BUTTE LIBRARY JOINS IN WAR SERVICE WEEK

(Continued from Page One.)

bany, N. Y., is chairman. It is under the supervision of Dr. Arthur E. Hostwick, in charge of publicity for that committee.

The committee on war service library week has nothing to do with the camp libraries. The committee members are interested, of course, in the plan to provide books for the million Americans who will soon be in training camps, and they will do what they can to assist the committee on camp libraries. But the special work of the committee is to increase the war service of the libraries to the people who do not join the fighting forces.

The idea is similar to that carried out in Toledo, St. Paul and Waco in library publicity weeks, with these exceptions: This library week is to be international in scope, including all the public, reference, school and college libraries in the United States and Canada; and everything is to center in the subjects made prominent by the war.

Every librarian will be backed up in her own efforts by national publicity in magazines and newspapers.

The committee plans to have made by prominent artists several large colored posters, which will be sold to libraries at cost. Many placards will be made available in a similar way.

A complete plan for obtaining the co-operation of business men will be outlined—probably by a group of business men themselves.

There will also be definite suggestions for getting the co-operation of school officers, teachers and pupils. The committee expects to have the active co-operation of a special committee of the Associated Advertising Clubs of the World in working out all of these plans.

Titles tentatively selected for the emergency war lists to be compiled by librarians and experts are as follows: Business Efficiency in War Time; (a) in production, in marketing; Food Values; War-time Transportation; War-time Economy in the Home; Women and the War; Red Cross Work; War-time Thrift; Ship-building; Aviation and Marines; Military Training; Explosives; Guns and Shells; Canning and Storage of Food Stuffs; Vegetable Gardening; Poultry Raising; Russia—Our Ally Republic; Social Service in War Time; Foreign Trade Expansion; War Poems; Tales from the Trenches; Uncle Sam's Navy; Keeping Fit in War Time; Why We Are at War; Courage.

AD CLUB TO HOLD BUSINESS MEETING. A business meeting of the Butte Ad club will be held this evening in the Chamber of Commerce room at the courthouse. The new officers, headed by President "Heinie" Lonskey, will be installed and committees for the year will be named by the president on membership, finance, publicity, program and vigilance.

WOMAN'S CLUB IS OPEN FOR PATRIOTIC LADIES. Commencing today the Woman's club building of this city will be open daily from 10 o'clock to 5 o'clock for the purpose of giving the ladies of the city, particularly the ladies living in the locality of the building, an opportunity of working on bandages and other articles for the soldiers in France. This provides a second workroom for the members of the Butte Women's Patriotic Society.

CHICAGO SPECIALIST IS HERE TO CONSULT. Dr. and Mrs. Frederick Tice of Chicago are visiting at the homes of Dr. E. F. Maginn and Dr. G. O. Dayton of this city. Dr. Tice is professor of diseases of the chest and clinical medicine at the University of Illinois and has been called to Butte as a specialist on a local case.

Use Coconut Oil for Washing Hair. If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and is very harmful. Just plain mulished coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright and easy to manage. You can get mulished coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

U. S. PLANNING WHOLESALE ROUNDUP OF I. W. W. CHIEFS

Evidence Before Government Points to Well-Conceived Plot to Tie Up Industries Throughout Country. Propaganda Has All earmarks of Being Originated and Financed by Germans, Says Senator Thomas of Colorado.

Washington, July 20.—Secret service agents are investigating the I. W. W. in connection with the labor troubles in the west. A wholesale round-up of the leaders of the organization is expected soon. Evidence before the department of justice and members of congress points to a well organized plot. The arrest of a German agent, a follower of von Papen, is imminent.

"There is no doubt," declared Senator Thomas of Colorado, "that the I. W. W. tactics are due to financial support from the enemy. Formerly they got contributions from the masses by duping them. Now there seems to be a new source of strength. They must have large funds to carry on their activities."

