HASLEY-JACKSON NAMED FOR MAYOR

Few Features Developed in the City Primaries Yesterday.

Anaconda, March 20.—As a result of yesterday's nominating primaries the following tickets will represent their parties at the city elections:

Democratic. Mayor, J. A. Hasley; city treasurer, William Ryan; police judge, P. J. Boardman; Aldermen—First ward, John Boardman; Second ward, George P. Wellcome; Third ward, L. E. Verbeckmoose; Fourth ward, Frank J. Gagnier; Fifth ward, James B. McConvitt; Sixth ward, J. J. Tierney.

Grush; second ward, John Marchion; third ward, Ed Standford; fourth ward, H. W. Jones; fifth ward, no candidate; sixth ward, Walter Reynolds. A curious situation developed in the second ward. The aldermanic candidate on the democratic ticket had been found ineligible at the last moment because he lived just outside the ward. However, enough democrats wrote in the name of George P. Wellcome, the retiring republican candidate, and assured his reelection. Mr. Wellcome's name was also written in by some supporters on the republican ticket. Mr. Wellcome had declined to be a candidate. However, against his will, he is renominated on the democratic ticket.

The vote by wards follows: Mayor. Democratic—Julius A. Hasley; First ward, 81; Second ward, 50; Third ward, 138; Fourth ward, 124; Fifth ward, 139; Sixth ward, 143. Total, 685. Republican—George C. ROBS ELKS' LODGE AT THE NOON HOUR

Stranger Makes Away With \$400 From Strong Box Left Open by Steward.

Anaconda, March 20.—The Anaconda Elks are losers to the extent of \$400 by a robbery which was reported last evening. William Graham, steward of the lodge, opened up the clubrooms at noon yesterday, the usual hour, and having need to secure change for a large coin went to the strong box in the secretary's office. He took the change for the bar cash drawer but left open the strong box, which contained the receipts for several days. He was in a hurry, for his patrons were anxious to get home for lunch. As soon as he had waited on them he returned to lock the cash box, when he found that the sack containing the big money was gone.

There were three Elks in the clubroom at the time; one of them a visiting brother. The visitor saw a man go up the stairs ahead of him, but the man did not enter the clubroom. Being a stranger himself he paid no special attention to the man. Neither of the others present saw him, but he is supposed to have been a prowler who concealed himself in the cloakroom and snatched a golden opportunity which was accidentally presented.

LOST GIRL HAS BEEN LOCATED

While Friends Worried Miss Frankel Was Quarantined in Butte.

Anaconda, March 20.—Miss Shirley Frankel, the young lady who went to Butte on Feb. 25 on a telegraphic call alleging the illness of a relative and who had not been heard from since in spite of repeated efforts to locate her, has been found through the agency of the Daily Post. Miss Frankel is well and is at the home of relatives, to the delight of her many friends here and especially Mr. and Mrs. J. W. Hoffman of the Pallas Candy company, with whom she had been employed.

It will be recalled that Miss Frankel left Anaconda on Feb. 25, presumably to visit a relative who was ill in Butte. Not hearing from her during the course of the next week or 10 days, Mr. Hoffman telegraphed to Butte and interested the officials in the search, but all to no avail. As there was money coming to Miss Frankel at the store and as her clothes were there also, it was feared that she had met foul play somewhere.

Judge of Mr. Hoffman's glad surprise this morning, therefore, when he was called over the telephone from Butte by Miss Frankel, who gave a satisfactory explanation. It appears that very soon after her arrival in Butte to visit her aunt, who was ill and lives on Harvard avenue, a member of the house was stricken with diphtheria and the home was quarantined. Miss Frankel then wrote a letter to Mr. Hoffman explaining the delay but the mail man would not accept a letter from a quarantined house. Finally she decided to telephone.

When asked by Mr. Hoffman why she did not telephone in the first instance, she said: "I never thought of that until this morning."

