**EXPERTS OCCUPY FEDERAL COURT**

Butte and Superior Still Introducing Testimony in Oil Flotation Suit.

Continuation of an exposition of various methods and processes for reducing complex ores by oil flotation marked trial of Minerals Separation company's suit against the Butte and Superior Mining company for infringement of patent in the federal court today. The testimony is of a highly technical nature and it is illustrated by the Butte and Superior experts with experiments conducted directly in front of the judge's rostrum in the court room.

Cross examination of Frederick E. Beach of Yale, who occupied the witness stand all of yesterday, was completed this morning and shortly before noon Prof. W. D. Bancroft of Cornell university, a chemist of more than 30 years experience and chairman of the sub-committee on electro-chemistry of the National Research Council in connection with the present war, took the stand. He described in detail the principle of oil flotation and took up several methods of accomplishing it.

That the trial will consume the greater part of next week now seems more than likely. The spring term of the federal court will open Tuesday and probably a jury will be called then to report some time the following week.

An attempt was made to amend the decree entered in the Hyde case by attorneys for the Butte and Superior today in the belief that its language restrained attorneys, who acted for Hyde, from participation in any litigation involving the patent. Judge Bourquin, however, held that the decree is not subject to the drastic construction which the attorneys placed upon it and that it does not bar them from participation in the Butte and Superior litigation.

**DESPERATE ATTACK OF GERMANS FAILS**

(Continued from Page One.)

man plan undoubtedly was to escape from the allies. He continued:

"To frustrate this plan the French and British widened the front of their attacks so as to overlap the front on which the Germans were retreating. The result was that the enemy found both his wings involved. He decided to fight on the first line and the French plan was altered to suit.

"The result of the first and second day's fighting was that the Germans lost fully 100,000 men and, what was more important, were obliged to engage 33 out of their 43 reserve divisions. The dearly bought but valuable results of the Alsne and Champagne operations are thus:

"First, the enemy was prevented from carrying out his own plan, thus disposing of the famous Hindenburg scheme which was to be followed on the conclusion of the retreat from Noyon.

"Second, the enemy was obliged to order his troops to hold out on the first line, but his whole line has been captured, a tactical success to which must be added heavy losses in men, material and guns."

**ADMITTS GERMAN SOLDIERS AT FRONT DISCOURAGED**

Copenhagen, April 27 (via London).—General von Stein, German minister of war, admitted before the Reichstag of the military committee yesterday that field post letters from soldiers at the front showed a certain amount of discouragement but that, in general, the spirit of the troops was good.

The committee then sent assurances of solid support to the army which the radical socialist members of the committee alone refused to sign. The committee rejected radical socialist proposal to establish a committee of parliamentary control to supervise the conduct of the war. Herr Stuecklein, a socialist, complained that men were sent to the front as a punishment.

**130 CANNON TAKEN BY FRENCH SINCE APRIL 16**

Paris, April 27.—The French have captured several trenches on the heights around Moronvillers and have also gained ground near Hurbelle and Cerny, the war office announced today. One hundred and thirty cannon have been captured since April 16.

**MINOR FIGHTING ON THE BRITISH FRONT**

London, April 27.—Important positions between Roex and Gavrelle and near the arras-Cambrai road have been captured by the British, the war office announced today. The statement says:

"The enemy made a minor unsuccessful attack last night near Fayet, northwest of St. Quentin.

"During the night we captured the quarries on the eastern outskirts of Hargicourt.

"Near the Arras-Cambrai road and on the spur between Roex and Gavrelle important enemy positions were captured by us.

"Northwest of Lens a German raiding party was repulsed."

**GERMAN PATROL SHIPS BUSY IN THE SKAGERAK**

Copenhagen (via London), April 27.—German patrol ships are continuing their activities against neutral shipping in the Skagerak. Recently the Scandinavian-American liner United States was halted and examined. Yesterday the Norwegian passenger steamer Haarfaegre, plying between Frederikshaven, Denmark, and Christianaford, Norway, was seized and taken to a German port.

**BOOSTERS START GARDENING PLANS**

Members of South Side Organization Expect to Cultivate 50 Acres.

Probably 50 acres of land will be put into potatoes, cabbage and onions on the south side this spring if the plans made by the Boosters club at its regular meeting last night are carried out. Every member of the club stated that he would cultivate every inch of soil in his back yard and as much adjoining land as possible. The south side residents have taken enthusiastically to the gardening campaign suggested by the crop experts and they expect to make a material increase to the supply of their kitchen commodities next fall.

The offer by the water company of Butte to give its water free to the people using it for gardening purposes was a tremendous inducement to the south side residents. Nearly every home has ample room in its back yard for a small garden. Much additional land now vacant will undoubtedly be cultivated, making the total acreage large.

The Boosters' club, before the war situation developed, had taken steps to stimulate the planting of trees, but they have canceled their orders for shade trees and changed them for seed potatoes and other vegetables.

The work of the club has grown to such an extent that the addition of five new officers was made imperative. Frank Fitch was elected financial secretary and John O'Brien, P. F. Johnson, W. Quinn and Tony Tirlin were chosen as additional trustees.

Plans for taking a south side census will be laid at the club's meeting next week.

**COST OF CLEANUP DOUBLE THIS YEAR**

Failure of Landlords to Supply Garbage and Ash Cans Impedes Work.

