FIFTY-NINE CHOSEN FOR JURY SERVICE

Two-thirds Seek to Be Excused—Criminal Cases Begin Tomorrow.

A jury from the 150 names drawn for service over a week ago was selected in Judge Dwyer's department of the district court this morning. The return of the sheriff showed that service had been secured on 119 persons, which is considered a remarkably good showing when the fact is considered that many of those whose names were drawn were found to be out of the city. There were 59 retained for jury service.

The judge read the law to the assembled men drawn for service, and when he emphasized the fact that only male citizens of the age of 21 were eligible, Mrs. M. G. McIntyre, whose name had been drawn, arose and said: "Your honor, I suppose I may be excused."

"You are excused, Mrs. McIntyre," replied the judge.
Of the 119 persons present, about three-quarters of the number made an effort to be excused on various grounds, but the real excuse back of it all seemed to be that a man did not wish to serve his country for 33 a day when he could earn \$4.75 in the mines. Judge Dwyer realized that he has an unusually heavy calendar and that it will be necessary to retain a large number of eligible men for jury service, so many of those who wished to be excused had to remain in attendance.

Tomorrow morning the trial of criminal cases will commence. After the jury was secured today the case of Margaret Page, as administratrix of the estate of E. R. Page, against the Stromberg-Mullins company, was taken up, with Attorneys Nolan & Donovan and J. B. Sullivan representing the plaintiff and Attorney Earl Genzberger appearing for the defendant. The suit is an action for wages. The late E. R. Page was a solicitor for the defendant company.

TO ACCUMULATE MORE ISLANDS IN THE WEST INDIES

That is Recommendation of Committee of U. S. Chamber of Commerce.

Washington, Feb. 1.—Acquisition by the United States of the other West Indies, in addition to the Danish islands, was recommended to the Chamber of Commerce of the United States by a committee on foreign relations at a annual meeting here today on the grounds of sea commerce. Purchase of the Danish islands, the committee declared, "eliminates one possibility of our being drawn into European political differences."

The committee also recommended establishment of an American commercial museum in Paris to help develop trade with France and the negotiation by the government of commercial treaties containing the "most favored nation clause." Referring to trade agreements between European allies after the war, the committee observed that "it will take our best business brains to safeguard our interests."
"In view of certain present phases of the Pacific ocean question it is expedient," said the report, "to request the chamber to submit to its members a referendum on the question of whether it should urge upon our state department early and aggressive action in an effort to make and establish neutralization treaties with all other nations of the world."

Secretary Baker, Major General Leonard Wood and Howard Coffin of the Naval Consulting board were among the speakers on today's program.

COMMITTEE NAMED ON CONSOLIDATION

Rotarians to Consider Feasibility of the Union of Governments.

A committee of 10 appointed by the Rotary club at the noon luncheon today is considering late this afternoon the advisability of taking steps at the present session of the legislature to further measures for amendments to the constitution permitting the realization of the oft-expressed wish for a consolidation of the governments of the city of Butte and the county of Silver Bow. The committee is meeting at the Silver Bow club, with Eugene Carroll as chairman. The 10 men were appointed following an address by E. B. Howell and a motion by J. L. Carroll.

Three important matters came before the weekly luncheon-meeting: A request for assistance from the Woman's club in paying off an indebtedness of \$815 on the building and a new grand piano; a discussion on the district convention of the Rotarians for the states of Montana, Utah, Idaho, Wyoming and Colorado, at Great Falls, March 2, and the consolidation question.

In regard to the Woman's club, after talks by Mrs. Dr. Gunn and others, the application for assistance was referred to the finance committee, who will report on the merit of the request and suggest what help the Rotary club might give. Dr. John A. Donovan suggested that steps be taken to ascertain the number of Rotarians who will attend the district convention in Great Falls and make arrangements for transportation. E. H. Lang, Dr. J. A. Donovan and C. W. Merrilles were appointed on that committee.

