CULMINATION OF CHURCH ROMANCE THIS MORNING

Rev. L. H. Young and Miss Junita Thomas Are Wed by Bishop Faber.

Dillon, Aug. 1.—At 7 o'clock this morning Bishop Faber of the Episcopal church officiated at the marriage of Miss Junita Thomas and Rev. L. H. Young. The ceremony was performed at the St. James Episcopal church and only the members of the bride's family were present. Following the ceremony a wedding breakfast was served at the home of Mr. and Mrs. C. P. Thomas. The couple left on the southbound morning train for Salt Lake, where they will enjoy their honeymoon. They will return to Dillon and prepare to move to Bozeman, where Rev. Young has received an appointment as rector of the Episcopal church.

EXAMINATIONS BEGIN FIRST OF NEXT WEEK

Dillon, Aug. 1.—Jay S. Baker, clerk and recorder, is now busy arranging the list of names of the young men who will be examined by the local board. The high school gymnasium will be used as the place for examining those drawn for the United States army. Mr. Baker expects to complete the work tomorrow and the local board will be prepared to start examinations next week. The local board is composed of Mr. Baker, Sheriff Wyman and Mr. H. H. Ryburn.

MANY WOULD ENLIST IN FORESTRY BATTALION

Dillon, Aug. 1.—John Somers, supervisor of the Beaverhead National forest, has been kept busy the past few days receiving applications from young men who desire to enlist in the engineer's corps of the forestry battalion. Up to noon yesterday 31 had applied to enlist in this corps.

PLEADS GUILTY TO CHARGE OF FORGERY

Dillon, Aug. 1.—Charley Hammer yesterday pleaded guilty to the charge of forgery and was sentenced by Judge Joseph C. Smith to serve from two and a half to five years in the state prison. Hammer was accused of stealing certificates of deposit from Foss Wilkison and forging Wilkison's name to the deposit and attempting to cash it.

TEA FOR D. A. R.

Dillon, Aug. 1.—The local chapter of the D. A. R. will give a benefit tea Friday afternoon at the home of Mrs. E. L. Finkbeiner. The diversion of the afternoon will be bridge and the proceeds derived from the tea will be used by the Woman's Patriotic association for the purchase of materials.

DILLON BRIEFS.

Dillon, Aug. 1.—William Dee was a Bute visitor in the city yesterday. Francis Bulger arrived in Dillon yesterday from Armstead and will make his home in the city. Mr. Bulger has for the past several years held a responsible position with the Gilmore and Pittsburg railroad at Armstead and resigned that position to accept a position with the First National bank at this place. Walter Lewis was in town from Armstead yesterday afternoon. L. W. Potter is spending the day in Dillon attending to matters of business. Richard Freeman was in the city yesterday from his ranch home on Medicine Lodge. Mr. B. Cantford was in town yesterday from his ranch home in the Big Lost basin. Mrs. F. Fenwick, the Helena capitalist and business woman, was attending to business interests in this section yesterday afternoon. Mrs. Sam T. Goza, who has been a guest at the L. O. Selway home the past week, departed yesterday afternoon for her home in Helena. Mrs. P. W. Armstrong was shopping in Dillon yesterday afternoon from her ranch home in the upper Medicine Lodge. Fred McClure spent yesterday at Chariton Andrus was a Leadore, Ida., visitor in the city yesterday afternoon. George Clemow was in town yesterday from Jackson to make preparations for the hay season. Mrs. Stark and baby arrived last night from Butte to spend a month with Mrs. Stark's mother, Mrs. Effie Stark. Marshall Field, cashier of the Security bank, departed last night for his home in Wisconsin, where he will visit his family and bring them back to Dillon. Mr. Field has leased the E. French residence in this city. Mrs. David Davies of Duluth, Minn., is visiting the city and is a guest of Mrs. water, Mrs. Jay B. Holtz. Mr. Beaulieu was in town yesterday from his home in Lima. He reports a very hot and dry week, which was well attended and which was enjoyed by residents of the southern end of the county.

RETURNS FROM AUTO TRIP TO NORTHERN PART OF THE STATE

Dillon, Aug. 1.—Dr. F. H. Binrose returned last night from Great Falls and other points in the northern part of the state, where he spent the past two weeks. He made the trip in his automobile and was accompanied by his family. Dr. Binrose reports that practically all of the crops in the northern part of the state have been burned up and that the Beaverhead valley looks fine in comparison with many other sections he visited.

