**UPWARD TREND IN THE MARKET**

**Progress of Emergency Legislation at Washington Gives Strength to Stocks.**  
New York, March 2.—The trend of today's broad market with extreme gains of 2 to 7 points was largely based on the course of emergency legislation at Washington. Sales approximated 400,000 shares. Speculative stocks were in demand at the opening of the market today with many less than two points above yesterday's final quotations. There was a disposition to throw off recent depression and inertia, especially on shipping, lead, iron, tin, zinc, and other prominent specialties. Substantial advance of the first half hour included two points for Marine preferred, 3/4 for Atlantic, Gulf and West Indies, one each for United States Steel, Crucible Steel and Bethlehem Steel issues, and one to two points for United States Rubber, Industrial Alcohol, Central Leather and Utah Copper. Tails lagged behind the general list.  
Most early gains were extended during the first hour, Bethlehem Steel shares as well as the "rights" scoring material recoveries from recent declines on the market. From inside interests intend to avail themselves fully of the privilege of subscribing to new stock. Coppers also made additional gains with alcohol, oil, motors, sugars and Pittsburgh coal. Tails continued to fall behind with relative heaviness in Union Pacific and St. Paul. Trading came to a standstill in the second hour, but prices were well maintained. In the bond list decline irregularly created by further declines in international issues.  
Reversing its recent course, the market became active at midday, specialties augmented with Texas Company leading at an extreme advance of seven points. Eastern rails advanced, but Pacific and Grangers remained irregular.  
Leaders made best prices in the final hour despite a reaction in Texas Company and a 20 point break in Lorillard Tobacco. The closing was strong.

**MONEY MARKET.**  
New York, March 2.—Mercantile paper, 4 1/4 to 4 1/2 per cent.  
60-day bills, 4 1/4 to 4 1/2; commercial 60-day bills, 4 1/4 to 4 1/2; consols, 4 1/4 to 4 1/2; demand, 4 1/4 to 4 1/2; 4 1/2 to 4 3/4.

**STOCKS RANGE IN SHORT COVERING**

**Price Gains of List or More Throughout List—Coppers Strong.**  
Short covering and better buying, especially of coppers, than has been experienced for some days sent stock prices up a point or more today. Uncertainty still in evidence, although the long side of the market is finding a more general appeal. Comments of brokers today were in a more optimistic vein and there is no warning note against the long side. Purchase of standard issues on dips is strongly urged in the advice received locally.  
Practically all of the coppers advanced a point. These included Anaconda, Utah, Chino, Inspiration and Kennecott. American Smelting showed strength too, selling up 1 point from the opening. Foreign copper trails did not depress prices in this group. Union Pacific and Reading each gained 1 point during the day and other issues registering fractional advances.

**WANTED**  
WANTED—A stock saddle, give condition and price. Address box 56, care Post.  
WANTED TO BUY a 2 or 3 horse power upright steam boiler. Give description and price. Address Boiler, care Post.

WANTED—Young girl desires work as nurse girl. Address G., care Post.

**WANTED TO RENT**  
Wanted to rent two or three housekeeping rooms, also a small stable. Address 241 E. Granite.  
**LATEST STOCK REPORT**  
Mr. Paul, old-time well known mining operator in charge of Montana Zinc, came in last night and brought a large chunk of high grade ore from the 3-foot level. The ore was estimated to contain 10 per cent of zinc and 10 per cent of lead. Mr. Hill claimed for the splendid showing of this property. He says it's going to turn out a bonanza. Assays taken from this ore run over \$100 per ton in value. On their report an interest in the stock has been subscribed for in thousands, and Mr. Hill is the biggest buyer himself. You can still secure some of this at only 7 1/2. Capitalization only 600,000 shares. Come in and look into it if you want best looking thing for the price on the market. J. Chauvin, broker, 112 W. Granite.