Propaganda is German. "The propaganda has all the German earmarks. The practices of this band of men give an ideal opportunity for the intrigues of the enemy. The I. W. W. has always taken advantage of any condition to cause trouble. It is for the destruction of society. Its members are resisting the draft its organization is urging members, if conscripted, to learn the use of guns and preach the doctrine of the I. W. W."

The general outbreak of strikes and labor disorders in the middle and far west has not surprised members of the senate and house committees on military affairs, foreign affairs and the judiciary. Many believe that the I. W. W. is carrying out threats made when congress was considering the state of war declaration and the draft bill. The outbreak is the result of propaganda and organization that has been under way many months. The first intimation that there would be trouble was made by James Eds How, the "Millionaire Hobo," before the house committee on foreign affairs, on February 17, when the committee was considering a measure for a referendum on the declaration of war.

"Many of my friends, who belong to a radical organization," declared How, "have said that if war was declared they would declare war upon the people who declared war over here."

Mr. Cline of Indiana—What is that organization?

Would Make War. Mr. How—They are the Industrial Workers of the World. I do not belong to that organization, but many of the members of it are my friends. They say that the big union members want to make money, and that they are using our class, the working class—that they are psychologizing the working class—for their purpose.

Mr. Goodwin of Arkansas—Then, when war was declared, either by congress or by vote through a referendum, they would make war upon the people who declared war?

Mr. How—They would make war upon you gentlemen.

Later Mr. Goodwin asked this question: "You said awhile ago that the Industrial Workers of the World are so wrought up about this that they would make war upon those who declared war, whether their declaration was through the day"

DIVORCES SPOUSE JAILED IN BUTTE

A Row in a Noodle Parlor Has Its Sequel in Court in Spokane.

Charles Short, who was arrested here recently as the result of a row over a few bowls of noodles, was divorced by Mattie Short in Spokane when she said her husband had failed to return and support her.

Mr. Short in a former plea for divorce told Judge Burn her husband had been arrested because the authorities at Butte took the word of a Chinaman, and did not believe him. He told her a bunch of his friends ran away from the noodle cafe and left him to pay the bill when he was "broke." A row followed, and he was arrested and needed money. She gave residence proof yesterday, which she was unable to do before.

Mrs. Short admitted yesterday when questioned by Deputy Prosecutor H. E. Herman she had not sent her husband money since he was arrested for his conduct in the noodle cafe. She said he worked a few days at Deary, Ida., and a few days at Havre, Mont., after their marriage, but she never saw any of the money.

WOMAN TELLS HOW LYDIA E. PINKHAM'S VEGETABLE COMPOUND HELPED HER.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Steepliness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound.

This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

MAY USE U. S. TROOPS TO QUELL I. W. W. OUTRAGES

The Post's Washington Bureau. Washington, D. C., July 20.—Senator Poindeexter, who recently wrote to President Wilson urging the latter to pursue a vigorous policy in dealing with the I. W. W., has received the following reply from the president: "I need hardly assure you that I have given me grave concern and that I have been casting about to see what might be done. I am in correspondence with the secretary of war to ascertain if it is possible for us to use the forces of the United States in any way that would be influential."

constituted authority of congress or by a referendum vote of the people. Is that what you say?"

Mr. How—if they were called upon to go to the front—drafted. Also it is probable, I think, as I have heard, that the I. W. W., in case of war, will declare a general strike in certain lines to prevent, for example, the mining of coal. The Welsh miners did that same thing. I wanted to give an all-round view of the labor question.

How Warns Again.

The sequel of this testimony occurred on April 14 before the house committee on military affairs, which was considering the draft bill. Mr. How, who said he represented the "migratory, casual and itinerant working people of America," admitted that the I. W. W. was affiliated with the people he represented. In the course of his testimony he made this statement:

"Our people out west and in the southwest are not going to stand for this. I think they would be just the same as some of those negroes down south and some of the people in India when they were given a musket. God knows which way they will shoot. You understand, to be perfectly plain, that some of our friends would go after the Wall street kings, and so on, rather than some of the kings and kaisers across the water, if they had half a chance, because we are organizing the revolutionary material in this country."