LEMHI YOUTH ENLISTS IN AVIATION CORPS

Dillon, Aug. 1.—Mrs. Thomas Yearian and her only son, Russel Yearian, left yesterday for Spokane, Wash., where the young man will enlist in the aviation corps. The Yearians are wealthy people of Lemhi, Ida., and Russel was drafted in Lemhi county. Being a boy of unusual nerve and a mechanical genius he was accepted in the aviation corps.

STORK PAYS VISIT.

Dillon, Aug. 1.—The good old stork called at the home of Mr. and Mrs. Joseph T. Newnes last Saturday morning and left a bouncing baby boy. The young son weighed eight and a half pounds.

RAILROADS UNDER A HEAVY STRAIN

War Board Addresses a Plea to State Public Service Commission.

The Post's Washington Bureau. Washington, D. C., Aug. 1.—The railroads' war board has addressed a plea to the public service commission, or railroad commission, of Montana and all the other states and to all state, county and municipal authorities urging co-operation with the railroads in a suspension during the period of the war of "all efforts not designed to help directly in winning the war." The specific suggestions which the railroads' war board makes to all such authorities are as follows: "The present emergency has imposed upon the railroads a very unusual strain in transporting men, food, coal, munitions and materials in augmented quantity. This burden, while cheerfully undertaken, requires every ounce of energy, every unit of rolling stock, every dollar of capital, every bit of supplies and coal which the railroads can command. "It is the opinion of this committee that all efforts not designed to help directly in winning the war should be suspended during the period of the war. Therefore this committee earnestly recommends that during the war the railroads be required by the public authorities to make improvements and carry out projects involving the expenditure of money and labor only when they are absolutely essential for war purposes or public safety. The prevailing high interest rate on money, the difficulty of raising money in competition with the tax-free issues of the government, the expensive cost of supplies and labor, the delay in obtaining material, the possible blockade of traffic and the diversion of labor, all contribute to make non-essential construction undesirable during the war. "The committee considers that the erection of new stations and elimination of grade crossings are among the non-essential improvements which should be deferred at this time. We respectfully suggest that the basis for consideration of new projects at this time should be the increase in the capacity of the carriers for national service."

HUH!
 "Why is it that I do not see you at the club very often?" asked Brown. "I see Smith there every night."
 "No wonder," replied Jones. "Smith is married and I'm not."

CHEMISTRY PROVES GIANT WAR FACTOR

Science Plays an Immense Part in Wonderful World Drama.

Missoula, Aug. 1.—The study of chemistry has become an important part of the curriculum of the university man and woman. The world war has emphasized the importance of this science; one war reviewer has characterized the present conflict as a struggle between the industrial-chemical and the chemical-engineering genius of the central powers and that of the rest of the world. That there is a general appreciation of the part which the chemist is playing in this wonderful world drama is evidenced by the number of inquiries which come to the State university and the State College of Agriculture and Mechanic Arts regarding the opportunity for the study of this science at these institutions. Prospective students inquire specifically in many instances regarding the equipment and the facilities for pursuing the study of chemistry; these inquiries are more numerous than ever this season. It is fortunate for the Montana student that the department of chemistry at each of the institutions mentioned is strong—strong in the personnel of the faculty and strong in its physical equipment. There is splendid opportunity for the Montana student to gain proficiency in this science in a Montana institution. Interesting, too, is the fact that the complete personal and physical equipment of the chemistry departments of the University of Montana has been placed at the disposal of the federal government in its research work connected with the war. Already there have been some war problems worked out in Montana laboratories. Prof. W. M. Cobleigh, head of the department of chemistry at the State college in Bozeman, said recently: "Many of our students have been impressed with the recent great expansion in the chemical industries and with the fact that this expansion gives opportunity for a career in chemistry. University training in chemistry is necessary for the man who is to be a factor in the development of the technical processes of the production of the metals and of the compounds which are essential to metal production and other industrial production. There has never been a time when the opportunity in industrial chemistry was so great as it is today." The work of the chemist has become recognized as essential in practically every manufacturing plant in the country. He tests raw materials, he checks the results of the successive steps of the manufacturing process, he determines the worth of the finished product—and all the time he is conducting experiments for the shortening of the process or for the improvement of the product. In the industrial field the chemist has come into his own. He is in demand and the universities may supply him for the field where he is so much needed. The field of agricultural chemistry offers also an inviting opportunity for the students of science. Many of the problems which are involved in the intensive production of grain and vegetables to feed the armies in Europe must be solved by the chemist. He is an organ in the farming world as he is in manufacturing. In the preparation of food and in sanitation the chemist has important work to perform; there are many problems which are yet to be worked out—problems which affect alike the home and the camp. For the preparation of the student to enter the field of chemical research or to attack the problems which have been mentioned, the laboratories of the University of Montana offer specially attractive opportunity. There is no occasion for a student of chemistry to leave his state for the opportunity to pursue his work of study. There are at home as fine advantages and as excellent opportunity as can be found anywhere. If, as has been predicted, the present war is to be settled by the chemist, the university student who follows the study of the science of chemistry will contribute, if he does his work well, as greatly to the victory of democracy as will the man in the field of conflict. And the University of Montana offers in its several branches, the fullest opportunity for this study.