Miss Frankel saw the story of her disappearance in the Post and was quite as anxious to get in communication with Mr. Hoffman and her other friends as they were to hear from her.

ALL MEN FROM THE MEMPHIS ARE SAFE

(Continued from Page One.) miralty, is 50 per cent higher than might have been expected. "Trade at British ports in January," says the Overseas News agency (the official German news bureau), "apparently amounted to 9,500,000 tons, of which 2,500,000 was neutral. If only 80 per cent of neutral tonnage kept away in February, the reduction in tonnage amounts to 20 per cent. The tonnage sunk in that month exceeds British shipbuilding for all of 1916, which amounted to only 580,000 tons.

GERMAN RETREAT SLOWS DOWN IN NORTH FRANCE

(Continued from Page One.) Chaussee. In several sectors between Bapaume and Arras our cavalry maintained their touch with the enemy all of yesterday. There was a good deal of skirmishing but no heavy fighting.

FRENCH STILL FOLLOW UP RETIRING GERMANS

Paris, March 20.—The war office announces that the French are still maintaining contact with the Germans along the section of the front over which the retirement is taking place but that the advance has become more difficult by reason of the destruction of all means of communication and on account of bad weather.

German attacks at Avocourt wood and Hill 304 on the Verdun front were repulsed. Serious loss was inflicted on the Germans.

SPIRITED ACTIONS AS THE GERMANS RETIRE

Berlin, March 20 (by wireless to Sayville).—There were several engagements of infantry and cavalry detachments yesterday between British and

German forces in the territory on both sides of the River Somme and the River Oise abandoned by the Germans, according to the official statement issued today by the army headquarters staff. The French yesterday and last night directed violent attacks against the German positions on the left bank of the Meuse, the statement adds, but everywhere they were repulsed.

GERMAN PAPERS SAY RETREAT WILL MEAN A NEW OFFENSIVE

Berlin, March 19 (via London, March 20).—The morning newspapers today gave the German public its first news of the big events on the front in France. All publish articles by military experts, explaining the movement as part of the strategic plan of the general staff for a decision on the western front and a master stroke to vitiate the preparations of the entente for an offensive, giving a decided advantage to the Germans. These writers are unanimous in expressing the fullest confidence in Field Marshal von Hindenburg. The Deutsche Tages Zeitung says:

Hindenburg's Retreats.

"This is not the first strategic retreat of Hindenburg has executed in this war. It is necessary only to remember his great retreat from before Warsaw and the partial evacuation of Transylvania. Thus far these retreats of von Hindenburg always have borne fruit a hundred fold, so that we may face the new measure of our highest military commander with well-founded confidence and the fullest assurance that it furnishes the preliminary to new German successes."

Fullest Confidence.

"The German people can and must have the fullest confidence in their leaders, especially von Hindenburg and his able counsellor and assistant, von Ludendorff. Developments may be awaited with calm confidence." The Vossische Zeitung says: "We must not forget that the same von Hindenburg who began the Transylvanian campaign with a retreat and who in 1914 evacuated a conquered strip of Poland to strike the Russians like a bolt of lightning now stands master of the battles on our western front."

SLIGHT DAMAGE BY RAID ON FRANKFORT

Amsterdam, March 20 (via London).—A telegram received here from Frankfort-On-The-Main says that on March 16 a hostile airplane flew over the town and dropped six small bombs, one of which slightly damaged the river or in fields and caused no damage. The airplane was fired on by anti-aircraft guns.

The French war office announced on Saturday that Frankfort-On-The-Main had been bombed by a French airplane in reprisal for the setting afire of Bapaume.

COMPLETE CO-OPERATION AMONG RUSSIAN LEADERS

Washington, March 20.—Complete co-operation of both the Russian army and navy with the new revolutionary government was reported today by Ambassador Francis to the state department. The ambassador stated he had received his information from official sources and confirmed it to his own satisfaction unofficially.

The fact that he mentions no disorders leads officials to believe that good order prevails.