The chairman (Mr. Dent)—Do you mean to say you are organizing a revolution in this country against the government of the United States?

Mr. How—The labor people today—and we are affiliated with all labor, with the Industrial Workers and with Socialist party and with the American Federation of Labor—feel that we are in a state of war."

A little while later Representative Kahn of California inquired: "Are the I. W. W. in your crowd?" "They are affiliated with us. We are affiliated with all labor, but we are independent," How replied.

CONLEY WANTS U.S. TO DRAFT CONVICTS

Warden Has First-Class Gunner, But Draft Bars Felons.

Of 730 convicts of the Montana state penitentiary 331 are of the draft age, but the government is barring all convicts in its army.

This was the information brought from Deer Lodge by Warden Frank Conley today on a visit to Butte. The warden, who has vainly sought to have Uncle Sam take some of the men, declares that there is plenty of good fighting stock inside the walls of the state prison.

"I've tried my best to convince the government that some of the best fighting stock in the country is going to waste by barring felons," declared the warden. "But the war department is firm. Only recently I tried to have a young fellow in the navy. He is an old time gunner for Uncle Sam and an expert. When I told the recruiting officer that the man was a convict, he replied there is nothing doing."

A TREATMENT FOR NERVES

Palm Beach Suits

Reduced Saturday at the Men's Store

And there's a lot of hot featherweight-suit weather ahead of us yet. There's nothing quite so altogether comfortable and at the same time neat as these cool, practical summer garments for men. The Palm Beach idea is still in its infancy. For years the tired business man was forced to swelter through the hot summer weather in serges, heavy, uncomfortable woollens, tweeds, etc., barely able to hold out until evening, when he could throw aside his coat and vest and cool off. Then came the light, comfortable and dressy Palm Beach suits, and at last the time has come when men as well as women can dress sensibly for the hot weather. Some of these suits are in the popular pinch-back design. All of them are new both in cut and fabric.

CONFEDERATE NAMES FOR FOUR OF TRAINING CAMPS

The War Department Obliterates All Sectional Considerations.

Washington, July 20.—Four of the 32 cantonments to be established for training troops will bear the names of former Confederate commanders. In choosing names the War college has obliterated all sectional consideration and has sought only to honor American military ability wherever it has been exhibited.

In the list of names announced Lee, Gordon, Beauregard and Wheeler take their places beside Grant, Sherman, Sheridan, Meade and more than a score of others who fought for the Union.

Brig. Gen. Joseph E. Kuhn stated that every attempt had been made to select names which would be popular in the vicinity of the camps.

"Effort has been made," he said, "to select names of Federal commanders for camps of divisions from northern states and of Confederate commanders for camps of divisions from southern states."

The names of the camps follow: Camp Devens, Ayer, Mass.; Camp Upton, Yaphank, L. I.; Camp Dix, Wrightstown, N. J.; Camp Meade, Annapolis Junction, Md.; Camp Lee, Petersburg, Va.; Camp Jackson, Columbia, S. WORK OR GO TO JAIL MANDATE OF COUNTY

Shirkers Will Be Rounded Up in Wisconsin by Local Defense Council.

Madison, Wis., July 20.—Langlade county's council of defense is setting an example for other counties in the state in its method of going after men who will not work. A bill posted in every township in the county says:

Work or go to jail. Farmers cry for help. Mills need men. Law defines loafers and idlers as vagrants. Sheriff and police instructed to arrest all idlers. Penalty three months at hard labor. The state public defense council is continuing its work of weeding out idlers. With 15,000 men leaving their work for the army, men to take their places are needed. Through a system of investigation

through county councils the state council has a list of men in every county who have not contributed to the support of their families or to the production of their county in past years. The names will be turned over to the proper officials in each county and the men will be told to get work or the penalty under the law will be imposed.
