WANT PAINT DEALER DECLARED BANKRUPT

Eastern Creditors Assert Margaret Gardwell is Insolvent.

Eastern creditors today filed a petition in the federal court asking that Margaret Gardwell, who conducts a paint and wallpaper store known as McNamara's at 423 East Park street, be declared bankrupt. Claims aggregating \$1,612.20 are represented by the petition, which is signed by the Marshall-Wells Hardware company with a claim of \$559.22; the Art Wallpaper company with a claim of \$740.88, and the Jones-Billingham company with a claim of \$312.10. It is charged in the petition that Miss Gardwell committed an act of bankruptcy on Nov. 15 of last year by giving preference to a creditor, the Silver Bow National bank, to which a mortgage on stock and fixtures was executed. Miss Gardwell succeeded Edward McNamara in the business.

JOHN F. RYAN DEAD.

YARROWDALE AMERICANS ARE SAFE IN ZURICH

State Department Orders Men Supplied With Every Comfort.

Washington, March 13.—Arrival of the 59 Yarrowdale prisoners at Zurich was officially reported by Minister Stovall, at Bern, in a dispatch received today, which bore the date of March 12. The state department has instructed Minister Stovall to supply the men with every comfort. The disposition of the men has been left in the hands of American consuls in Switzerland under instructions to provide them with the necessary funds for their early return to this country.

PLAN FOR SOLUTION OF INTERMOUNTAIN RATES

(Continued from Page One.)

formia, Oregon and Washington, should be adjusted at this time as fully as now can be determined. The facts do not admit of such a finding as is sought by the carriers, the coast cities and the eastern shippers, namely that present conditions justify lower rates to the coast cities than to intermediate points. Neither do the facts altogether admit of such a finding as is sought by the representatives of the intermountain states, namely that all of these rates to Pacific coast cities are reasonable and fully remunerative. Some of the rates are unreasonably low; many of the rates, however, are not unreasonably low.

Rates from all eastern defined territories to all points west of the Missouri river should be so adjusted now that upon the return of water competition, which may necessitate reductions in rates to the Pacific coast, the rates to intermediate points need not be disturbed, except the point to which rates may be affected by combination on the coast.

The suggestion is made to carriers that car load commodity rates from the Missouri river to intermediate territory west thereof be graded with distance applying rates not higher than 25, 70, 80 and 90 per cent of the present coast rates to the territory within 600, 550, 1,300 and 1,650 miles from the Missouri cities respectively.

Commodity rates from points east of the Missouri river to Arizona points on all items found unreasonably low at present should not exceed the rates of Missouri by more than 15, 25 and 35 cents from Chicago, Pittsburg and Atlantic seaboard territories respectively, and should not exceed certain maximum rates hereafter prescribed.

As to Maximum Rates.

In detailing the maximum rates an opinion is given as follows: "In our judgment, the rates on these less than carload commodities from Chicago, Pittsburg and New York to all territory more than 600 miles west of the Missouri river should not exceed the rates to the same points on the Missouri river by more than 30, 50 and 70 cents respectively, on articles classified as first class, and 25, 40 and 55 cents on articles classified as second, third or fourth class.

Present less than carload commodity rates from eastern defined territories to Pacific ports which are higher than \$2.50 per hundred pounds are not unreasonably low. Present less than carload commodity rates from the Missouri river to Pacific coast ports which are not higher than \$2.50 per hundred pounds are not unreasonably low.

Rates on barley, beans, canned goods, asphaltum, dried fruits and wine from Pacific coast ports via rail and water routes through Galveston to the Atlantic seaboard should be revised to accord with the requirements of the long and short haul clause.

Reports to the commission as to the volume of freight going from eastern cities to Pacific coast ports and to intermediate territory were made by the railroads for four months of last year selected by the commission. They showed that while the Pacific ports received approximately 500,000 tons, the intermountain territory received one million tons. These figures were considered in reaching the tentative findings.

OF DIRECT INTEREST TO MONTANA POINTS

The proposals of the Interstate Commerce commission are of direct interest to Butte and other Montana points, and if the proposals are accepted the result will be that Montana shippers will probably be given reduced rates on commodities from eastern points and more equitable rates as compared with the Spokane rates, the coast rates and the rates for the district lying between Spokane and the coast ports. At least that is the interpretation placed upon today's bulletins by local railroad men, although they are not in a position to speak with authority on the matter, and freight tariffs have become so complicated of recent years that it is practically impossible to enter into details of explanation until the full particulars are issued by the commission.

An Evolution.

However, it may be said that for many years there has been a transcontinental tariff schedule for commodities from the east to the ports on the Pacific. Lately what is known as the Spokane basis was established and growing out of the Spokane rates came new rates for Montana established on the Spokane basis. If the proposals of the Interstate Commerce commission are accepted, a settlement of the intermountain rate cases may mean that the rates to the coast ports, established years ago at a low figure, with the consent of the commission, for the purpose of allowing the railways an opportunity of competing with the water routes, will be

raised somewhat and that the rates to intermountain points, including Montana, parts of Idaho, northeastern Wyoming, will be proportioned to the coast rates.

OTHERS TESTIFY TO CORROBORATE STORY

Billingsley had come from the hotel office and after the bills were wrapped he took the package and left the hotel.

ANNUAL MUSICAL BY PAROCHIAL PUPILS AT SCHOOL HALL FRIDAY

The pupils of the music department of the Immaculate Conception parish school are busy completing their arrangements for the annual musicale which will be given at the school hall Friday evening. The pupils are in charge of Sister Mary Angratia, who is well known in this community as one of the most successful music teachers in the state. Each year the children give a concert, to which the people of the parish and the friends of the parish generally throughout the city are invited and the affair is always one that gives pleasure to the audience and reflects credit on the school.

BEARSTORFF STRIVES TO AVERT WAR WITH U. S.

(Continued from Page One.) Count von Bernstorff, dismissed German ambassador to the United States, prepared a statement on Germany's dealing with Mexico after his arrival here. This statement will be forwarded to the British foreign office and, if approved, will be made public through the Wolff bureau, the official German news agency. It is understood that the statement deals with the way in which Foreign Secretary Zimmermann's instructions to the German minister in Mexico City fell into the hands of the American government. The departure of the Frederick VIII from Christiania was decided upon so suddenly that several passengers were left behind in the Norwegian capital.

BRITISH SEIZED A MYSTERIOUS TRUNK ON BOARD STEAMER

London, March 13.—The story of a mysterious trunk, which was on board the Frederick VIII, the steamer which brought Count von Bernstorff from the United States to Copenhagen, is given prominence by the Express. The trunk is said to have been consigned to Stockholm by the Swedish minister G. A. R. of Butte, the members of which have planned to attend his funeral in a body. During the administration of Mayor Thompson he was a member of the Butte police force and is remembered by the older officers as one of the efficient men on the force.
