R. R. CAR TELLS OF INDIAN LAND

Under U. S. Supervision Sale of 500,000 Acres is Being Arranged.

A special railroad car, in charge of D. D. McFarland, representing the Mc-

Alister Real Estate Exchange of McAlester, Okla., and exhibiting samples of the products of Oklahoma with literature concerning the agricultural and grazing possibilities of that state, arrived here last evening over the Short Line. It will be located for several days on the Butte, Anaconda and Pacific tracks and Mr. McFarland and his associates will be glad to meet there all those who are interested in securing good land at reasonable rates and under favorable conditions.

Lots of 40, 80 and 160 acres may be purchased and the prices run from \$3 to \$10 an acre, payable in four equal installments. Those who have not yet availed of their rights as citizens to homesteads are eligible to purchase some of the Oklahoma land, which is said to be the richest allotment of Indian land ever offered the public. The sale of the lands is being conducted by the United States government representing the Indians, with the McAlester Exchange working under a power of attorney as representing the purchaser. Residence is not required on the land, the purchase differing therefrom from the official method of homesteading.

AUTO RACE FOR SIDE BET OF ONE THOUSAND

James M. Reynolds Will Try Conclusions With J. S. Smith.

A match race for a side bet of \$1,000 will be staged over the Boulder-Helena road tomorrow morning at 11 o'clock when J. M. Reynolds of Boulder Springs, driving a Hudson Super six, will race J. Stanley Smith, a wealthy northern Montanan, driving a Bluebird Winton, from the Boulder Springs hotel to the top of the Helena hill and return.

Mr. Reynolds will be remembered by Butte people as a former chief of police of this city and champion roller and ice skater. Of late years he has been given to automobiling and will try his prowess in his first matched race tomorrow.

Mr. Smith is also an automobile enthusiast, who during the past few years has owned 93 different cars. Last summer at Anaconda he lowered Barney Oldfield's record on the dirt track there for the mile by four seconds with a stock car and without special preparation.

NOT FIT SUBJECT FOR ASYLUM; HELD FOR DEVELOPMENTS

Carl Johanson, a baker, aged 48 years, and a native of Sweden, was before Judge John V. Dwyer this afternoon on a charge of insanity on complaint of his wife. The medical examiners were Dr. A. C. Knight and Dr. J. F. Lohok. The hearing developed the fact that Johanson was suffering from the excessive use of intoxicating liquors. This was the testimony of Mrs. Johanson and a number of neighbors.

The doctors were not satisfied that the man was in such a condition as to commit him to Warm Springs, but felt at the same time that something should be done with him for a time. At the suggestion of Judge Dwyer the sheriff was directed to hold him one week to await developments.

VALUABLE NORWEGIAN SHIP IS TORPEDOED

Copenhagen, July 6.—The sinking by a German submarine of the Norwegian steamer Benguela is reported by the Tidens Tegn of Christiania. She was on her way from England for Philadelphia and was insured for 4,000,000 kroner. The crew was transferred to a Spanish steamer.

PUBLIC INVITED TO WOULD STOP ALL WORK IN WEST

Ministers to Offer Prayers for Unidentified of Mine Disaster.

Solemn memorial services will be held Sunday afternoon at 3 o'clock at Mountain View cemetery for the miners who lost their lives in the Speculator disaster and whose bodies were not identified on discovery. The services will be conducted under the auspices of the Silver Bow Ministerial association and the relatives and friends of the deceased as well as the public in general are invited to attend. Sixty-three bodies were unidentified.

Dr. E. J. Groeneveld will preside at the services. The invocation will be delivered by Rev. L. A. Wilson of the People's Congregational church. The Stevens Glee club will furnish a selection of sacred hymns and the scripture will be read by Rev. C. F. Chapman of St. John's Episcopal church.

Rev. G. D. Wolfe of the Mountain View church will deliver the eulogy, following the reading of the names of the dead by Rev. T. C. Brockway, Rev. Marko Komnenich of the Serbian church will deliver a prayer in his native language. Rev. Charles A. Cook will also offer prayer. The Aroclidian quartet will render a special selection and the benediction will be given by Rev. D. N. Anderson of the Emmanuel Lutheran church. The North Butte Mining company will provide transportation to the cemetery for the ministers and those taking part in the memorial exercises. It is quite possible that arrangements may be made at the same time for a public permanent memorial tablet for the victims of the disaster.

That the Butte strike is part of a conspiracy on the part of the I. W. W. to close industries all over the country has been admitted in several of the publications of this un-American organization. Wiring from Bonner, Mont., to the Industrialist, the I. W. W. organ published at Duluth, a correspondent spoke of the strike among lumbermen in the northwest and of the troubles at Butte. In the course of his story in the Industrialist of June 28, this correspondent said: "The work at all the sawmills and lumber camps has been stopped. The sawmill and lumber workers went on strike for two reasons, just like the Arizona copper miners. First to help themselves, and next to help the Butte miners who are on strike against the capitalist companies. "Now we are trying to get all of the industries of the western states stopped, whether it is mining or anything else. More than 10,000 workers are now on strike and every day a strike breaks out at some new place in the country."

In solidarity and in the Industrialist's frank statement has been made that the I. W. W. was back of the troubles in Butte and that it was hoped to close down the copper and zinc mines on which the government is depending for metal supplies for war munitions. These newspapers are active in their agitation against conscription and but to had a great deal to say in defense of the reasonable men who have been arrested for resisting the draft.

