UNITED STATES GOVERNMENT'S LAST OPENING OF INDIAN LAND

IN SOUTHEASTERN OKLAHOMA

HAVE YOU EXERCISED YOUR GOVERNMENT RIGHT? 500,000 acres of rich agricultural grazing and timber lands in the greatest undeveloped oil territory in the United States to be thrown open to the public. This does not interfere with your homestead rights.

IMPORTANT POINTS—You do not have to live on the land. You do not have to improve the land. The land is close to railroads and market towns. No irrigation necessary—40 inches of rainfall. Ideal climatic conditions. Seldom below freezing in winter; no excessive heat in summer. No reservation of minerals. You may acquire 160 acres of this land. It's your last big land opportunity. You obtain this land direct from the government. YOU MUST ACT NOW. CAR HERE FOR FEW DAYS ONLY. You do not have to go to Oklahoma to file on this land. The government has never offered its people a better investment, with as great a prospect of tremendous gain, as this last allotment is entirely surrounded by developed oil fields.

Government Indian Land Demonstration Car No. 10

Under supervision of McAlester Exchange from McAlester, Oklahoma, is here to give you information regarding the land and the method you pursue to exercise your rights. This opportunity is limited and immediate action is necessary. Pullman car equipped with maps, plats, agricultural and geological reports and display of products, in charge of skilled demonstrators.

AMERICAN GENIUS PRODUCES WEAPON WHICH MAY DECIDE THE WORLD WAR

Admiral Fiske's invention provides for a torpedoplane to swoop down toward battleship and launch torpedo as effectively as from a destroyer.

BY J. H. DUCKWORTH. New York.—In the torpedoplane, a war instrument just invented by Admiral Bradley A. Fiske, U. S. N., America may have the long-sought invention that will decide the world war. Victory, it is claimed, will go to the side which brings forth the most formidable new engines of destruction. It is claimed this new weapon will make a \$20,000 seaplane a worthy match for a \$20,000,000 battle cruiser.

War experts agree that the war could be decided in short order if the allies could put out of commission the German fleet which is bottled up in the Kiel canal, and enter Germany by land from the north. The wonderful British navy, which has the German fleet bottled up, cannot enter the Kiel canal because of the thousands of mines laid by the Germans.

It is argued that the only way to destroy the German fleet is by attack from the air, beyond the reach of mines, and this means is furnished by

RESCUE CAR AT THE PITTSMONT NEXT

Government is Instructing the Men in First-Aid and Helmet Work.

The mines rescue car of the bureau of mines, which has been assigned to this district, will start tomorrow training the men of the East Butte and Main Range companies at the Pitts-mont property in helmet and first aid work. The car, which is in charge of C. A. Allen, a mining engineer, has been giving first aid and helmet instruction at the Butte and Superior company's property for the last week, where a crew of 30 has been trained in rescue work and a crew of 40 in first aid methods.

Smoke chambers are being utilized by the mines rescue crew in teaching use of the oxygen helmet. First aid instruction includes work in stopping hemorrhage, artificial respiration and the like. Oxygen inhalators have replaced pulmotors in restoration of respiration.

The car, which is a new one of all steel construction and has been assigned to the Butte district, which includes the states of Montana, Idaho, North and South Dakota and Wyoming, has two functions, educational in teaching first aid and rescue and to render every assistance possible in case of mine disaster.

At the time of the North Butte disaster the car was at Red Lodge and was brought to Butte by special engines furnished by the Northern Pacific. It was given right of way over all other traffic and made a run at times of a mile in 25 seconds. As a result of prompt handling of the car it reached the mine three hours and a half sooner than would have been possible on the fastest passenger train.

GROUND GIVES WAY AND WOMAN BARELY ESCAPES

Mrs. Lettie Hamen Has Startling Experience in Yard of Her Home.

Mrs. Lettie Hamen of 34 Missoula avenue miraculously escaped serious injury Monday evening when ground in the yard in the rear of her home caved in for a distance of 75 feet while she was taking in the washing from the clothesline.

A wooden clothes lifter lying over the hole, which was about five feet in diameter, saved Mrs. Hamen from being hurled into the cavern. She grabbed the lifter as the ground began to sink and struggled to safety by means of it. Her screams were heard by neighbors, who ran to her assistance, but she had already emerged from the hole.

The ground caved in once before, according to Mrs. Hamen, but was filled in and apparently made safe. The cave is believed to have been due to the workings of some old mining property. The place is now being filled with dirt.

GOT SAWS IN CAKE; NEARLY BROKE JAIL

Newport, Ky.—"Another 20 minutes and we would have emptied your old jail," exclaimed J. B. Rogers of Atlanta, Ga., to Jailer Herman Kemper, when caught in the act of removing hidden stones from the foundation of the county jail at Alexandria recently. Rogers, who is serving a sentence on a grand larceny charge, received a pound cake from Georgia, in which had been secreted several steel saws.

MEAN BRUTE!

"Your wife seems to do a lot of worrying," said Mr. Naylor. "Yes," agreed Mr. Gabb. "She is now worrying over how cold it is going to be next winter."
