**C. H. Lane Will Become Candidate for Re-election. Would Finish Work.**

Mayor Charles H. Lane will be a candidate to succeed himself as mayor of Butte, according to the statement he made this morning. The mayor believes there have been movements started during the present administration that he would like to see completed before retiring to private life. "Are you a candidate for mayor?" the mayor was asked this morning. "Yes, I will enter the race for a second term," he replied. "My friends want me to run and I feel that there are some things that have been started that I would like to see finished. "I don't believe Butte has ever had a better administration than has been given the people during the past two years. The administration has been efficient and I hope that we will have another two years of prosperity equally great."

finds its widest field of usefulness, because its tonic effect upon the flabby mucous surfaces is just what is required. Given in tablespoonful doses in sugar and water every two or three hours, Duffy's helps digestion and assimilation of food, giving the system sufficient stamina and power to resist and throw off the dangerous germs of grip. Many people know that the usual precautions taken for the prevention of other diseases will not hold good in grip—that is why they are so particular to "Get Duffy's and Keep Well!"

**Measure of Precaution.**  
The Swiss federal council early this week, while expressing confidence that none of the powers contemplated a violation of Swiss neutrality, ordered the mobilization of additional troops as a measure of precaution. Both Germany and France assured Switzerland recently that they would continue to respect her neutrality.

**SWISS COMMANDER WOULD MOBILIZE ENTIRE ARMY**  
Paris, Jan. 19 (5 a. m.).—Gen. Ulrich Wille, commander of the Swiss army, wishes to mobilize all of Switzerland's military forces, according to a Berne dispatch to the Petit Parisien. The federal council is said to regard such a measure as excessive and to have decided to mobilize only the second and fifth divisions, but it is considered not improbable that further units will be called to the colors.

**RUSSIANS TOOK NEARLY HALF MILLION CAPTIVES IN YEAR'S OPERATIONS**  
London, Jan. 19.—More than 428,000 officers and men were taken prisoner by the Russians during the last year and 525 guns captured, according to the Russian service organ, as quoted in a Central News dispatch from Petrograd today. The journal closes its review of the war operations during the year with the following approximate figures of men and booty taken:  
Officers, 8,770; men, 420,000; guns, 525; machine guns, 1,661; trench mortars and mine throwers, 421.  
More than 80 per cent of the foregoing was yielded by the operations of General Brusiloff.

**DEMAND GREATER USE OF U-BOATS AGAINST BRITAIN**

(Continued from Page One.)  
Heydebrand, in advocating unrestricted submarine warfare, demanded it only at such time as the emperor and Field Marshal Von Hindenburg found it to be advisable. He said:  
"If we are to win a victory it is imperative to use the weapons which give us the possibility of winning a victory against the toughest and strongest adversary, England. If our military authorities, the high command and the emperor find it suitable and timely to make the necessary use of unlimited submarine warfare the German and Prussian people will be prepared to bear the consequences."  
**As to Neutrals.**  
Herr Friedberg, leader of the national liberal party, was one of a number of speakers who urged a vigorous prosecution of the war and increased submarine activity. He said:  
"We must expect from every neutral that he do not lay stress on his own interests where for us it is a fight for existence. Such interests must not prevent us from gaining a peace that will satisfy German aspirations and safeguard the world from new and similar disasters."

**LOTS OF THEM.**  
"Do you believe that there is any sure antidote for old age?" asked Smith.  
"Sure, lots of them," replied Jones.  
"What are they?" asked Smith.  
"Well," replied Jones, "you might try fooling with an unloaded gun, or try to get your automobile across a railroad crossing before the express beats you to it, or try blowing out the gas, or eat roadstools, or nail two sticks of dynamite together, or smoke a cigarette in a powder mill."

**SEVERE RHEUMATIC PAINS DISAPPEAR**  
Rheumatism depends on an acid which flows in the blood, affecting the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive processes, and remains there because the liver, kidneys and skin are too torpid to carry it off.  
Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and through the blood on the liver, kidneys and skin, which it stimulates, and at the same time it improves the digestion.  
Get Hood's Sarsaparilla today. Sold by all druggists.

**PRESIDENT AGAIN IN CONFERENCE AT CAPITOL**

He is Indignant Over Reports That He May Veto Water Power Bills.  
Washington, Jan. 19.—President Wilson went to the capitol again today and held conferences with administration senators.  
The president conferred with senators nearly two hours. As he left he said he had merely come to the capitol to confer about the legislative program and indicated that by that he meant passage of legislation recommended in his annual address.  
President Wilson expressed indignation at reports published after his visit to the capitol yesterday that he would veto one or both of the water-power bills. Such false reports, he said, only served "to throw a monkey wrench in the legislative machinery."  
Although there were no suggestions of an extra session in case the president's program cannot be completed by March 4, Senator Kern declared that the thought in the minds of all was that it would be much less difficult to enact the measures to which the democratic party has been committed at this session than in the next congress.