Howell Speaks.
Mr. Howell, at the request of the club, explained his ideas on consolidation of the two governments in this county and suggested the following method of the legal procedure necessary: That after the necessary amendment to the constitution the county commissioners or perhaps the governor of the state should appoint a manager for the municipal district, which would mean a Greater Butte; that the county officers would do the work now done by the city officers; that the head of the district government should be at the courthouse; that the city hall should be sold, and that Walkerville and the other districts should be included in the new district. W. H. Davey claimed that what Butte wanted was "Home Rule." Rev. C. F. Chapman also spoke on the matter. The committee was then appointed, consisting of: Eugene Carroll (chairman), J. F. Roche, L. O. Evans, J. L. Carroll, S. J. Barker, W. H. Davey, Mayor C. H. Lane, J. R. Wharton, Oscar Rohn, D. J. Charles. On motion Attorney E. B. Howell, not a member of the club, was included as an honorary member of the committee.

J. W. Farmalee and H. O. Cooley, officers of the Yellowstone Trail association, were unable to be present, as they are stalled on a Milwaukee train in the Dakotas. As it is understood those gentlemen are coming for the purpose of asking a donation to the association, the following committee was named to make an investigation of the merits of the expected request and to have a report ready for the next meeting: Eugene Carroll, J. F. Roche, L. O. Evans, Dr. C. W. Wharton, W. H. Davey, Oscar Rohn and Malcolm Gillis.

County commissioners J. M. Fabin and Otto Simonson spoke briefly. A number of visitors were introduced and the meeting adjourned at 2 o'clock to accept the invitation of J. L. Carroll, president of the Chamber of Commerce, to attend the opening of the Milwaukee depot and the reception there.

Heat to greet your club meet

Do you feel like apologizing for the old-fashioned heating when the Woman's Club meets at your home and you notice quite a few bring along hug-me-tights or heavy petticoats to offset the depressing cold corners and drafty floors? Or are you at perfect ease in knowing your home is outfitted with ideal radiator heating that thaws cold conversation into warm confidences?

AMERICAN & IDEAL RADIATORS & BOILERS

These outfits guarantee you the utmost in heating comfort and fuel economy!

AMERICAN Radiators are built in many heights, widths and shapes, which admit their location in any convenient part of a room, hall or vestibule—to meet and bar out the cold. They defeat the cold at all exposed points. Made in curves, corners, with plate-warming oven, high legs, carpet feet, etc., and with ventilating attachments for insuring liberal volumes of freshly warmed air throughout the building. IDEAL Boilers are self-acting.

The greatest money saver in a building is IDEAL heating

RUMANIAN TELLS OF BROKEN WAR PACT: SPIES POSED AS FRIENDS

San Francisco, Cal.—A secret conference in Bucharest, at which Greece agreed to take up arms and Bulgaria pledged to quit her German alliance, was a diplomatic move that preceded Rumania's entrance into the war.

This new version was explained by Capt. Paul Negulesen, who landed here with his wife on the way east to buy American ambulances for service in Rumania.
"Rumania went into the war with her eyes open and with every plan laid," said Captain Negulesen through an interpreter. "There was a secret conference at Bucharest, with representatives of Greece and Bulgaria present. Greece agreed to throw an army to Rumania's aid and join the war. Already Bulgaria had been friendly with us. Hundreds of her soldiers were crossing into our country and taking places in our army."
"Rumania arranged with Russian officials to keep the Germans busy in the north. Greece and Rumania were prepared to march on Transylvania. Then the bubble burst. Bulgaria's

GREAT FALLS MAY INSTALL NEW PLANT

Supreme Court Affirms the Decision Against Joseph McClintock.

Helena, Mont., Feb. 1.—The supreme court ruled today that the city of Great Falls can go ahead with the installation of its filtration plant by affirming the decision of the lower court against Joseph McClintock, who sought to enjoin the city from proceeding with the work on the grounds that the city was exceeding the 3 per cent limit of indebtedness.

The court, construing section 6, article XIII, of the constitution, holds that the term "supply of water" means a supply sufficient in quantity and suitable in quality to meet the demands of the city and its inhabitants, and therefore any addition to the existing plant necessary to accomplish this is constitutional.

VICTORY CERTAIN FOR ENTENTE, SAYS ASQUITH

Former Premier Speaks Before Constituents of War Prospects.

London, Feb. 1.—In a speech at Ladybank today to his constituents former Premier Asquith said that the naval and military and economic resources of the entente allies assured them inevitable victory.

"A notion that the struggle is about to come to a squall end—to result in a stalemate—is a mere dream," he said. "The fortunes of battle may fluctuate and shift but if all the influences at work are taken into comprehensive account, every month of the conflict becomes more unequal and the balance of success more and more in favor of the allies."
