NEW LAW REGULATES PAPERING OF WALLS

Old Covering Must Be Entirely Removed Before New is Applied.

Butte landlords and agents of apartment houses and flats are showing unusual interest and activity just now in the matter of repapering old walls and ceilings, for on June 1 a new law, requiring that walls and ceilings must be thoroughly cleaned and old coverings removed before new ones are applied, becomes effective.

The law says in part: "That whenever the paper or substitute wall covering on the ceiling or walls of a room in any dwelling, tenement or apartment house, or house owned or maintained for rental purposes, has become loosened so as to be in danger of collecting and retaining dust, germs, vermin or filth, the same shall be removed, the walls and ceilings thoroughly cleaned before new wall paper or substitute wall covering shall be put thereon.

"That no wall paper or substitute wall covering shall be placed upon the walls or ceiling of any room where there has been a case of contagious or infectious disease until all wall paper and substitute wall covering thereon has been entirely removed, and the walls and ceilings thoroughly cleaned, oil painted walls and ceilings excepted."

Violation of the law constitutes a misdemeanor.

Carlson, charged with the murder of Michael Conway, only 85 minutes to decide that the two police officers were not guilty yesterday afternoon. The case went to the jury at 4:35 o'clock and, according to reports, only one ballot was taken as to the guilt or innocence of the men. PRICE ON CIGARETTES INCREASES IN SWEDEN

Cigarettes formerly costing 11-3 cents apiece—about the cheapest cigarette that even the non-particular smoker can endure—now cost 1 1/2 cents, and the increase of the dearer brands is considerably greater. Reasons given are the great increase in the price of raw materials and the great difficulties experienced in obtaining cigarette tobacco.