PIONEER MINER DIES.

Helena, Aug. 1.—James Hawke, 80, pioneer mining man, widely known in this state, died here yesterday. He came to Helena 50 years ago via the Missouri river.

WILL EMPLOY WOMEN.

Helena, Aug. 1.—Inability to get men caused local postal authorities to announce yesterday that women would be employed.

AT WAR STRENGTH.

Helena, Aug. 1.—The Second Montana infantry yesterday recruited to war strength and ran 62 men over, with hundreds to hear from. It is believed the surplus will be retained.

MONTANA ITEMS OF GENERAL INTEREST

Governor Stewart Will Attend Meeting of Western Executives.

Helena, Aug. 1.—Gov. Sam V. Stewart has accepted an invitation from Governor Withycombe of Oregon to attend a meeting of governors of northwestern states, to be held in Portland Aug. 6, to take up internal problems arising during the war. It is understood that how to deal with the T. W. W.'s will be taken up at this meeting.

TAKE PLACE OF TROOPS.

Helena, Aug. 1.—Deputy sheriffs were sworn in here to replace troops on guard at bridges and tunnels in this county. The troops are called to mobilization. It is presumed deputies will take their stations in all counties in the state.

MEET AT BILLINGS.

Billings, Aug. 1.—Montana coal operators are in session here to consider the question of meeting the miners in conference with respect to the demand of the latter for an increased wage scale. Wyoming operators are also attending.

FARM LABOR SCARCE.

Minneapolis, Minn., Aug. 1.—The demand for harvest hands is steadily increasing with the opening of the harvest season, and if the demand continues to increase and the supply stays where it is there is liable to be serious shortage of farm labor in the future, according to Don D. Lescohier, in charge of the state public safety commission's labor bill in Minneapolis. There is a heavy demand for cooks ranging from \$3 to as high as \$4 a day in some cases, he said, with work for five months. During the past 22 days the bureau has sent out 715 men to farm jobs.

The federal labor offices in Minneapolis yesterday received an appeal from Arzyle, Minn., for 200 men to help harvest the wheat crop in the Red River valley next week. The bureau also received a request for farm hands for South Dakota from Charles McCaffree, commissioner of immigration at Pierre. Wages are \$3 a day and board.

RESTORE MONTANA LANDS TO ENTRY

Large Area is Designated by Secretary Lane Through-out the State.

The Post's Washington Bureau. Washington, D. C., Aug. 1.—Secretary of the Interior Lane announces that during the month of June nearly 600,000 acres of lands included in withdrawals prior to that time were classified and restored to unrestricted entry. The restorations were chiefly in Montana and California. In the former state a little less than 445,000 acres were released from coal reserves as the result of classifications, and in the latter state a little more than 104,000 acres were eliminated from oil withdrawals because the investigations conducted by geologists of the geological survey indicated that these lands contain no oil deposits. During the same month little less than 7,000 acres, chiefly in Montana, were released from water-power withdrawals and about 3,000 acres in Wyoming from public water reserves. In each of the latter cases restorations were effected because a study of the situation indicated that the lands have no value, in the one case for water power and in the other case in preserving the rights of the public to the use of range lands still belonging to the United States.

The secretary announces that during June approximately \$12,200 acres were designated under the enlarged homestead act through which the entryman may acquire a homestead of

250 acres. If the settler has already filed on 140 acres under the original homestead law, he may, under this act, acquire an additional 100 acres. The lands thus made available for these larger homesteads have all been classified by the geological survey as non-irrigable, but large areas of them have already been patented or entered or at least applied for. The interior department, in handling applications or petitions for the opening of specific tracts of land to entry under the enlarged homestead act, is required by law to give the applicant the first right to file on the land for which he has applied, if it is found on examination to be of the proper character. To determine what particular section, township, or range in any land district is open to entry by citizens who have not already applied, necessitates an examination of the records at the local land office.

