If the cost of the work is more than \$3,500,000 a fee of 6 per cent of such cost.
The total fee to the contractor hereunder shall in no event exceed the sum of \$250,000, anything in this agreement to the contrary notwithstanding.

000. He can make his \$10,000 profit if he gets the job done for \$100,000; but he doesn't get a cent more unless he pads the cost to run over \$125,000. And after he reaches \$125,000 he drops down to an 8 per cent profit basis. He wouldn't get any considerable extra graft unless he ran costs up around \$150,000.
It is easy to pad a contract to increase the cost by a quarter or a third; but when it comes to jumping the cost a half or two-thirds, it is too easy to detect, and brings a man just a little too close to the doors of the penitentiary to be comfortable.

GEORGE WASHINGTON OF SOUTH AFRICA JOINS UNCLE SAM TO AID LAND ONCE BOTH FOUGHT

London, July 4.—One hundred and forty-one years ago today the American colonies severed relations with Great Britain and declared her independence.
Almost 125 years later a man arose in South Africa who tossed his defiance in the face of Britain.
Now this man, the George Washington of South Africa, Gen. Jan Smuts, and the United States are fighting side by side with England for the independence of the world.
General Smuts, soldier-statesman, idol of Britain, sends his Independence day greeting to America in the words of democratic understanding addressed to republican Russia.
The sentiment shows a true democratic vision, far removed from the old-world ideals which have tempered Europe's veiled policies of peace after the war.
"If America had not come in," he said, "peace would have been an old world arrangement. But America has come in and we have the assurance that the peace will be a world peace, embracing all the nations and democracies of the world.
"The world can no longer be half

GUNMAN, HOLDING GIRLS AS SHIELD, FIGHTS COPS

New York.—Placing two terrified little girls in front of him, a young gunman who had resumed the leadership of his band of city outlaws following his escape from prison held two detectives at bay in a Harlem playground for five minutes. His revolver had failed to work, but the detectives feared to shoot lest they harm the children.
That tense situation was relieved when the detectives realized the man's weapon was useless and advanced upon him. When they were within 20 feet he dashed the children aside and started over a 12-foot iron paling fence.
He was on top of the fence when Sommers fired one shot at him. The bullet entered his side and inflicted a probably fatal wound. He dropped back into the playground, while children ran screaming to the gates.
He later was sent to Bellevue, where physicians said he probably would die.
He was William Moynihan, only 19 years old, but whose record at police headquarters fills several pages. Beginning with terms in the Truant school at 12 years of age, the record advances in seriousness until last summer, when Moynihan was sent to the House of Refuge on Randall's island after being convicted of burglary.
He escaped from Randall's island Jan. 8, swimming the channel in the East river.

The weary sailor heaved a sigh. And he said: "Hully, gee! While I do not get seasick, I Sure get sick of the sea."

SAFE AND SANE IS FOURTH IN BUTTE

Police Will Watch Merchants and Prevent the Sale of All Fireworks.

Police were instructed today to prevent the use of fireworks of all kinds. Stores were watched carefully, but no attempts were made to evade the law.
Boys and girls, however, had plenty of material with which to celebrate. The stores were filled with noise makers and novelties. American flags were sold by the hundred.
"Butte will have a safe and sane Fourth," said Mayor W. H. Maloney. "The police have received orders to prevent the sale of any sort of fireworks."
One merchant plans a celebration in front of his store tonight. He has many balloons which he will send up. Red fire of the harmless variety will be used in abundance.

CONVICTS RAISE \$227 TO BUY WAR AMBULANCE

Jefferson City, Mo.—Acting Warden Painter has announced that \$227.50 was raised at an entertainment given by inmates of the penitentiary toward the purchase of an ambulance for the Missouri national guard. The public was invited and a subscription taken. Prisoners will raise the balance.

NO GUNS FOUND ON ALIEN ENEMIES

Chief of Police Believes There Are But Few Germans Here Who Have Not Papers.

That there are no alien enemies who own weapons of any sort is apparent in Butte, as there have been none to surrender arms in compliance with the demand from the chief of police made several weeks ago.
The chief knows who the German residents of the city are. He is convinced that none of these own arms. The Germans in Butte who have failed to take out naturalization papers are scarce. While the city has many people from Germany within its limits, the German who has taken out no papers is an exception.
"It will go hard with anyone, an enemy of this country, to own weapons," said the chief today. "Arrests will be made at once and the prisoners turned over to federal authorities."
The chief has also issued orders to second hand dealers and others not to sell guns to anyone without a permit. Since the order was issued many have applied to the mayor, who disclaims authority in the matter and sends the applicants to the judges of the district court.

BAR ASSOCIATION HEAD ASKS LAWYER'S REFORM

Atlantic City, N. J.—A plea for the uplift of the legal profession was made by Joseph C. France of Baltimore, president of the Maryland Bar association, at the opening session of the annual convention at the Marlborough-Blenheim. Mr. France declared that times are changing and the lawyer must recognize and meet the change by realizing the larger duty he owes to the public. The profession has become supine in the face of unscrupulous practices on the part of some of its members, in the face of poor legislators and vicious legislation, and despite the fact, too, that the public has exhibited a lack of confidence in the lawyer, President France declared.
"DUST TO DUST" IS LAW SAYS JURY AT DENVER
Denver, Colo.—A human body buried in a cemetery becomes part of the earth; on the theory of "dust to dust, earth to earth," and any one who removes it from a grave, unless the owner of the plot consents, becomes liable to damages.
A jury in Judge Denison's division thus held and awarded Benjamin A. Thrall \$25 damages against a cemetery association because it permitted the removal of the body of Thrall's father from a grave.