The question of the recognition of the new government by the United States is becoming important. Officials say the receipt by the state department from the Russian ambassador of Foreign Minister Mlukoof's statement to the world does not constitute such recognition nor will such action by England, France and Russia's other allies hasten the decision of the United States. It is possible, however, that action may be taken shortly, and that even if it is not, congress may pass resolutions felicitating the new government after it convenes April 15.

OLD OFFICIALS IN FINLAND RESIGN

London, March 20.—Nearly all the district governors and officials in Finland voluntarily resigned when they heard of the revolution, and little opposition was shown anywhere towards the new order of things, according to a Copenhagen dispatch. Reuter's, quoting the Berlin Telegraph, Mr. Rodicheff's appointment as the new governor of Finland is said to have proved popular, as he is known as a staunch advocate of Finnish aspirations. The prisoners in the fortress at Uleaborg have been liberated and the governor and police dismissed.

LOST ZEPPELIN HAD MADE LONG JOURNEY

Berlin, March 20 (wireless to Sayville).—The admiralty announces that Zeppelin L-39, which was brought down near Compiègne, France, last Saturday, was one of the airships which took part in the London raid of the previous night.

The indicated course of the Zeppelin was from its base, presumably in Belgium, across the channel to England, thence back across French territory to Paris and then 45 miles in a northeasterly direction to Compiègne, where it met its fate.

AT THE TRAMWAY.

Fire in the Tramway continues to give trouble, although the situation there is gradually improving. The output of ore from the West Colusa, and Leonard mines has nearly reached normal figures. There is no smoke nor gas in those mines and work is going on about as usual.

Miss Ruth Franzman of 725 West Broadway has gone to Helena, where she will have charge of the billing department of the Mountain States Telephone company, headquarters for which were recently moved to Helena.

BULL MOVEMENT IN FULL SWING

Stock Prices Make Gains and Trades Exceed Million and a Quarter Shares.

Price advances continued without interruption in the stock market today, United Steel, the leader, showing a net gain of six points for the week. Rails were strong, with Reading, which advanced 1 1/2 points on the day, leading in the trading. Coppers held well, making fractional gains. Total sales on the New York exchange exceeded 1,250,000 shares.

Brokers' advices and market comment are all in an optimistic vein. A creeping bull market is the way a majority of the brokers view it. United States Steel, which sold for 111 a week ago and 114 1/4 yesterday, opened today at 115 and closed 117. Union Pacific, which sold a week ago at 135 1/2 and closed yesterday at 139, opened today at 139 1/2 and sold up to 141 1/4. Industrial Alcohol led the specialty list today with a net gain of more than 3 points. The list without exception showed gains.

Anaconda opened today at 85 1/4, was low at 85 1/4, high at 86 1/4 and closed at 86 1/4. Butte and Superior opened at 47, was low at that figure, high at 48 and closed at 47 1/4. North Butte was quoted at 42. East Butte at 14 1/2, Tuolumne at 1 1/2 and Davis-Daly at 5 1/2.

Stock advices and comment received over wires of the Paine-Webber company included the following: Boston Copper Letter: "The United States is generally regarded as in a state of war, but this has been the condition for about six weeks. We are experiencing a creeping bull market in stocks. The raw material issues are the attractive purchases. The copper stocks are selling on a level warranted by 15 to 20 cent copper."

Foster says: "From this level I advise taking profits on steels and the war stocks and the purchase of the low and medium-priced rails. Coppers still have a big chance for higher prices."

The Hutton Stock Letter received over wires of the Heilbronner company today says: "It is a very remarkable market that can advance for railroads when they receive one of the worst conditions in regard to their prosperity that ever have been given out. It is estimated the Adams law will cost them \$60,000,000 a year. An advance in rates is looked for, but the question is whether it will be enough; what they need is a big one; not a small one. It ought to be 10 per cent or more. Leather stocks look well, as do coppers. In fact, all the industrial seem to be broadening and looks as though this list would sell higher."
