NAVY LEAGUE MEN TO GO TO HELENA

Members of Local Branch to Take Part in Patriotic Demonstration.

Butte members of the Navy league of the United States are making plans today to go to Helena in a body to participate in the patriotic demonstration there tomorrow night. Members of the league hope to turn out in sufficient numbers to constitute one division of the parade, which will be one of the features of the demonstration. They are notifying President Eugene Carroll and Secretary Mark Ezekiels of the Montana branch of the league today of their intention of going in order that provision may be made for them upon arrival in Helena. The party will leave Butte tomorrow afternoon at 3 o'clock and will return Wednesday afternoon. Lieutenant Madden, who is in charge of the local navy recruiting office, will accompany the party.

Four recruits for the navy were received at the local recruiting office today. They were Albert Beaudet of Anaconda, fireman, second class; George Kennedy, Butte, fireman, third class; Henry A. Crowley of Phillipsburg, fireman, third class; Orlo C. Taylor of Sheridan, Wyo., fireman, third class.

Chief Machinists Mate Hendry of the local recruiting staff will go to Twin Bridges tomorrow to receive a number of applicants for enlistment who have applied to the postmaster there.

BRYAN ASSURES PRESIDENT OF FULL SUPPORT

(Continued from Page One.)

confirm my telegram sent him the day a state of war was declared to exist. I do not care to discuss any question before congress. Whatever the government does is right and I shall support it to the utmost. I take it for granted that the people will unflinchingly support any action taken by the government. In war time the president speaks for the whole country and there should be no division or dissension. "I have a number of speaking dates made before this situation arose. They can be cancelled at any time my services are needed by the government. These meetings give me an opportunity of laying before the audience I address the part citizens can play in support of the government. I am collecting now from government sources such information as they desire to spread and shall use it both in speeches and in my paper."

Bread vs. Alcohol.
 Mr. Bryan said he endorsed any plan to prohibit the use of grain for making liquor during the war.

"I am in hearty sympathy," he said, "with the effort to conserve the food supply by not allowing the bread to be shortened in supply in order to lengthen the supply of alcohol. It is not wise to starve the people in order to make them drunk."

Before calling upon the president, Mr. Bryan conferred with Secretary Baker and Secretary Houston. He also planned to see Secretary Daniels and Postmaster General Burleson. Mr. Bryan left here shortly after seeing the president for Lehigh, Pa., where he speaks tonight. He plans to go west by way of Lincoln soon and arrive in southern California early in May.

Regarding his offer to become a private in the army, Mr. Bryan said he made it because he believed that in that capacity he would be with the largest body of citizens.

The record for Saturday's recruiting was a net gain of 1,124 men, bringing the enlisted force that much nearer the 100,000 mark Secretary Daniels expected to reach by May 1.

LANE CALLS FOR MEN TO WORK THE UNUSED ACREAGE

Idle Farms in East and Millions of Uncultivated Lands in West.

Washington, April 16.—Millions of acres of uncultivated lands in the west and the idle farms of the east and south were pointed to by Secretary Lane in a statement today as places where men who do not call for the firing line may serve their country as effectively as they could at the front. "Our people cannot all be fighters," the secretary said. "We must have in addition to our armies of fighters, armies of producers, to sustain those who struggle and to maintain those for whom they struggle. Men in close touch with the food supply of this country predict that if the present decrease in production keeps up for another year, we will face a serious food famine."

"Two hundred and forty million acres of unallotted public land in the western states await the coming of the farmers and the herdsmen. Millions of acres of fine farm lands in the eastern states lie idle through the lack of men to work them. Forty-two million of our population sit idle in crowded cities and complain of the high cost of living.

"Any citizen of the United States who has not already located a homestead may apply for as many acres of farming land as he wants up to 160 acres in the restricted sections and up to 320 acres in the unclaimed sections. Straight grazing land may be had to the extent of 640 acres.

"From Alabama to Alaska land is waiting to be taken up. And with all these resources we face an actual food famine."
