Only twin sister to caution—is bound to throttle people into more habits—even people who never before practiced saving. The press and pulpit, the warning of public speakers and the appeal men—all pointing to the fact that to be nationally strong we must annually thrifty—can result in only one thing—greater attention to saving on part of the people. After all, it seems to be the very essence of the future needs are automatically cared for with every-day savings at Luteys.

**LAFAYETTE DAY OBSERVED  
AT INDEPENDENCE HALL**  
 Philadelphia, Sept. 6.—Lafayette day drew thousands of patriotic citizens to Independence hall today to honor the memory of the great Frenchman who came to the aid of the United States in the early days of the country's struggle for existence. While France was observing the 160th birthday anniversary of Lafayette, patriotic exercises were being held here in the Shrine of Liberty, where Lafayette spent considerable of his time in the first great struggle for democracy. A feature of the observance was the raising at Independence hall of the new Washington-Lafayette flag, made in the little Belay Ross house where the first American flag was created. A similar flag was to be raised over the city hall of Paris about the same time.

**DEMONSTRATION FOR DRAFTED MEN**

City and County Will Honor Boys to Leave on Saturday.

(Continued from Page One.)

For its men in one of the local theaters tomorrow night. It is understood that the Rialto theater has been offered to the county drafted men and that one other theater, with its full show for the evening and many special features, has been offered. At any rate, the county drafted men will leave on Saturday morning with hundreds of their friends and relatives present for the entertainment.

**Council Discusses Plans.**  
 The plans for the demonstration for the city's drafted men were discussed at the council meeting last night. Mayor Maloney is leading in the work of arranging for the demonstration, and asks that all the city's drafted men be at the courthouse at 6 o'clock Saturday evening, ready to march to the depot. The Civil War veterans will lead the parade, the members of the G. A. R. having asked permission to do this final honor to the young men who take their places in upholding the glory of American arms.

**The Proclamation.**  
 The mayor's proclamation follows: "To the Citizens of Butte, Greeting: "The all of us the meaning of our country's entrance into the great war to fight the battle of democracy against autocracy gone mad is daily coming nearer. Saturday of this week there will depart from our midst the flower of our young manhood, ready and eager to fit themselves to wield the sword in your defense and mine and to uphold the liberty and the institutions without which our homes would be desolate indeed.

"In the light of these facts I hold it entirely right and proper that our city government, acting through the city council and the mayor, should take appropriate action to show some small measure of our appreciation for the sacrifices which our chosen sons are prepared to make.

"Therefore, by virtue of the power vested in me as mayor of the city of Butte, I earnestly request and urge upon all citizens that you be a part of the great patriotic parade and demonstration to take place in this city commencing at 6 o'clock on the evening of Saturday, Sept. 8. And I especially entreat that all of you assemble at the county courthouse promptly at the hour named and escort our selected soldiers to the train which will carry them to the scene of their military training.

"It seems to me that we should all join to make this a day long to be cherished in the hearts of our young soldiers and the families and friends from whom they are parting. I appeal to the merchants to close their stores promptly at 5 o'clock on the afternoon of Saturday that their employees all may have an opportunity to participate in this patriotic occasion. I am sure our loyal business men will be glad to make this sacrifice for their country.

"And once more let me urge each and all of you to be at the courthouse at 6 o'clock Saturday evening to give Butte's active defenders of liberty such a sendoff as will strengthen their hearts and hands in distant Flanders.

"Given under my hand and seal this sixth day of September, in the year of our Lord Nineteen Hundred and Seventeen.

**WILLIAM H. MALONEY, Mayor.**

The train upon which Butte's men will leave will arrive at 7:25, leaving 10 minutes later. This will give more than one hour for the parade and for the leave-taking at the depot.

**Report Tomorrow.**  
 At 4 o'clock tomorrow afternoon the drafted men of the city and county must report to their boards for final word that will make United States soldiers of them. They will receive their final instructions and will report for retreat roll call at 5:30. They will report back to their boards again on Saturday morning.

Only one change was made today in the personnel of men who will leave Saturday for American Lake. William H. Bule, one of the county's drafted men, has enlisted in the Canadian army. His place in the Canadian contingent will be filled by John McInnis.

The following men were certified to the county board from the district board today as exempted from military service on industrial grounds: John J. Rose, Edward M. Sullivan, Sinfonano Aguetz, Percy F. Minister, Fred J. Gibney and Gilbert Whitehead. Four of the six men are employed in the Dupont plant at Ramsey.

**Examine 400 More.**  
 Four hundred men were called by the city this morning for physical examination. Out of the first 200 called, practically all of them reported. Rejections are fewer than under the first call, it is said. The city will examine 800 more men tomorrow and Saturday.

The county exemption board will make its second call the first part of next week, the men to be examined on Wednesday and Thursday of next week. All order numbers up to 1,000 will be called by the county board next week. Order numbers up to 732 were called in the first summons.

An important ruling was received by the local boards today. It is announced that men examined and passed in Butte, but who are now working in other parts of the country, may be furnished transportation to American Lake from the place where they are now residing, providing the board investigates their cases and finds them suitable for such ruling.

**TUFF!**  
 To disappointment man is prone. His lot he often must bemoan; He goes and buys a cantaloupe, And it tastes just like laundry soap.

**I. W. W. SUSPECTS RUNNING TO COVER**

Many Leave Butte—Leaders Well Supplied With Money.

