

NEW QUARTER TO BE WORK OF ART

Secretary McAdoo Seeks Consent of Congress to Improve Coin.

The Post's Washington Bureau. Washington, May 1.—If Secretary of the Treasury William G. McAdoo's proposed legislation is enacted, there will be a notable improvement in the appearance of the quarter of a dollar.

Representative William A. Ashbrook, chairman of the committee on coinage, weights and measures, has introduced a bill at the suggestion of Secretary McAdoo. The purpose of the bill is to increase the artistic merit of the current quarter-dollar. The secretary of the treasury is authorized to change the position of the eagle and to rearrange the stars on the reverse.

Mr. Ashbrook has introduced this bill following the receipt of a letter from Secretary McAdoo in which Mr. McAdoo said:

"The modifications proposed are that the principal one being that the eagle has been raised and three stars placed beneath the eagle. The reverse of the lettering has been rearranged and the collision with the pinches, together with a slight change, will produce a coin markedly improved in artistic merit and will not interfere in any way with its practical use."

"I am sorry to have to ask for this change, but since the original design was not true to the original design and that a great improvement has been made in the artistic value and appearance of the coin by making the eagle stand out prominently, I feel that the liberty of proposing a form of coin which will accomplish the object intended by the congress, and heartily recommend its passage."

PROPOSES AN ARMY OF FARM LABORERS

Patrick Would Authorize the Government to Equip the Farmers.

The Post's Washington Bureau. Washington, D. C., May 1.—Copies of a bill proposed by Representative Patrick of Ohio to create an "army of farm laborers" have been printed and distributed among members of congress. The bill provides:

"That the president of the United States is hereby authorized to enlist and equip an agricultural army of not exceeding 300,000 male and female persons to serve no longer than the term of the war, or a lesser term if the president may elect, as farm laborers. The president shall have power to prescribe all rules and regulations for the enlistment, for duty assignment, for the services of such persons, or otherwise; provided, that no officer or private of the said agricultural army shall be eligible for retirement pay or pension."

"That whatever sums are necessary to carry out the provisions of this act are hereby appropriated out of any money in the treasury of the United States not otherwise appropriated."

Trouble Entirely Disappeared.

Fathers and mothers worry over a child with a chronic cough. Knudt W. Wannaska, Minn., writes: "For several years my daughter had a bad chronic cough. Every time she caught a little cold it aggravated the trouble. I tried many medicines, but not until I tried Foley's Honey and Tar did anything produce any great relief. In a few days the trouble entirely disappeared and has never returned." Foley's Honey and Tar for coughs, croup, whooping cough. For sale by Newbro Drug Co.

PRECISELY.

Established and gabbled, did Mr. Rule, and with his wife had strife; and then said: "No one but a fool will agree with his wife."

TODAY'S BEAUTY TALK.

You can enjoy a delightful shampoo with very little effort and for a very cheap cost if you get from your druggist a package of canthrox and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, which is easy to apply to all the hair instead of just the top of the head. The shampoo is now ready. Just pour it on at a time on the scalp and hair and both are entirely covered by the richly perfumed preparation that thoroughly dissolves and removes every bit of dirt, excess oil and dirt. After shampooing the hair dries quickly, with a shine that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.

UNNECESSARY.

An Atlanta lawyer tells of a newly qualified judge in one of the towns of

the south who was trying one of his first criminal cases. The prisoner was an old negro charged with robbing a hencoop. He had been court before on a similar charge and was then acquitted.

"Well, Henry," observed the judge, "I see you're in trouble again."

"Yes, your honor," replied the negro, "the last time I was in court, you was my lawyer."

"Where is your lawyer this time?" "I ain't got no lawyer."
