

# LISTEN TO DOUGLAS FAIRBANKS!

"The young man has the best chance of winning," says this master movie-artist, and then proceeds at a salary said to be something like a million a year, to prove that what he says is so.

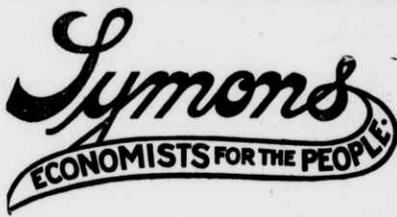

But, he asks, "Why shouldn't Youthfulness be made a permanent asset?" Why not? Haven't we

## KUPPENHEIMER CLOTHES

ready and able to put the spirit of youth into every man? Aren't there gray-haired youths right here in town drawing youthful inspiration from the smart, snappy spirit of a Kuppenheimer suit, carefully fitted?

Yes, young man, the opportunity is yours, and the beginning of your opportunity may be found hanging here in our store, priced at

**\$25, \$30 or \$35**

"The Kuppenheimer House in Butte"

## BUTTE'S GIFT IS \$170,000

Official Report is Made to the State Headquarters at Helena.

(Continued from Page One.)

ger Carroll, whose acceptance of the managership, J. R. Wharton and other workers declared, was the equivalent of a \$25,000 subscription to start the campaign. The team captains and their scores of workers, too, deserve a great deal of praise. All, however, are disposed to look upon it merely as their patriotic duty, although it was, in fact, something more than that, for it meant sacrifice of business interests and time that cannot be computed in dollars and cents, since the big business men of the city entered into the campaign wholeheartedly.

Mr. Carroll paid a pretty tribute to a score or more of workers who, under direction of A. L. Matter and R. M. Hobbs, kept the books of the campaign and kept its records right up to date.

Heads of Butte's three big department stores, as well as practically every business enterprise of any magnitude in the city, played a big part in making the campaign a success. Heads of the Anaconda Copper Mining company's various departments, too, put a willing shoulder to the wheel.

Response of Butte's foreign population was one of the features of the campaign. Slavs, Syrians, Greeks, Italians and even the Chinese contributed liberally.

Report of nearly \$12,000 collected by Team Captain Berrien from the miners on the Butte hill and from those of independent properties told in eloquent manner of the patriotism of the Butte miner.

Every contributor to the Red Cross will be made a member of the local chapter, it was announced by Campaign Manager Carroll yesterday.

### Hibernians Donate \$300.

Yesterday afternoon the Hibernians of this county, through Capt. Charles H. Gallagher, donated \$300 to the Red Cross fund. This was in addition to private donations made by the members. The organization as a whole felt that such a good movement deserved support and generously tendered to Mr. Gallagher, one of the members and a captain of one of the teams, its check for \$300.

### Expenses Nil.

Expenses of the campaign in this county amounted to nothing. Every person connected with the campaign donated his or her services. Contributions represent net profit.

In a letter addressed to Dan Coleman, county chairman, received at local Red Cross headquarters today, E. C. Day, state chairman, and Charles Puchler, state manager, voiced their

appreciation to the local workers and contributors for the promptness with which the campaign was managed and the "exceeding generosity" of the response.

The letter says: "Dear Sir: Without presuming to congratulate your citizens on their expression of patriotism, which was a matter to be expected, the state committee desires to express through you to each of the workers in the campaign and contributors to it, large or small, their deep appreciation of the promptness with which the campaign was managed and the exceeding generosity of your response.

"No such problem was ever before presented to the American people, and the response, both in amount and promptness, has far exceeded expectations of the most enthusiastic American. The campaign has demonstrated, as nothing else could possibly have done, that the great American heart is fully aroused to the call of suffering humanity.

"In order that the record of the campaign may be made complete and preserved for such further use as the president may call upon us—hoping and praying that he may have no further need—will you please make a complete list of your county executive committee, team captains, team members and all others who have in any manner assisted in the campaign, either by soliciting funds or other means, furnishing us with a copy and keeping a file for your own use to which ready reference can be made.

"Will you also, at earliest possible moment, complete the totals of the list of contributions and furnish this office, not only with the total amount subscribed but, if possible, with the number of subscribers, or, if you have it, a list of those subscribers. If this latter list is furnished to our state secretary, R. O. Kaufman, it will not be necessary to furnish one to this office.

"Furnish all amounts collected, together with subscription cards, to Mr. Kaufman as soon as possible. Any expense incurred for which you ask contribution will be promptly audited if forwarded to us direct.

"Again thanking you, and rejoicing with you in the success of the campaign, in which I am sure we have all received not only pleasure but profit, we have the honor to remain,

"Very respectfully yours,  
(Signed) "E. C. DAY,  
"State Chairman.  
"CHARLES PUEHLER,  
"State Manager."

