R. R. CAR SHORTAGE NOW MUCH REDUCED

Excess of Unfilled Car Requisitions One-fourth That of May 1.

The excess of unfilled car requisitions, or what is commonly termed car shortage, has been reduced considerably during the past three months on the railroads of the country, according to figures just published by the American Railway Association in a bulletin on unfilled car requisitions received here today.

The excess of unfilled car requisitions on May 1 was 148,627; on June 1, 106,649; on June 30, 77,682; and on Aug. 1, 33,776. "This result has been accomplished," the report reads, "at a time when the railroads are supplying from 15 to 20 per cent more freight service with the same number of cars than was being given this time last year, for the railroads handled in July a tremendous increase in both government and commercial traffic."

WANTS TO JOIN MONTANA FORCE

But Chicago Boy Cannot Get Release From Exemption Board.

John Rada, 21 years old, a stenographer employed by the Lauzier and Wolcott company, doesn't know where he stands regarding Uncle Sam's draft army. He is registered in Chicago but has been unable to get permission to join the Montana troops from the registration board there.

In an effort to find out what may be done, he has appealed to United States District Attorney Wheeler, but as yet this official has found no solution of the problem.

Rada is a Chicago boy and registered in that city on June 5. Soon after he lost his job. Being in danger of the draft he was unable to secure another position.

"Many men told me they did not care for men likely to be drafted," said Rada. "In the Santa Fe railroad offices, where I applied for work, I found a large poster reading: 'Your country needs you worse than we do.'"

As a result, Rada drifted west and found employment in Butte. When his serial number, 1678, was called he wrote to his registration board in Chicago asking for permission to be examined here. He received the following reply from D. M. Hansen, chairman of board for Division No. 78, Chicago:

"Your recent letter received. We regret that we cannot give you permission to join the troops of Montana. Kindly apply to the United States authorities for transportation to Chicago. You must report at our headquarters on Sept. 4, 1917."

Rada followed instructions by applying to the federal officials here, including United States Attorney Wheeler. He was told that there are no federal funds for the purpose. Now Rada fears he will be drafted without any examination.

"At any rate I won't be in Chicago," he said today.
