Four Men Are Caught With the Goods as They Are About to Leave Town.

Deer Lodge, Jan. 22.—George Walker, Thomas Thompson, John Stanford and George Nelson were arrested here Saturday by members of the sheriff's office, Chief of Police Joe Larsen and Milwaukee Special Agent Clemens. The four men had for some time been employed by the company at putting up ice. When arrested they were ready to take a train to Butte. Each had a part of the copper tied up in a blanket, well concealed, and the apprehension of the men was principally due to the detective work of Chief of Police Larsen, who had been watching them for several days and waited until they had the goods in their possession before making the arrest. They will be given a preliminary hearing the early part of this week.
