met Alexander Pantages, the head of the Pantages circuit. He says:

"Mr. Pantages had just returned from a three months business trip in the east during which he had practically his choice of the very best vaudeville talent in the United States.

"I regard Mr. Pantages as one of the greatest, if not the greatest, showmen in America today. In the east they call him the 'Napoleon of the showmen of the west.' It is quite likely that the same title will be given him in the east in the not far distant future as Mr. Pantages has plans for invading the eastern field. In fact I understand he is contemplating plans for theaters in St. Louis, Kansas City and other cities. He intends to maintain a string of houses from one coast to the other.

"Mr. Pantages has just completed a million dollar house in Minneapolis and he is building quite as elaborate theaters at the present time in Tacoma and Vancouver."

Mr. and Mrs. Levy had a very pleasant trip.

MERCURY HITS TOBOGGAN AGAIN

Slips to 9 Below—Trains Delayed by Heavy Storms in North Dakota.

The mercury tobogganed during the early hours of last night here, reaching the 9 below zero mark by 11 o'clock and then recovering, shook itself and commenced a slow climb. It was the coldest night for three weeks. At 10 o'clock this morning it was 4 above and at noon it was 7 above.

Yesterday's maximum was 15 above. Trains are running late today although local transportation is not affected. However, to the east of Butte big storms are raging and the temperatures are very low. The Northern Pacific trains from the east are five and a half hours behind schedule. The Milwaukee is from four to five hours behind time, both from the east and the west. The Great Northern trains are five hours behind schedule and the Short Line trains are behind their regular running times about one and a half hours.

Storms in North Dakota are blamed for the big delay in trains. It is understood that the trains are finding great difficulty in getting through that state, due to piled up snow drifts caused by the heavy winds, while the mercury is much below the zero point.

Following are some figures on temperatures in different parts of the state as furnished through the courtesy of the Montana Power company:

BROTHER AND SISTER FORM BUSINESS UNION

Erma Law, 12 Years Old, Sends Bill for Ten-Year-Old Aubrey's Work.

That commercialism and business methods have taken hold of the juvenile population of this city is instanced by a most unique bill presented at the office of the Butte Electric Railway company this morning. The claim for remuneration reads:

"Butte Electric Railway, Dr. to E. Aubrey Law, publicity agent and advertiser—for professional services rendered, 50 cents. Owing to my many theatrical engagements and other business I have neglected sending this bill. Hoping you will not be as long in paying it as I have been in sending it, I remain, yours very truly, E. A. Law, by Erma M. Law, secretary."

The humor of the carefully worded bill becomes apparent when it is stated that the secretary is a 12-year-old miss, daughter of Ed Law, the assistant dispatcher at the street car office, and the professional service-giver is her 10-year-old brother.

In explanation of the bill, it was stated today at the street car office that Aubrey had posted some notices for the company before the Christmas holidays and the failure to send the bill before this is accounted for by the fact that his sister, who is his manager and secretary, has been busy appearing in Mrs. Sybil Brown's dancing class. A big check for the 50 cents will be dispatched at once to the secretary.

Mrs. William Jane, 143 Missoula avenue, who was injured when she was struck by an automobile in the early part of the week, is improving rapidly and will be able to leave St. James hospital on Sunday, according to physicians.

HAYES FINDS ANOTHER OF MISSING PICTURES

Exhibitor Sold it to E. D. Elderkin—Hayes Received Nothing.

Another episode in the business career of B. Martin Baker, the promoter and father of the titular "Butte Newspaper Artists' association," who left several unpaid checks behind him, was brought to light by Lee Hayes, chief manager of the Anaconda Copper Mining company, today, who has found another of the pictures which were lost by showing them at Baker's exhibit. "I have lost five altogether now. I learned that Mr. E. D. Elderkin bought the 'South Boulder' picture for \$35. Mr. Baker was my agent in the sale and he has not paid me anything for them. Of the pictures missing, two are framed and three are not. They are all small pictures," Mr. Hayes said today.

It is the belief of Mrs. Schatzlein of the Charles M. Russell pictures and bronzes which were shipped from Great Falls for exhibition and sale and returned except the picture, "The Dances Must Pay the Fiddler," and four bronzes, which were sold. A detective agency has notified quite persons that Baker left Butte on northern Pacific train No. 2 Monday night, and went east and is in the vicinity of the Twin Cities. Unless some aggrieved citizen swears to a complaint, nothing can be done, however.

ITALY ADMITS LOSS OF BIG BATTLESHIP

Rome, Jan. 12 (via Paris, Jan. 12).—The admiralty officially announces the loss of the battleship Regina Margherita. The announcement says:

"Serious military reasons, which have hitherto prevented the publication no longer existing, it is announced that the battleship Regina Margherita struck two mines on the night of Dec. 11 and sustained such severe damage that she sank by the head in a few minutes. A majority of the crew of 945 went down with the ship. Unfavorable conditions made the rescue of the survivors most difficult but 270 were saved. The captain and 14 officers are among the lost.

"Beyond the losses of ships officially announced up to the present there have been no others and news to the contrary, which has been in circulation for some time, is consequently false."
