WHAT WAS NEEDED WAS PLANT JUICE

Mrs. Martha P. Parsons of Boston Claims it Cured Her Stomach Trouble.

The symptoms of stomach disorder may take so many forms that frequently people mistake this condition for organic diseases. Herein lies the chief danger of the complaint. Plant Juice, the new herbal green tonic, is proving to be invaluable in relieving such conditions. That this is just what Plant Juice is doing is being demonstrated every day by the numerous testimonials received from every city where it has been introduced. Since Plant Juice has been introduced in Massachusetts, scores of people have testified to the benefits derived. Recently the signed testimonial was received of Mrs. Martha P. Parsons, who resides at No. 42 Myrtle street, Boston, Mass., where she has lived for the past 15 years. She says: "For years I have suffered with stomach trouble which took the form of indigestion and dyspepsia. My food would ferment in my stomach and cause gas and belching with great pain. I was in such a weak condition that I thought I would die, and the water would pour out of my eyes. I was so restless and nervous that I could not sleep at night and kept getting weaker and weaker. I had severe headaches and dizzy spells and could not get about to do my household work; also had a hard lump in the pit of my stomach like lead and in the throat. I read about Plant Juice in the home papers and how it was curing local people whom I knew. To my great satisfaction, it proved to be just the medicine for me, as it has made a new woman of me. I have taken four bottles and have no more aches or pains, eat all kinds of food without distress, sleep fine and can truthfully say that Plant Juice has cured me."

The attorney had a lapse of memory in the telephone call when he read the account of the killing in the papers. He informed the sheriff and Levinski's arrest followed. MATCHES MAY GO PERRY OR SPARTA

Experts Say Climate in Florida is Not Favorable to Shooters.

The Post's Washington Bureau. Washington, Feb. 2.—A movement, as surprising as it is sudden, has developed to take away this year's national rifle matches from Jacksonsville and send them either to Camp Perry, Ohio, or to Sparta, Wis.

Promoters of rifle practice all over the country will be greatly interested to learn of this move, as it had been definitely settled that next fall's matches would take place at the Florida camp.

Early in January the national board for the promotion of rifle practice, consisting of 11 members, met here and decided unanimously that the coming matches should take place at Jacksonsville. Not a word was said about Camp Perry or Sparta and there was no disagreement as to the proposition of holding the matches in Florida.

It leaks out, however, that when the board met again last Monday to take up other matters a minority, consisting of Col. George W. Meyer, Capt. Frank R. Curtis and Maj. Palmer E. Pierce of the army and Brig. Gen. Charles W. Thomas of California, unexpectedly produced a minority report recommending that the matches be held either at Camp Perry or Sparta on the ground that the climate in Florida is not as satisfactory as in one of the northern camps and the Jacksonville site is not equipped with adequate camping facilities. The report came like a clap of thunder out of a clear sky.

This puts the matter up to Secretary of War Baker on a divided report and the final say will be his as to where the matches shall be held. It would surprise no one if he should decide in favor of Camp Perry.
