MONTANA ITEMS OF GENERAL INTEREST

Logan, Jan. 27.—A pile-driving outfit arrived here this morning and started to work at once strengthening the bridge over the Madison river which is being threatened by high water.

The cause of the flood has been determined. The Madison river left its channel four miles up stream from the Northern Pacific tracks.

The train will be one of 14 cars and drawn by the locomotives from Havre.

The party includes some of the most prominent bankers, business and professional men and their wives of the entire state of Montana.

The party will choose their queen on the train before reaching the carnival city.

The approximate amount of the bill is \$180,000 and the time of payment, according to certain representatives of the campaign committee, is a matter of great doubt to the men who contracted the indebtedness.

The unpaid item represents the cost of the five-day whirlwind advertising campaign carried on by the company under direction of the committee's publicity department.

Of the total amount, the only cash that has been paid to the telephone, telegraph, printing and publishing companies to whom it is due is \$50,000, advanced to those who sought the money.

The investigations attendant upon such withdrawals show that the wages for youths now range from 20 to 70 and more marks a week, averaging in the neighborhood of 30 odd marks a week.

The amount of money that has been laid aside, as well as the general satisfactory condition of the workers, convinces the authorities that the compulsory saving ordinance was an altogether wise move.

The speakers yesterday were W. E. Meyer and J. E. Dorman, who are in charge of the western dairy extension work for the United States department of agriculture.

All the county agricultural agents in the state are present for the conference, including C. M. Yarrington, Miles City; Carl H. Peterson, Lewistown; A. J. Olson, Lewistown; Paul Carpenter, Helena; J. R. Campbell, Missoula; A. E. Emerson, Great Falls; Dr. John M. Davis, Choteau; Paul Banker, Havre; E. W. Anderson, Plentywood, and C. A. Bush, Kallispell.

Great Falls, Jan. 27.—Leaving this city tonight, Louis Newman, king of the Domain of the Smelter, will carry 185 of his loyal subjects into the hall-wick of Boreas Rex at St. Paul, Minn., to cavort at the carnival of outdoor sports for the next week.

Livingston, Jan. 27.—M. S. Irwin, a paroled prisoner from the Oregon state prison, will be returned to that place upon the arrival of a prison official.

Enforced saving for youthful workers, which was instituted by the military authorities a few months ago as a check to extravagance and dissipation, has resulted, in Greater Berlin alone, in a saving of more than a million and a half marks already.

At the annual meeting of the State Grange in Bozeman yesterday James Griffin of Chinook was elected state master, and the time and place of the next meeting were left for the decision of the executive committee.

Chicago, Jan. 27.—Newspaper publishers who have been forced by the price of news print paper to charge two cents for papers cannot hope to go back to the one cent rate, was a warning which a hundred or more paper publishers took home with them today after a conference here yesterday with several manufacturers of print paper.

The warning was offered by Alexander B. Smith, managing director of the Atchafalaya Paper company of Iniquola Falls, Canada.

At the conference, an informal meeting, the publishers and the paper manufacturers, representing the American Newspaper Publishers association and the Print Paper Manufacturers association, voted to appoint a committee to meet after the delivery of the report on the print paper situation next week by the Federal Trades commission to see if knowledge gained from the report does not point out a way to an adjustment of the problem of the high prices.

CONVINCED THAT IT PAYS TO ADVERTISE

The Post's Washington Bureau. Washington, D. C., Jan. 27.—Once more it has been demonstrated that "advertising pays."

Whatever responsibility attaches to sending President Wilson back to the white house belongs, according to Vance McCormick, chairman of the democratic national committee, not to California nor to any flukes in the campaign of Candidate Hughes but to the advertising company that is being compelled to foot the outstanding bills for campaign publicity.

The settlement of practically all other campaign bills of the democratic national committee, the one item that is credited with finally turning the tide in the president's favor has been stuck upon the "unpaid" spike of that organization.

The unpaid item represents the cost of the five-day whirlwind advertising campaign carried on by the company under direction of the committee's publicity department.

Everybody connected with the campaign body, from Chairman McCormick down, freely asserts that it was this advertising that elected the democratic national ticket.