**GRAIN MARKET REMAINS FIRM**  
Renewed Purchases for Exports Prevent Expected Downturn.  
Chicago, March 2.—Snow and rain in the southwest where moisture is needed for the winter crop has been lacking, tended today to ease off the wheat market. Trade was active with commission houses the chief sellers. The principal stimulus for buyers came from bullish estimates indicating that farm reserve stocks were unusually small. Opening prices were made today at \$1 to \$2 1/2 advance with May at \$1.35 to \$1.43 1/2, and July at \$1.55 to \$1.65 1/2, were followed by a moderate rise, but then by something of a rally.  
Subsequent word of activity by exporters brought about a more decided upturn in values. The effect, though, was to some extent offset by announcement that large American shipping concerns would transfer them from European service to sailings for South America. This close was firm to 2 1/2 to 3 1/2 higher with May at \$1.43 1/2 to \$1.53 1/2 and July at \$1.56 1/2 to \$1.66 1/2.  
Lightness of offerings made corn relatively firm. First traces in the December option were made today at \$1 to \$2 1/2, the highest prices ever known at this time of the year. The market as a whole, after opening \$ 1/2 to \$ 1/4 up, scored slight gains all around.  
Export buying as well as fresh high record prices on hogs encouraged sharp further corn gains in the late dealings. May corn touched the topmost point yet this season. The rise was strong at 2 1/2 to 3 1/2 net advance.  
Oats followed wheat rather than corn. Changes, though, were narrow.  
Bullish monthly statistics tended to strengthen prices of hogs, nominal in the hog market counted also against the bears.

**WANTED TO RENT**  
Wanted to rent two or three housekeeping rooms, also a small stable. Address 241 E. Granite.  
**LATEST STOCK REPORT**  
Mr. Paul, old-time well known mining operator in charge of Montana Zinc, came in last night and brought a large chunk of high grade ore from the 3-foot level. The ore was estimated to contain 10 per cent of zinc and 10 per cent of lead. Mr. Hill claimed for the splendid showing of this property. He says it's going to turn out a bonanza. Assays taken from this ore run over \$100 per ton in value. On their report an interest in the stock has been subscribed for in thousands, and Mr. Hill is the biggest buyer himself. You can still secure some of this at only 7 1/2. Capitalization only 600,000 shares. Come in and look into it if you want best looking thing for the price on the market. J. Chauvin, broker, 112 W. Granite.

**GRAIN MARKET REMAINS FIRM**  
Renewed Purchases for Exports Prevent Expected Downturn.  
Chicago, March 2.—Snow and rain in the southwest where moisture is needed for the winter crop has been lacking, tended today to ease off the wheat market. Trade was active with commission houses the chief sellers. The principal stimulus for buyers came from bullish estimates indicating that farm reserve stocks were unusually small. Opening prices were made today at \$1 to \$2 1/2 advance with May at \$1.35 to \$1.43 1/2, and July at \$1.55 to \$1.65 1/2, were followed by a moderate rise, but then by something of a rally.  
Subsequent word of activity by exporters brought about a more decided upturn in values. The effect, though, was to some extent offset by announcement that large American shipping concerns would transfer them from European service to sailings for South America. This close was firm to 2 1/2 to 3 1/2 higher with May at \$1.43 1/2 to \$1.53 1/2 and July at \$1.56 1/2 to \$1.66 1/2.  
Lightness of offerings made corn relatively firm. First traces in the December option were made today at \$1 to \$2 1/2, the highest prices ever known at this time of the year. The market as a whole, after opening \$ 1/2 to \$ 1/4 up, scored slight gains all around.  
Export buying as well as fresh high record prices on hogs encouraged sharp further corn gains in the late dealings. May corn touched the topmost point yet this season. The rise was strong at 2 1/2 to 3 1/2 net advance.  
Oats followed wheat rather than corn. Changes, though, were narrow.  
Bullish monthly statistics tended to strengthen prices of hogs, nominal in the hog market counted also against the bears.
