WHY PEOPLE DIE!

New York.—One of the large life insurance companies that do a worldwide business has just completed a list of its death claims for the second quarter of 1916.

Of the 2,510 policyholders who died during this period the causes of death were as follows:

Heart disease	315
Consumption	252
Bright's disease	248
Cancers and tumors	248
Pneumonia	206
Apoplexy	130
Disease of the arteries	120
Accidents	110
Diseases of digestive organs	98
War	72
Diabetes	72
Appendicitis	61
Liver diseases	53
Fatalities	43
Bronchitis, pleurisy, etc.	42
Blood poisoning, anemia, etc.	41
Typhoid fever	27
Old age	19
Nervous prostration, congestion of brain, etc.	16
Rheumatism	9
Spinal diseases	5
All other causes	413

Of those who died 182 were less than 30 years of age, 403 were between 30 and 40, 653 were between 40 and 50, 864 were between 50 and 60 and 607 were more than 60 years old.

That all of the money paid out by life insurance companies does not go to beneficiaries of the dead is shown by the fact that this same company during the second quarter of 1916 paid out \$5,060,871.88 in death claims and \$12,390,950.70 to living policyholders in the form of dividends, cash surrender values and annuities.

It is terrible to think that in Greenland, the end of a perfect day is a six months' night.

MANY AMERICANS WITH THE ALLIES

Associated Press, Correspondent Estimates Number at 50,000.

With the British Armies in France, Feb. 1 (via London, Feb. 2).—(From a staff correspondent of the Associated Press).—Nearly 50,000 Americans are estimated to be fighting for the allies and inquiry shows that nearly four-fifths of these are in the khaki-clad British army commanded by Field Marshal Haig. It is computed that the actual fighting forces of Americans now in France under the Union Jack are larger than the United States army which was actually engaged in hostilities in the brief campaign of the Spanish-American war.

Hundreds of Americans have given their lives for the cause of the allies and hundreds of others bear permanent scars of battle, but each new battalion and each group of reinforcements arriving from overseas brings numbers of their fellow countrymen to their places.

Win Admirations.

All have fought with a pluck and universal respect and admiration. Although not so much has been written about the Americans serving in the British ranks as in regard to their brothers in the French army, British army traditions seldom countenance the same exhibitions of individual deeds of heroism and daring as are included often in the French and German official reports. But the American Tommy helped to write some bright pages in the history of the war in all branches of the service—the flying corps, the medical corps, the artillery and infantry.

In Canadian Regiments.

The Canadian regiments attracted the greatest number of Americans, many of the recruits living in the dominions when the war broke out. But Americans are also scattered through the English battalions and some are found among the Australians, South Africans and in the different staff departments. Many former members of the United States army and of the crack national guard regiments are on the British roll calls but all have had to learn the new art of modern war and are rated among the best soldiers. The bulk of the Americans being enlisted in the various Canadian battalions have been through some of the hardest fighting on the front.

Through all the vast and wonderful war machine built up by Great Britain from the North sea to the French front line trenches, young Americans can be met "doing their bit" and fighting with willing heart and steady bravery. The correspondent of the Associated Press met one young fellow in the uniform of the Canadian artillery. "What part of Canada are you from?" he asked.

"Los Angeles," came the grinning reply.

Corresponding answers could be had from thousands who hailed from every section of the United States.

OPEN VERDICT AT THE ADAMOVICH INQUEST

An open verdict was returned by Coroner Lane's jury yesterday at conclusion of an inquest into the death of Sam Adamovich, who was killed early Wednesday morning by falling down a shaft at the Pittsburg mine. The inquest developed the fact that after eating lunch, Adamovich wandered into a drift on the 700-foot level of the mine and fell through an opening in the chute to the level below.

NO SUCH THING AS WHITE SIN, DECLARES MINISTER

In his discussion of the "Unpardonable Sin" last night in the Trinity Methodist church, Rev. Robert Ervington of Helena, who is conducting the revival services in Centerville this week, said that sin is a destroyer and it pays the penalty of death. "There is no such thing as white sin," he declared. "However, many of the sins society looks upon as the blackest and most unpardonable are by no means so."

The services at the Trinity Methodist church will continue for another week, according to a statement made by Rev. J. G. Ross, pastor of the church.

How's Your Blood?

Pimples and Eruptions Mean Bad Blood

People who have impure or impoverished blood should be careful to take only a vegetable and temperance remedy such as Dr. Pierce's Golden Medical Discovery is and has been for nearly 50 years. Ingredients printed on wrapper. The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the eliminative organs.

In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, backache, headache and constipation.

Get Dr. Pierce's Golden Medical Discovery today from any medicine dealer in tablet or liquid form, or send Dr. Pierce, Buffalo, N. Y., 10 cts. for trial package.

SENATE IS OPPOSED TO LITERACY TESTS

High School Organization Expresses Joy at Work of Debating Team.

The three high school boys who won the district debating contest at Bozeman last week were congratulated by their fellow Senate members last evening and given a vote of thanks. Emmet O'Neil, John Holland and Marvin Blackburn are the members of the team.

The debate last evening was on the literacy test in regard to more restricted immigration. The team composed of George Lust, Ingles Gay and Francis Small won the decision against the literacy test over John Egan, Jesse Maury and John Steadman. The judges were Professor Coleman, Emmet O'Neil and Gardiner Howland.