## TICKETS ON SALE FOR FIELD DAY AT THE DRUG STORES

Tickets for admission to the annual Sunday school field day at Columbia Gardens tomorrow may be obtained at the following drug stores: Hoskins', Newbro's, Paxson & Rockefeller and Montgomery's. Street car fare is attached to each ticket. The cars will start running for the gardens at 8 o'clock and the field sports will commence at 9:30 o'clock.

## APPARENTLY DEFY A. F. OF L. LAWS

Action of Central Bodies in Conflict With A. F. of L. Constitution.

(Continued from Page One.)

various mines in Butte seems apparent when section 5 of article II of the constitution of the A. F. of L. is considered:

"No central labor union, or other central body of delegates, shall have the authority or power to order any organization, affiliated with such central union, or other central labor body, on strike, where such organization has a national organization, until the proper authorities of such national or international organization have been consulted and agreed to such action."

### Case of Trades Council.

That the Trades and Labor council of Butte has no authority to endorse the strike of the electricians because that union failed to secure consent to its strike from its international union is indicated by section 9 of article II of the American Federation constitution, which is as follows:

"No central body shall take part in the adjustment of wage contracts, wage disputes or working rules of local unions affiliated with a national or international union, unless the laws of the national or international union permit, except upon the request or consent of the executive officer of the national or international union affected."

### Recognizing Unions.

That the various central bodies cannot under the A. F. of L. charter recognize the outlaw metal mine workers union and that the right to do so is forbidden to all Butte labor organizations is shown in section 1 of article II of the constitution of the A. F. of L., which reads as follows:

"No central labor union, or any other central body of delegates, shall admit to or retain in their councils delegates from any local organization that owes its allegiance to any other body, national or international, hostile to any affiliated organization, or that has been suspended or expelled by, or not connected with, a national or international organization of their trade herein affiliated, nor are delegates to be seated from locals of national or international organizations which are not affiliated to the American Federation of Labor, under penalty of having their charter revoked for violation of their charter, subject to appeal to the next convention."

### Declaring Boycotts.

The action of the Silver Bow Trades and Labor council in declaring the Montana Power company unfair was decidedly illegal under section 7 of article II of the constitution of the

A. F. of L., which reads as follows: "No central labor union, or other central body of delegates, shall have authority or power to originate a boycott, nor shall such bodies endorse and order the placing of the name of any person, firm, or corporation on an unfair list until the local union desiring the same has, before declaring the boycott, submitted the matter in dispute to the central body for investigation, and the best endeavors on its part to effect an amicable settlement. Violation of this section shall forfeit charter."

## LANE MINGES NO WORDS WITH COAL OPERATORS

(Continued from Page One.)

industry. How much vision have you? Are you small or big; are you petty politicians or statesmen? The nation will not stand anything but a large policy from large men. There must be some new adjustment of the coal industry. When your boy and mine are going to the front is no time for you to reap an advantage even when it comes under normal demands of trade. The life of the nation is at stake and there are greater things than making money. Is there a man who will say to me: 'You can send your boy to France while I stay here and coin his blood into dollars?' To be an American citizen is not merely to make a million dollars, but it is to uphold the arm of the man who is making the fight for his country."

### A Warning.

Commissioners for the federal trades commission warned the operators it was certain the government would take over the mines unless they did something soon to lower prices.

T. L. Lewis of the department of justice, who has been conducting investigations into alleged illegal practices among coal operators, reiterated the warning that unless something were done by the operators to meet the price problem more drastic steps would be taken by the government.

Secretary Daniels said that "if the war goes on long no man can say he owns a gallon of oil or a ton of coal; it must be commandeered for the United States."

## ATTACK OF PETAIN'S MEN SURPRISES THE ENEMY

(Continued from Page One.)

allies in the war is expected to be presented to the parliament soon after its convocation, according to special dispatches.

**FRENCH MAKE BIG GAIN IN SURPRISE ATTACK**  
Paris, June 26.—The French made a surprise attack northwest of Hurbise

last night after brief artillery preparation. The war office announces the capture of the entire first line German trenches which were held against desperate counter attacks. More than 300 prisoners were taken.

## FRENCH ARE AGAIN EJECTED FROM THE TRENCHES TAKEN

Berlin, June 26 (via London).—The French troops which penetrated the German lines northwest of Hurbise on the Aisne front were subject to a counter attack and ejected from the greater part of the positions they had occupied, army headquarters announced today.

## CANADIAN TROOPS ARE CLOSE TO THE ENEMY STRONGHOLD

Canadian Army Headquarters in France, June 26.—In their general advance on Lens the Canadians have occupied the strong outpost northwest of that place and have pushed their troops toward Lacoullette. The increasing pressure on the enemy in the Souchez valley during the last few weeks has brought signal success to the British arms with relatively slight loss.

Several days ago the Germans were known to be destroying houses in the western part of Lens with the object of giving a wider area of fire for their guns. That may indicate the intention of abandoning the eastern side of the city and prolonging the struggle by house to house fighting.