"WETS" AND "DRYS" LINE UP FOR A RECORD VOTE

(Continued from Page One)

limited debate. The agreement was reached only after threats of invoking the new closure rule. Senator Chamberlain, in charge of the bill, hopes to reach another agreement for a final vote on the bill itself by next Wednesday or Thursday. He plans to submit the closure rule to the senate in the afternoon and to have an understanding can be reached for a vote by that time.

No Special Price to U. S.

An amendment by Senator Chamberlain was adopted providing that the minimum price of any necessary human foodstuffs shall not be less than the minimum guaranteed price of products.

Vice President Marshall laid before the senate the report of the Chicago federal grand jury into prices of foodstuffs in that section. It was read and ordered inserted in the record.

Senator Curtis introduced the bonedry prohibition provision contained in the bill as it came from the house.

Borah on Prohibition.

Consideration of committee amendments was interrupted by Senator Borah, who spoke in favor of the prohibition section. He said prohibition was not only needed in order to conserve the supply of food products, but was necessary to conserve human energy and efficiency in order to meet the industrial stride when the war is over.

When he cited the decrease of drunkenness and crime in England with the curtailment of the liquor traffic by the government, Senator Reed called attention to London press dispatches announcing an increase in the allowance of beer.

Following a parliamentary tangle over precedence of various prohibition proposals, the senate voted, 15 to 29, to sustain a ruling by Vice President Marshall, that before the Gore and Robinson amendments should be voted on the senate should first dispose of a "bonedry" amendment by Senator Curtis of Kansas, virtually identical with the original house provision.

Sensors active for prohibition sought and received from Vice President Marshall assurance that there was to be an opportunity for a vote upon the house bonedry provision.

Senator Gronna of North Dakota urged national "bonedry" legislation, containing that President Wilson's position was a mistaken one. On a point of order raised by Senator Robinson, the chair ruled that the Gore amendment, which would place upon the president responsibility for determining whether the manufacture of beer and wine should be restricted, came up first for consideration, and under the terms of the agreement accepted yesterday debate on the amendment was limited to five minutes for each senator.

Senator Robinson, who offered the so-called "administration compromise" substitute for the house "bonedry" and Gore amendments, opposed it as a sane, reasonable and fair solution of the prohibition controversy, and in accordance with President Wilson's desire.

An amendment by Senator Cummins of Iowa prohibiting imports of distilled liquors during the war and also use of those now in bond for beverage purposes was adopted by the senate by a vote of 54 to 39.

CONFEREES CONSIDER THE FIRST FOOD BILL

Washington, July 6.—Conferees on the first food bill providing for stimulation of production and a national foodstuffs survey today tentatively agreed to provide for settlement of unurveyed public lands in western states along the lines of Senator Fall's amendment, but probably with new restrictions safeguarding the government's interests. Senators Kendrick and Jones of New Mexico urged adoption of the Fall plan. The conferees postponed settlement of other disputes.

OPERATING PUMPS AT OLD DOMINION MINE

Bowie, Ark., July 6.—Officers, employees and strike breakers continued to operate pumps at the Old Dominion mine and strikers who are picketing the place permitted sufficient food to pass to the men manning the pumps. Failure to operate the pumps, it was said, would result in flooding the mine within a few days and perhaps the permanent ruin of the property.

I. W. W.'S TRY TO FORCE WALKOUT AT JEROME

Jerome, Ariz., July 6.—Local leaders of the Industrial Workers of the World today presented to the Mine Operators' association demands made by copper mine workers now on strike at Globe and threatened to strike if the demands were not granted here. Leaders of the local Mine, Mill and Smelter Workers' union said the recent strike here was settled and the union would not follow the course of the Industrial Workers of the World.

TO IGNORE I. W. W.

Denver, July 6.—Members of the International Union of Mine, Mill and Smelter Workers at Jerome obtained an increase in wages a few weeks ago, following a strike. President Meyer said that the international asserted that the strike was a victory for the men and said he had instructed them to ignore the I. W. W. proposal to strike. The international union has 1,500 members there, Mr. Meyer said.

PRESIDENT OF REICHSTAG TALKS OF MISERY OF WAR

Berlin, July 6 (via Amsterdam).—The reichstag was opened yesterday with a speech by the president, who said that the war continued to rage and asked what a "shocking amount of misery and distress would be spared the world if Germany's enemies had agreed to the magnanimous peace offer of Emperor William and his allies to find a peace which would preserve the honor and the interests of all nations."

MISS RANKIN CAUSES PRINTING OFFICE PROBE

Washington, July 6.—As a result of the protest of Representative Jeanette Rankin of Montana, Secretary McAdoo today appointed a committee to investigate alleged compulsory overwork of women in the bureau of printing and engraving.

Director Ralph of the bureau contends conditions among the workers are good, that they are paid for overtime and that extra work is necessary for getting out liberty bonds and other extra work imposed on the bureau by war conditions.

TWO MEN ARRAIGNED AND BONDS FIXED

Ernest Pappas was arraigned before Judge Dwyer this afternoon by County Attorney Joseph R. Jackson on a charge of receiving stolen property. He was represented by Attorney A. B. Melzner. His bond was fixed at \$2,500. The same bond was fixed in the case of Joseph Seaker charged with a similar offense.

POOBY!