Almost twice as much work and much more money has been needed to clean up Butte this spring than in other years because of landlords who are not complying with the city ordinances. M. D. Cahill, street commissioner, said today in speaking of the progress of the big cleanup of Butte. The street commissioner has enlisted with him the aid of the Butte Ad Club, the Boy Scouts, the city health department, the Chamber of Commerce and many other individuals and organizations. Otherwise the work is going ahead well and the 20 extra teams, with the complement of men, who have gotten as far south in the work on the east side as Platinum street, are doing good work.

In those flats where, for instance, they have four families as tenants, the landlords have furnished only two ash cans and garbage cans, when the city ordinances specifically provide that there shall be two cans, one for ashes and one for garbage for each family. The regular city force cannot get around to all of these places every day and as a result the surplus refuse finds a place in the alley instead of the cans and is a breeding place for flies and disease germs.

This phase of the cleanup was looked into today by a committee composed of the heads of the organizations interested in the work and the health department will be asked to take the necessary steps to eradicate the evil.

**PIONEER ANACONDA DIES AT SPOKANE**

Anacoda, April 27.—Robert Morrill, one of the early pioneers of the Deer Lodge valley, died recently in Spokane, according to information received here. He was born in Quebec in 1839 and crossed the plains in 1861. He was one of the first citizens of Anacoda and located a homestead on the site of the smelter. After leaving here he went to Northport, Wash., where he made his home for a time. His surviving relatives all reside in Spokane.

**AUTOISTS IMPROVING.**

E. L. Gilman and F. H. Traparish of Butte and Mrs. Birdie Langley of Potomac, who were brought here on a Milwaukee train after their machine had been struck at a grade crossing, are recovering from the shock and their fractures are doing as well as can be expected at this time. Mrs. Langley and Traparish are at the Murray hospital.

**BUTTE IN BRIEF**

Mrs. Jack Bryant of Missoula is visiting this week with her mother, Mrs. Robertson of 629 East Galena street. Mrs. Bryant was formerly Miss Marguerita Robertson.

**SEPARATE PEACE SPEAKER MOBBED IN RUSS CAPITAL**

(Continued from Page One.)

party, which is working for an unanimous cessation of the war. On the question of peace the newly established Workingmen's Gazette says:

**Not Separate Peace.**

"Every day the Bourgeois newspapers repeat the same thing, namely, that peace without annexation means a separate peace and that those opposed to a separate peace must continue the war to a full victory and the ruin of German militarism and imperialism. That is an error. We do not want a separate peace because Belgium, Serbia and France would be the victims of such a peace."

The paper then outlined the peace conditions which it advocated and which are based on a restoration of the previous map of Europe and full freedom for all nations.

**SALARY INCREASES FOR THE G. N. OFFICE FORCE**

St. Paul, April 27.—Salary increases, in some cases as high as 25 per cent and aggregating more than \$1,000,000 annually, will be granted May 1 to several thousand employees of the Great Northern railway, such as clerical forces and others that have not in the past received general advances," it was announced by President L. W. Hill here today.

**THE "COME-BACK"**

The "Come-Back" man was really never down and out. His weakened condition because of over-work, lack of exercise, improper eating and living, demands stimulation to satisfy the cry for a health-giving appetite and the refreshing sleep essential to strength. GOLD MEDAL Haarlem Oil Capsules, the National Remedy in Holland, will do the work. They are wonderful! Three of these capsules each day will put a man on his feet before he knows it, whether his trouble comes from uric acid poisoning; the kidneys, gravel or stone in the bladder, stomachic derangement or other ailments that befall the over-zealous American. Don't wait until you are entirely down-and-out, but take them today. Your druggist will gladly refund your money if they do not help you. 25c, 50c and \$1.00 per box. Accept no substitutes. Look for the name GOLD MEDAL on every box. They are the pure, original, imported Haarlem Oil Capsules.—Adv.

**THE BACK OF A MAGAZINE**

It's a delight to read Mary McLane's description of the back of a magazine. It's an education to read her description of Butte. It's flattering to our city. Her letter to God is unique. Her midnight cold potato luncheon is described in her own inimitable way. When you treat yourself to her book, if you give it to a friend, you will surely buy another. You can read it any time or place, at any chapter and find it well worth your while. It is outselling any book that ever came to Butte. Get your copy today at The P. O. News Stand.—Adv.

**FURTHER RETIREMENT OF TURKS IN MESOPOTAMIA**

London, April 27.—A further retirement of the Turks in Mesopotamia for a considerable distance north of Samarra, recently captured by the British, is reported by General Maude. The Thirteenth Turkish corps is encamping in the foothills of the Jebel Hamrin range between the Tigris and the Euphrates, where the British are in touch with it.

**CALL IT BOGUS OFFER.**

Christiana, April 27.—The German official announcement of a safe conduct for neutral steamers leaving British ports on May 1 is regarded by the Norwegian press as a repetition of the bogus offer of last March, nullified by impossible conditions. No Norwegian shipowners have accepted the German offer.

**ARTILLERY ACTION IS AGAIN VIOLENT**

Berlin, April 27 (via London).—Along the Aisne and in the Champagne the artillery fighting is developing to a pitch of greater violence, says today's official report.