## FINNS WHO AIDED THE GERMANS TO BE BARRED

Petrograd, June 26.—The Russia Votta says that 3,000 Finnish volunteers who formerly served in the German army are expected to attempt to enter Finland shortly. The border guard has been instructed and strict orders have been issued. The newspaper regards the release by Germany of 2,000 men, in view of the great need of human material, as evidence of the very suspicious character of this emigration.

The central committee of the Finnish social democratic workmen's party has protested strongly against the non-sabotage of the Finns.

## BRITISH CLOSING IN ON LENS DEFENSES

British Headquarters in France, June 26.—(By the associated press.)—The British are closing in about Lens. After the capture on Sunday of Posse 3 and enemy trenches west from the hill and in the lines immediately south of the Souchez river, several new positions have been occupied in this region nearer Lens. Patrols are advancing across the plains in an easterly direction. Thus the great mining center is being slowly encircled. For weeks Lens has not been exploited economically by the Germans and now is directly menaced by the military.

## DRAFT SELECTIONS MAY START HERE NEXT WEEK

(Continued from Page One.)

ever, asked the governors of the various states, among them Governor Stewart, to nominate candidates for the boards and it may be assumed that the boards as announced have the approval not only of the president but of the state executives as well.

Just exactly what Montana's quota of men for draft will be has not as yet been indicated. Its quota for the national army will be lessened by its excess of the regular army quota, resulting from voluntary enlistment and numbering nearly 200. In other states, however, where enlistments fell short of the regular army quota, this will first be filled by draft, then will come the drawing for the national army, to be followed by draft to fill the ranks of the national guard units up to war strength.

### To Draft for Guard.

In this state one regiment of national guard infantry and a squadron of cavalry (four troops), less one troop (Troop A, which saw service on the Mexican border last year), will be raised by draft in addition to the quota for the national army.

Governor Stewart said today that he had nominated as exemption boards the same city and county officials who were the registration boards throughout the state. If by reason of resignation, due to removal from the state or illness, there are vacancies, the governor will fill such vacancies by nomination.

Rules governing exemptions have not yet been issued but will be soon.

## ATTEMPTED SUICIDE SECHEN WILL RECOVER

Anton Sechen of 2011 Spruce street, who attempted to commit suicide yesterday by drinking carbolic acid, is resting easily at St. James' hospital today and will probably recover. He is badly burned about the mouth and throat. The fact that Sechen is still living and beyond danger is puzzling to the attending physicians in that he drank the contents of a two-ounce bottle of the acid; Sechen has been dependent of late, according to friends, and had made the threat that he would kill himself. His wife and two children are in the old country.

### THE BET WAS OFF.

Two experienced anglers were fishing. One sat down on the pier, while the other stood. Just before beginning operations they made a wager with each other as to who would make the biggest catch of fish. They had been fishing for about half an hour with little or no success when John, who was standing, lost his balance and fell off the pier. As he went headlong past Dick, the latter yelled: "Hi, John, if you're goin' to dive for 'em, the bet's off."

## BACKED BY THE HAYWOOD CROWD

Telegrams That Tell of Connection of Organization With I. W. W.

(Continued from Page One.)

on June 7 and was addressed to William D. Haywood, 1901 West Madison street, Chicago, Ill. It will be noted that Haywood's address is the same address as V. Lousieff, secretary of the Russian revolutionary committee, to whom Mankki, of Butte, was advised by Laukki to turn in his resignation. Mankki, who had been arrested for the part they took in anti-war demonstration in Butte the night of June 5, Laukki's telegram to Haywood read as follows: "Situation at Butte serious. Stop about to start. Wire from them demands Austrian and English miners be sent at once. Wire us receipt of message."

This message was signed by Laukki. The receipt of the message was signed "William D. Haywood, N. B. Croughan." These telegrams will be observed, were exchanged before the miners struck at the Orlu and the Black Rock, the two of the mines to be affected by the miners' strike.

### Planned it Long Time.

That the I. W. W. organization has been planning for the strike in Butte for a long period is now known. Nearly a year ago John Kaari of Hancock, Mich., an executive officer and organizer for the I. W. W., wrote to a friend who was planning to come to Butte not to come. He said: "John Kaari was secretary of the Western Federation of Miners of Butte, Mich., during the strike of 1916, and was ousted from office at that time.

Among the I. W. W. organizers who have come to Butte recently is a man named McKenna, who came here from Goldfield, Nev. a number of I. W. W. organizers and recognized leaders have participated in the organization of the Butte chapter union in this city. Campbell himself is one of the best known I. W. W. men in the district. He was prominent in the I. W. W. troubles in Arizona and was expelled from the Western Federation of Miners two years ago. He was active in the Butte troubles in Butte that resulted in the overthrow of the old miners' union.

### A WASTED HINT.

"I think I'll join the army," said a bashful lover. "You certainly need instruction in the use of arms. George," who was significantly, but George's arms remained at his side.—Boston Transcript.
