to provide ships for American requirements. We refuse for a single moment to believe that the United States will fall to rise to the crisis. The cause needs every single ton of marines, carrying power that the United States can muster or launch later.

"No possible shipbuilding effort in this country alone can provide the huge additional tonnage demanded by coming American requirements. To get fairly ahead of the submarines, the United States must launch at least the same amount of tonnage as that mentioned by Lloyd George in Paris as Great Britain's output for next year, namely, four million tons, and that within the same time."

**EXECUTING DESERTERS BY THE WHOLESALE**

London, July 29.—The correspondent of the Times at Russian southwestern headquarters says General Korniloff is executing deserters by the wholesale.

**MOSCOW CONFERENCE.**

Petrograd, July 30.—The Bourne Gazette estimates that there will be 520 delegates at the Moscow conference. On account of their attitude towards Russia, neither the Finland, Ukraine nor Maximalist party has been invited to participate.

**NEWSPAPER COMMENT ON FATE OF BELGIUM**

Copenhagen, July 30.—The Berlin Lokal Anzeiger, commenting on the recent proceedings in the British house of commons, says:

"Mr. Asquith's inquiry as to whether we were ready to restore Belgium's full freedom can only be meant as a rhetorical question, for Mr. Asquith must know that, aside from a handful of dreamers, nobody thinks of handing Belgium again to England or France."

The Catholic organ, the Cologne Volks Zeitung, attempts to prove that the retention of Belgium and the annexation of regions in the east are indispensable to the protection of the German frontiers which Chancellor Michaelis specified.

The Tages Zeitung adopts this contention enthusiastically. Some of the radical newspapers, on the other hand, seek to give the impression that the government is so bound by the reichstag resolution that the entente allies have only to propose peace without annexations or indemnities to obtain it.

**LITTLE TO REPORT.**

London, July 30.—Except for small encounters between British and German patrols near Bullockourt and Achville, last night, there was nothing to report on the British front in France, the war office announced today.

**DARK DAYS FOR BERLIN.**  
 Copenhagen, July 30.—Dark days literally are coming for Berlin. An order has been issued restricting the lighting of stores, hotels, restaurants and cafes.

The order is due to the admittedly inevitable coal shortage and transportation difficulties of the coming winter. The newspapers complain nothing is being done to relieve the situation.

**GERMANS ADVANCE.**  
 Berlin, July 30 (via London).—German troops are advancing through the Suchawa valley in the Austrian province of Bukovina towards the town of Seletyn. It was announced officially today by the German general staff. The Germans also have pushed forward to the east of the upper Moldavia valley. The statement says the Russians are holding the heights to the east of the river Zbrocz on the Russian frontier, which has been crossed by the Teutons at several points.

**BIG GUNS BELLOW.**  
 Paris, July 30.—Last night there were violent artillery duels in the Aisne and Verdun regions of the French front, while German surprise attacks at various points were repulsed, the war office announced today.

**ON ITALIAN FRONT.**  
 Rome, July 30.—Minor fighting resulted in our favor on the Trentino front and we took some prisoners. On the Julian front there was considerable aerial activity. An enemy machine was brought down, the war department announced today.

**CANADIANS ADVANCE WITH SMALL LOSSES**

Canadian Headquarters in France (by Canadian Press, limited), July 30.—By a minor operation this morning the Canadian front was advanced into the region east of Reservoir hill in Du Moulin, the only suburb lying in the Reservoir hill and Lens. The losses of the Canadians were inconsiderable and the advance gives them possession of a stretch of difficult country extending about 1,000 yards north and south with a depth eastward from our former front of over 400 yards.

**RUSSIANS STILL RETREAT.**

Berlin, July 30 (via London).—The paralyzing defensive of the Germans, says an official statement issued today, is a result of their "breach of neutrality" result because they are alleged to have urged the closing of German missions in the English and German colonies.

**SET CONFERENCE WITH TEAMSTERS**

**Clerks Are Expected to Formulate Definite Demands Tonight.**

The Teamsters' Union committee will meet with a committee from the Silver Bow Employers association Wednesday night at 7:30 o'clock to discuss a new wage scale for the teamsters. The old scale is \$3.75 with 25 cents bonus per day when copper is above 15 cents. The teamsters want \$1 per day increase.

At tonight's meeting the Clerks' union is expected to formulate a definite demand for a wage increase. The merchants group of the Silver Bow Employers' association will meet tomorrow morning at 10 o'clock and a meeting with the Clerks' Union committee will follow soon after.

**"BIG" RUN OF SALMON TO SPAWNING GROUNDS**

**Traps of the Pacific American Fisheries Yield Great Catches.**

Bellingham, Wash., July 30.—Large numbers of sockeye salmon have entered the straits of Juan De Fuca on their way to the spawning grounds in the Frazer river, and local canners are agreed that the "big" run has fairly started. On account of the failure of the run in northwestern Alaska and the lateness of the season, some of the cannerymen last week entertained fears that the Puget sound pack might fall below the estimate for the season.

A total of 150,000 fish were brought to the cannery of the Pacific American fisheries last night and the traps of other companies yielded catches in equal ratio. The schools have not yet reached Point Roberts, but are expected to do so before tonight.

The "big" run occurs every four years and canners now believe that this season's yield will be an important contribution to the nation's food supply. Six per cent of the pack will be reserved for the government.

