

FOND GOOD-BYES TO J. H. REYNOLDS

Associates Honor the Ad Club Chief on His Departure From Butte.

The many friends of "Jimmie" Reynolds, manager of the advertising department of the Hennessy store, said good bye to him last night at the Finley hotel, during a farewell banquet arranged in his honor. There were acts from the Pantages and the Elmpress circuits and many clever speeches by members, but throughout the evening there was a feeling of sorrow at the departure of the first president of the Ad club. "Jimmie" was given evidence of the high regard in which he is held.

John A. Brophy, vice president of the club, was toastmaster. There were talks by "Dolph" Heilbronner, "Heinie" Lonsky, "Tom" McDonald, Malcolm Gillis, Merle M. Davis, Ben Moyle, E. R. Torrey, Paul Noble and others. Mr. Reynolds was presented with a handsome silver plate on which was inscribed the appropriate words: "To James H. Reynolds, first president of the Butte Advertising Club, from his friends, July 2, 1917." Mr. Reynolds responded feelingly to the presentation, expressing his regret at leaving Butte and his appreciation of the friendships he had made in the Ad club.

Other speakers told eloquently of the many virtues of the guest and his "indefatigable pep" in promoting the Ad club. Mr. Reynolds leaves in a few days for Livingston, where he will engage in business.

GRANDMOTHER, THE PIONEER PHYSICIAN

In the good old pioneer days of this country, when drug stores were few, grandmothers' root and herb remedies were what were always depended upon to bring relief for family ailments, and some of grandmother's root and herb remedies are now found upon the shelves of the modern drug store, and are among the best and most widely used prepared medicines.

Such is Lydia E. Pinkham's Vegetable Compound, a botanic remedy, originally prepared by Lydia E. Pinkham of Lynn, Mass., over forty years ago, and which has brought health and happiness to more women in America than any other medicine.—Adv.

WALKERVILLE COUNCIL PLANS IMPROVEMENTS

The first step in caring for the men who are unemployed because of the labor troubles was taken last night when the Walkerville city council decided to push improvement work and employ the citizens of that community who are not working. The street railway company was notified to change its grade on Fourth street immediately and the grade on West Daley street will be changed between Third and Fourth streets. New drains and grades are to be established on Williams street in North Walkerville and new lights will be installed on Daley and Sixth streets and on Rose street.

The city treasurer reported a surplus of \$3,000 in the treasury after all of the debts had been paid. The health commissioner reported three cases of contagious disease and in the month of June but one fine was levied in the police court.

CUTICURA HEALS ITCHY RED RASH ON BABY GIRL

On Head and Face. Could Not Sleep. Formed Eruption. Lost All Hair In Three Weeks.

"My baby girl was only six weeks old when a red rash came on her head and face. It would itch so badly she could not sleep, and she scratched till the blood came. Then it would form a sore eruption which dried up like dandruff. She had a lot of hair but in three weeks she had lost it all, and she was very cross and fretful.

"Nothing seemed to do any good till I received a free sample of Cuticura Soap and Ointment. It gave her relief at once so I bought more and I used two boxes of Cuticura Ointment with the Soap and in three weeks she was all healed." (Signed) Mrs. James Cherry, R. JAPAN WANTS RECOGNITION

Her Statesmen Are Striving for Position of Dominance in the Far East.

Tokio, July 3.—Keen interest has been caused in Japan by the recent agitation over the action of the United States in independently sending a note to China urging unity in that country. In Japanese circles the opinion was frankly expressed that it would have been better had the American government consulted Japan before-hand and thus permitted simultaneous action, instead of notifying Japan two days later, as was the case.

The extremity of views printed in the Japanese press, as well as the published interviews with officials, seemed to indicate an intention to press for an understanding with the United States by which Japan should henceforth be consulted in important actions concerning China. There is no confirmation of this.

The great goal of Japanese diplomacy is believed to be that of eventually securing recognition from the powers of her special and paramount interests in China, and it is understood here that some measure of recognition has been granted by Great Britain and France, who since the outbreak of war have been forced to rely on Japan in a military way to protect their interests in the east.

The Japan Times, which is regarded as a semi-official organ, quoted a high official of the foreign office as saying that the present affair afforded a splendid opportunity for Japan to assert herself if she means to grow and live and that Japan's national existence compelled her jealously to guard her special position relative to China.

Keep Fit and Feel Fine.

Foley Cathartic Tablets are a wholesome physic that thoroughly cleanse the bowels, sweeten the stomach and arouse the liver. For indigestion, biliousness, bad breath, bloating, gas, or constipation, no remedy is more highly recommended. Sluggish bowels are the direct cause of many ills and the indirect cause of many more. Undigested food poisons the whole system. Don't be careless. See that your bowels are regular. Keep fit. Then you will feel fine. Newbro Drug Co.—Adv.

ARMY SUPPLIES FOR FIRST YEAR

Vast Quantity of Food is Required for the Contemplated Force.

The Post's Washington Bureau. Washington, D. C., July 3.—The war department has made public a highly interesting list of the supplies required for the first army of one million men for the period of one year. It includes everything from beef to shoestrings and from oats to candy. The ordinary layman will be surprised to note the variety of articles, as well as the tremendous quantities required in bulk. In preparing for the outfitting of the troops Quartermaster General Sharpe's office is one of the busiest places in Washington.

The official announcement says: "Nearly 200,000 tons of fresh beef (397,832,240 pounds) is one item and besides that there is canned corned and canned roast beef, totalling nearly 8,000,000 pounds more, without including the canned corned beef hash, also among the items.

"All told, 343 different items of supplies appear in the quartermaster general's list of rations for issue and sale over 12,000 pounds of lard and over 7,200,000 pounds of butter; canned and dried fish, canned vegetables, evaporated apples and peaches, etc.

"The variety of fare possible in regular rations is increased by a list of items for sale to soldiers at cost. The sale list totals 165 items, largely foodstuffs, but including also shaving mugs, pencils, pins, pens, shoe polish, letter paper (23,320 quires), 45,350 pipes, 23,230 razors, toilet articles (among which are 148,800 cans of talcum powder and 3,729 bottles of toilet water), 11,190 spools of thread, etc. The foodstuffs in the sale list include canned mushrooms, a variety of canned syrup, ginger ale, sauces, sausage, 305,000 pints of effervescent water, etc.

"Regular articles of clothing are 29 in number. These are figured on initial requirements and upkeep for the first nine months. There are a few of the items: Belts, 2,900,000; cotton coats, 3,200,000; woolen coats, 1,270,000; service hats 1,825,000; shoe laces, 7,200,000; overcoats, 1,675,000.

"Equipment includes 90 articles. Among them are 120,500 axes, 450,000 blankets, 28,000 bugles, 1,900,000 coats, 1,440,250 tents of several kinds, over 1,000,000 gross of buttons, 39,000,000 yards of cotton cloth, etc.

"Existing quantities needed is only a starting point in supplying an army. Things must be bought, quality tested, contracts made, prices determined, delivery arranged and then come the problems of transportation, storage and distribution.

"This shows a part of the country's great war task on which thousands of people are daily working to make the world safe for democracy."

NO MORE INFORMATION REGARDING SHIPBUILDING

Washington, July 3.—As a military policy, no detailed information will be made public hereafter regarding the progress of the government's shipbuilding program. Heretofore it has been the practice to announce the award of contracts, but Major General Goethals, manager of the emergency fleet corporation, said today that in the future there would be no announcements of that character.

The fleet corporation already has given contracts for more than 100 steel and wooden ships and in addition for nearly 100 wooden hulls, and in the near future it is expected the total will be greatly increased.
