Mrs. William Cutts is the president of the local organization and is working in co-operation with Mrs. A. S. Christie, who represents the state association. into the spirit of the campaign most enthusiastically," Mrs. A. S. Christie reported.

Some weeks ago the movement was taken up by the representatives of the woman's clubs in the city to encourage all housewives to eliminate waste and to conserve the national food supply.

It is likely that the city will be divided into districts with a chairman for each district, so that the business will be attended to in a more direct and personal manner.

WILL CO-OPERATE WITH RED CROSS IN FRANCE

That the Woman's Patriotic association will aid the Red Cross in its work but retain a separate identity at the same time, was the word received in Butte last night from the New York headquarters of the Woman's Patriotic association. The Woman's Patriotic association is a branch of the American Fund for French Wounded. While the association is ready to aid the Red Cross in every way, it is thought that it should be held as an auxiliary to that body.

SHIVERS ARRIVE FOLLOWING HEAT

Quick Change of Temperature Noted Last Evening and This Morning.

Butte had a shivering spell last night after an unexampled period of hot weather. There was a hoar frost which, however, did no damage to fruits, vegetables or flowers. The cold spell was predicted at 6:30 last evening. At that time the thermometer had dropped to 51 at Great Falls, 44 at Helena, 56 at Boulder and 56 at Butte. During the night the local thermometer dropped still further. There was a north wind which accentuated the chilly atmosphere of the night. Where there was much dampness in the ground, there was more evidence of frost than in other places which were dry.

Summer-Spoiled Skin Removed by Absorption

As the summer exposure usually leaves an undesirable surface of tan, freckles, or roughness, often freckles, too, it is a good thing to do is to remove it. There is nothing better for this than actual absorption of wax. The thin layer of surface wax actually absorbed is gently, gradually removed. There is no inconvenience, no detention of the face at bedtime, and take it off with the morning wash with water. If you use one ounce of mercolized wax, you can expect marked improvement in the complexion. It is a marvel of spotless purity and will let those summer wrinkles worry you by bathing the face in a solution of powdered saundite, 1 oz. dissolved in 1 qt. of water. Used daily a white this will be found wonderful.