Earl Smith gave a prepared speech on peace possibilities in Europe and Emmet McKenzie gave an extemporaneous talk on a phase of the same subject. A public meeting of the Senate will be held on March 1. The subsidization of ship building corporations to help in building up a merchant marine will be the topic for discussion.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh.

HOUSE OVERRIDES PRESIDENT'S VETO

Senate Will Vote on Rejected Immigration Bill on Monday.

Washington, Feb. 2.—Immediate reconsideration of the immigration bill, passed over the president's veto by the house last night, was blocked in the senate today by Senator Reed of Missouri, but agreement was reached to proceed to a vote on re-passage of the measure at 4 p. m. next Monday.

For 26 years there has been a fight to establish a literacy test as a restriction upon immigration.

Four times such a provision has run the gauntlet of congress and been vetoed at the white house. President Cleveland first disapproved a bill and congress sustained his action. President Taft was the next to reject it. On that occasion the senate voted to override the veto, but the house failed to give the necessary two-thirds majority by nine votes. In 1915 President Wilson refused to permit a bill to become law with the literacy test incorporated. The house lacked only four votes to override his action, and then the senate did not consider the veto message.

Last night the house had 25 votes more than the necessary two-thirds majority. Republican Leader Mann and Democratic Leader Kitchin voted together against the president.

SENATE ORDERS PROBE OF COTTON EXCHANGE

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

MAKING READY FOR THE INAUGURATION

Parade Promises to Be Greatest Ever Witnessed on a Similar Occasion.

The Post's Washington Bureau. Washington, Feb. 2.—Inaugural features from 11 states have just been announced by the committee that is arranging for the inauguration of Wilson and Marshall.

Arrangements for the inauguration are proceeding rapidly, with prospects of a record attendance. Already inaugural grand stands are going up along the line of march and the constant pounding of hammers is a reminder that the quadrennial fete is drawing near. The large stand at the south end of the treasury department, which commands a sweeping view of Pennsylvania avenue for a mile clear to the capitol building, is nearing completion.

"The army of paraders that will be marshaled on the morning of March 5 will be the largest inaugural army that has ever gathered, if present indications can be relied on as furnishing a correct estimate," declared Col. Robert N. Harper, chairman of the inaugural committee. Never before, according to inaugural officials who have served on previous inaugural committees, has there been such an urgent demand from organizations of every description to be allowed to participate in the parade.

So far Chairman Harper has received nine letters from state governors assuring him that they will be present. A letter has been sent to every governor inviting him to attend and also inquiring what militia organizations, if any, from his state will participate in the parade.

Arrangements are being made to furnish many hitherto unheard of conveniences to inaugural visitors. "Anti-fainting tablets," little glass capsules which, broken under the nose, restore to consciousness the victim of nervousness or fatigue, are to be placed in the various police patrol boxes of the city during inauguration for the use of visitors. The tablets are vaporals. They contain chemical fumes such as ammonia and the like. By pressing the capsule between the thumb and finger the glass is broken and the fumes are released.

It is expected that the squadron of mounted women from Virginia will attract much attention. That state is noted for its accomplished horsewomen and some of the most accomplished of all will be here to ride in the parade.

As usual, many of the hotels and eating places are preparing to go to the limit in separating inaugural visitors from their money. There has been a good deal of talk in congress about passing a law to prevent hotel extortion, but nothing has been done. One suggestion is that a law be enacted preventing hotels from charging more during inauguration time than their ordinary rates. Another plan is to empower the District of Columbia commissioners to fix such limits as they may see proper on hotel charges. Senator Thomas of Colorado in a speech the other day made senators smile by his reference to the acquisitive propensities of the hotel men. He said:

"The old Spanish buccanner, who rode the Spanish Main, flew the black flag and took his life in his hands when he attacked his prey, must, if there is such a thing as a future life, turn over in his grave whenever he thinks of his modern successor, disguised as the proprietor of a hotel or at the head of some institution furnishing the necessities of life, because of the impunity with which they carry on his old business sheltered under the forms of law."

When her ammunition was exhausted the plucky guardian of the whiskey plant, still defiant, was captured and placed in jail. Her father, Billie Gough, her brother, W. A. Gough, also were taken. Her mother and one brother escaped.

Sarah, who is characterized by the revenue officers as a "half wild mountain girl," is not to be prosecuted for shooting at the officers.

MOONSHINER'S DAUGHTER KEEPS OFFICERS AT BAY

Biloxi, Miss.—Sarah Gough, 14, armed with rifle and revolver, held off for two hours a band of United States revenue officers raiding the moonshine still of her father in the dense woods of Greene county, north of here.

V. J. A. Tucci, deputy internal revenue collector, and four deputies crept up on the mountain still. The girl attacked them first with rifle, then with revolver, firing a dozen rounds, all missing. The officers did not fire.

When her ammunition was exhausted the plucky guardian of the whiskey plant, still defiant, was captured and placed in jail. Her father, Billie Gough, her brother, W. A. Gough, also were taken. Her mother and one brother escaped.

Sarah, who is characterized by the revenue officers as a "half wild mountain girl," is not to be prosecuted for shooting at the officers.