In Idaho, more than 184,000 acres were designated in sixteen counties throughout the state. In this state entries under the enlarged homestead act are made under the residence or non-residence provisions of the act. All of the lands affected by the present order were designated and are subject to entry under the provision which requires residence upon the land. Though the greater part of this land is already entered or patented land, it is believed that a portion of the following areas is available for entry by new settlers: Fremont county, 56,500 acres; Boise county, 24,300 acres; Owyhee county, 23,000 acres; Elmore county, 19,200 acres; Adams county, 7,600 acres.

In Montana, approximately 65,000 acres were designated in 26 counties throughout the state. Much of the land, however, has already been filed upon.

WORK OF CHECKING THE MASTER LIST COMPLETE

Probable That Examinations Will Begin the First of Next Week.

Deer Lodge, Aug. 1.—The office of the county clerk and recorder, which is also the office of the local exemption board, is the busiest place in town these days. The checking of the numbers on the master lists recently received from Washington has been completed and today the official list giving the order of liability for military service of the 813 men who registered in Powell county was posted in the county clerk's office.

According to the rules and regulations all registered ones are supposed to inform themselves of their order on the list, though for the convenience of the registrants notices will be sent out, with instructions for appearance before the board for examination. The posting of the notices is deemed sufficient notice, however, and it is stated that excuses that the mailed notice was not received will not be accepted. The number of physicians who will attend to giving the physical examinations has not been determined as yet, but it is probable that the first examinations will be given about Monday.

NEWLY WEDS WILL MAKE HOME IN DEER LODGE

Deer Lodge, Aug. 1.—Mr. and Mrs. Walter F. Marshall, who were recently married in Hamilton, arrived in Deer Lodge the first of the week at the conclusion of their honeymoon and will make their home here, moving into the L. W. Jordan home on Fifth street within a short time. Mr. Marshall is employed in the electrical department of the Milwaukee shops and Mrs. Marshall, formerly Miss Arabelle Robertson, is already acquainted here, where she has made several previous visits.

MAKES FINAL PROOF.

Deer Lodge, Aug. 1.—Susan Davis of Jens made final homestead proof yesterday before Clerk of the District Court Robert Midthing. Her witnesses were Joel Culver and Vester Lemons, also of Jens.

COUNTY ATTORNEY GIVES WARNING TO SALOON MEN

Liable to Damage in Certain Cases—Must Not Serve Drinks to Some.

Deer Lodge, Aug. 1.—The county attorney's office yesterday served notice on each of the saloons, notifying them of their liability for selling or giving intoxicating liquors to persons who are in the habit of getting drunk or intoxicated, or of drinking intoxicating liquors to excess. The notice states that anyone doing so is liable in damages to any person who is injured thereby in money, property or means of support, and that he is, in addition thereto, guilty of a misdemeanor punishable by a fine of not less than \$50. In the case of a second conviction, in addition to this penalty, a liquor dealer can be prohibited from the conduct of his business for a period of three months.

DEER LODGE BRIEFS.

Deer Lodge, Aug. 1.—Mrs. W. B. Warner returned Monday from a week's visit in Livingston, bringing back her niece, Miss Helen Houts, who will make Deer Lodge a visit. William J. Hill of Elliston transacted business in the city Monday. H. B. Grant and Attorney T. F. Shea and S. P. Wilson motored to Grand Monday evening to attend to business matters.

Mrs. A. J. Hachen left this week for Mason City, Ia., for a month's visit with her mother.

David Marsh expects to leave today for Missoula to report for military duty in the medical department at Fort Missoula.

Mrs. J. A. Robinson has returned from a month's visit with her daughter at Kissatox, Wyo.

Mrs. Mary Steinberger of Tacoma is the guest of her son, John Steinberger, at the latter's home on Milwaukee avenue.

Mrs. J. C. Shabitz returned the first of the week from a visit to the camp of Col. and Mrs. Thomas McTague at the foot of Powell.

Kenneth Daniels returned to New York City the early part of the week after a two weeks' visit at the home of his parents, Mr. and Mrs. C. E. Daniels.

Mrs. J. E. Bradley of Butte, who is on her way to California, has been the guest of Mrs. A. H. Mitchell at "Sandy-side."