**HABITUAL INTemperance IS GROUND FOR DIVORCE**

Hessie Brush wants a divorce from Earl W. Brush on the ground of habitual intemperance. The couple were married in this city, Dec. 21, 1912, and there is one child. The plaintiff says that her husband has been indulging in the excessive use of intoxicating liquor for a period of over one year to such an extent that he is incapacitated for work. The complaint, which was filed by Attorney E. C. O'Flynn, states that the defendant is the owner of a property at 2011 Oregon avenue valued at \$5,000 which was acquired by the joint efforts of both the plaintiff and defendant and through plaintiff's work in conducting a chicken ranch. The defendant is a plumber by trade. The plaintiff asks for an attorney fee of \$500, \$100 alimony, \$25 for the care and custody of the child and that the defendant be enjoined from disposing or encumbering the property pending the determination of the suit.

**OPEN UP NEW ROAD SOUTH OF ROCKER**

The county commissioners are engaged in opening up a new road just south of Rocker to pass near Peelye station. There are 16 homesteaders who have asked for the road and the way but there are a few persons in the locality who are not homesteaders who object to allowing the county the right of way unless allowed some compensation. The work on the building of the road is proceeding today, but it may be stopped on account of those people who want compensation.

High mass was celebrated at St. Patrick's church and interment was made in the Catholic cemetery.

weeks after the revolution, that is about March 1, and that his sole purpose was to get into communication with the council of soldiers and workmen's delegates, as a fellow socialist, to understand their point of view.

**Unknown in France.**  
 At that time, M. Tereschenko was practically unknown in France, as he had held the office, not of foreign secretary, but of minister of finance, for only two weeks. Mikuloff was then foreign secretary and continued to conduct all the country's foreign affairs for the first six weeks of M. Thomas' visit. M. Tereschenko succeeded him about two weeks before M. Thomas left for France and the two men came to an absolute understanding, which was publicly announced by Tereschenko. As a result of their agreement, Russia asked for a conference on war aims, and both France and England accepted the invitation.

**COMMENT OF THE LONDON NEWSPAPERS**

London, July 29.—Statements by Dr. Michaelis, German imperial chancellor, and Count Czernin, the Austro-Hungarian foreign minister, which are regarded here as obviously made in collusion, dominate the news columns of the morning papers. They are generally treated editorially as a sign of weakness while the absence of reference to the future of Belgium and Serbia is considered to exclude all credence in the desire for peace by understanding.

Austro-Hungarian peace talk unless accompanied by an undertaking to evacuate and restore conquered territories is declared merely to be aimed at delaying America's preparations for war.

Herr Michaelis' accusations against France are dismissed by some commentators as best left for refutation by French allies but discussed by others, one of which says the story is too thin even for the Germans to believe.

The Daily News, however, maintains that although the chancellor's statements are valueless as evidence they cannot be left unanswered and insists that a statement of war aims to be formulated at the coming conference of the allies must constitute a disavowal of all thought of conquest for conquest's sake. The paper denounces Count Czernin's threat to drive Germany behind the Rhine, which, it says, has given Herr Michaelis a weapon which he was swift to use.

The Chronicle proclaims its belief that it would be unwise for the allies to deprive Germany of genuine German soil. It points out that while the chancellor talks of vast territorial modifications he mentions only the Saar valley and it suggests that France may be aiming to restore the old German frontier of Lorraine which would involve a little strip on the German side of from five to fifteen miles.

If France desired this for strategic reasons the Chronicle would not say she necessarily had the right, but "it would be an exceedingly small affair compared for an instant to Germany's seizure of two large provinces in 1871. It must be remembered, too, that after losing some millions in killed and wounded in a war forced upon her and wherein she has borne the brunt of battle for liberty throughout Europe, France has the right to make exceptional claims for her future security such as Germany had not in 1871 and no other state would have today."

**HOW THE GERMANS LOOK AT MATTER**

Berlin, Saturday, July 28 (via London, July 29).—Commenting on the addresses made in the house of commons July 28 by ex-Premier Asquith and A. Bonar Law, chancellor of the exchequer, in which they dealt with the peace resolution adopted by the German reichstag, the Vorwaerts says:

"Between the unqualified and sincere love of peace of James MacDonal, socialist and labor member of the house of commons, and the unconditional surrender of the conservative, Bonar Law, lies the somewhat qualified war will of the former liberal premier. The latter, it would seem, is ready for peace provided Germany restores the independence of Belgium. He also probably would be ready to discuss the question of Belgian indemnity. With a government, however, which is animated by the spirit of Bonar Law and Sir Edward Carson (the only peace possible would be one of abject surrender.)"

"George J. Wardle, chairman of the British labor party, refers to Asquith but talks like Bonar Law. He demands of the German people that it should force its government to accept a peace dictated by a foe who is animated by lust of conquest. Such force, however, the German nation must leave to the entente armies."

"If Chairman Wardle is of the opinion that he is noticing among the German majority socialists a spirit of repentance we would reply that the German workingman would only experience repentance if he left his country in the lurch in the face of a ten-fold foe. The workingmen have not done so and do not propose to do so."

The Vossische Zeitung says:

"The fact that Germany desired to arrive at an understanding with England regarding Belgian neutrality before the outbreak of the war and that England made such an understanding impossible would seem to be unknown to Chancellor Bonar Law and Mr. Asquith, who was a war premier and at

times seems to have forgotten this circumstance.

"The English government now disputes the power and authority of the German reichstag and its ability to give the nation's politics official direction. Only one answer is possible in the face of such an attempt. The representatives of the German people must demonstrate that they are in possession of this disputed authority and are able to exercise it. If the German people succeed in convincing continental Europe of this fact then the chief English war aim will have been disposed of."
