# Important Announcement

## To the Purchasers of Montana Dairy Co. Purity Products

WHILE the price of every known Commodity has been raised by leaps and bounds the price of Milk and Cream has remained the same.

NEVER in the history of the dairy business has conditions been so abnormal as at the present time. Labor has advanced and the prices of cans, bottles and everything that goes into the manufacture of dairy products fluctuates almost over night—never with a decrease in price—but always with an increase.

ON AUGUST THE 15th WE WILL BE FORCED TO SLIGHTLY ADVANCE THE PRICE OF OUR PURITY MILK.

THE slight increase is forced upon us by the continual rise in manufacturing costs, and the Montana Dairy Company cannot maintain the high standard of its "Purity Products" at the old prices.

WERE we so disposed we could not lower the standard of our purity products. We are no longer free agents, because public opinion has established a high standard for every thing bearing our name, and we dare not fall below the high estimate that has been formed of our products, for the people are quick to detect deterioration—especially is this true of Milk and Cream.

AND what is more important the public expect constant improvement of any product in which they repose complete confidence.

AND they would be slower to forgive a fault in any of the Montana Dairy Company's products than in the products they esteem less highly.

# The First Law Of the Montana Dairy Co.

is that purity and our high standard of quality shall be maintained in every product and cleanliness in every process of manufacture. Phone 355 for prompt delivery—branch exchange connecting all departments.

## PRESIDENT FIRM IN MATTER OF DISPUTED POINT

Insists That There Shall Be No Committee to Pass on Expenditures.

Washington, July 31.—After another day of fruitless dispute over the food bill provisions for a congressional war expenditures committee, conferees on the bill recessed until tomorrow afternoon, when another effort will be made for an agreement.

The senate and house conferees on the food control bill had only one problem to work out when they convened again today, namely, whether there shall be created a congressional committee on war expenditures.

As the situation now stands, the provision for a food board of three members instead of a single administrator will go out of the bill, and it seemed strongly probable that the war expenditures committee also will be eliminated. President Wilson has insisted that both provisions be stricken out.

Some of the conferees said it appeared virtually certain that the senate members would yield on the provision and reach a complete agreement on the bill for a report to the house tomorrow. The recess was taken to enable the conferees to confer with senate and house leaders and learn if the senate would reject the conference report should the provision be eliminated.

The conferees today struck out a provision authorizing the government to commandeer gas pipe lines for military or public defense purposes. The clause empowering the president to commandeer oil pipe lines, however, was retained. The new provision for a wheat price-fixing board of three members inserted, subject to reconsideration, was left unchanged.

## WILL INVITE ALL TO CONFERENCE

French and English Socialists Fix Date for International Meeting.

Paris, July 31.—At a meeting of the administrative committee of the French socialist party and the English socialist delegates called to fix a date for the international socialist and labor conference, regarding which the Russian council of soldiers and workmen's delegates took the initiative, it was decided that the conference should be held from the ninth to the sixteenth of September at Stockholm, or if that city proved inconvenient, at Christiania or any other city.

It was also decided that all organizations affiliated with the international should be invited to the conference and that as inasmuch as since the war there had been a split, the minority groups as well as the majority combinations should be invited, provided they had formed themselves into distinct groups.

The national sections will be required to bind themselves to make known solemnly before the conference is held how they intend to apply the general decisions of the conference.

The international entente allied socialist conference will be held in London Aug. 28 and 29. Russian delegates will be present, but they will not participate actively.