(Continued from Page One.)

upon the persons of I. W. W. who were found in the hall at the time of the raid. It is known that James Rowan, Spokane I. W. W. leader who was arrested some time ago, had \$1,300 on his person when searched by police. It is also known that I. W. W. found in Finlander hall yesterday were searched by the authorities, the result of the search being withheld.

**Have Plenty of Money.**  
 Local police officials have been investigating for some time the fact that many local I. W. W., although without work for months, are able to show money at any time and are able to keep their boots and room rent paid up. Many of these men, now possessing money without the formality of working for it, came to Butte less than three months ago without a cent, riding in on freight trains. In many parts of the country in the past few weeks it has been openly charged that I. W. W. are being financed with German gold, most of which is shipped across the Mexican border. Scores of I. W. W. now in Butte came from Arizona and New Mexico.

There was no opposition to the federal officers and city police officials yesterday afternoon during the raiding. In fact, United States Marshal Asbridge said he was given every possible aid in searching the Crowley tailor shop, the rooms of Mrs. Frank Curran and the residence and store of Abe Edelstat. Crowley went to the trouble to break open with a hammer two safe boxes to which there was no key, he said today. But very few articles were taken from these three places.

**Sent Out Warning.**  
 The I. W. W. leaders in Finlander hall, Butte, came near receiving information of the raid beforehand. Deputies sent to Missoula to raid the headquarters of I. W. W. there got the time of the raid wrong and started searching the I. W. W. at a quarter of an hour before noon, 75 minutes ahead of time.

E. W. Byrn started into the Finlander hall here on his raid, a messenger boy ran into the building with a telegram for the local I. W. W. office. Byrn seized the telegram before the I. W. W. could get it and opened it. It was a message from Missoula warning Butte I. W. W. that raiding had started in that city.

The raiding throughout the United States was the most systematic ever conducted by the department of justice on so large a scale. Even local department of justice men knew nothing of their connection with the raiding until 36 hours before it was to start. Deputy United States marshals and city detectives who aided them were not notified of the nature of the affair until they were on their way to Finlander hall. Some of the city deputies did know what was happening until told by crowley that selected. They merely were given instructions to watch a certain place and to allow no person to leave or enter the building.

**Put Under Guard.**  
 Interest taken by certain I. W. W. in the storing of the seized literature at the federal building led the federal officials last night to place a deputy sheriff on guard in the building with orders that no one should enter after the offices were closed for the afternoon.

Asked concerning the nature of certain evidence seized yesterday, Special Agent Byrn this morning was unwilling to talk.

"It will take us some time to go over the mass of stuff that we have seized," he said. "It would be impossible for us to tell the nature of the stuff that we have, even if we were at liberty to do so. Whatever incriminating evidence may be found in any of the literature, providing any such material is found, will be made public only when a court case results from it."

**Shannon is "Missing"**  
 Joe Shannon, a local labor agitator who has been prominent in the Metal Mine Workers' union, left the city last night, it was reported. Whether Shannon's departure is to be laid to the fact that three rifles and a box full of revolvers were found in his room during the raids, or whether he was called to Spokane for a conference of I. W. W. or other labor agitators, was not known today. Metal Mine Workers' union men deny that Shannon had left Butte, but he could not be located today.

It is reported that Arthur Smith, I. W. W. leader at Missoula and head of the rebel order in the northwest since the arrest of Rowan at Spokane, left that federal officials when he learned that federal officials were raiding his rooms. With him he took the combination to a safe found in I. W. W. headquarters. The safe will be opened by experts this morning and the contents forwarded to federal officials in Butte.

In the I. W. W. headquarters at Missoula were found the blankets of a place. Many of the I. W. W. called for and were given their blankets by the raiders. These I. W. W. immediately left Missoula, crowding every freight train and in not a few instances buying tickets for points east and west. The federal officials were unable to find Smith, who, it is said, was to be placed under arrest if caught.

Eight places where Industrial Workers of the World meet and congregated were searched by federal authorities. A wagonload of records and I. W. W. literature was seized and a small-sized arsenal, consisting of eight revolvers and a number of high-power rifles found in the headquarters of Electrical Workers' union No. 65 in

the Illinois block, was confiscated. In addition W. A. Carte, a member of the Electrical Workers' union, was arrested after a revolver was found in his possession. He was taken to the city jail and charged with carrying concealed weapons. He was later released on bonds.

During the raid a battalion of the Second Montana infantry was drilling on Broadway in front of the provisional barracks maintained in the Broadway garage. Officers of the battalion, however, declared that they had no orders to take part in the raids.

**Places Raided.**  
 The following places were raided: Headquarters of Industrial Workers of the World in the rear part of Finlander hall, 318 North Wyoming street. Wagonload of I. W. W. records and literature seized.

Headquarters Metal Mine Workers' union in front part of Finlander hall. Records are gone through and 100 members of residence at 322 1/2 North Main street. Personal history of roomers and frequenters of the place was inquired into and search was made for incriminating documents.

Rooming house at 320 East Granite, where officials were informed executive meetings of anarchists and I. W. W. officials were held.

Tom Campbell, leader of the Metal Mine Workers' union, and Joe Shannon, a prominent I. W. W., were caught in Finlander hall and were held prisoners with the other 100 men during the raid, but all were released.

**The Membership Book.**  
 Agent Byrn directed his efforts to the I. W. W. whose headquarters are in the rear of the building. He and his fellow officials were sarcastically received by Peter Peterja, secretary of the I. W. W. When ordered to produce the membership rolls, Peterja took a large book from his desk. Agent Byrn opened it to find no names, but hundreds of numbers.

"What's the meaning of this?" asked Byrn. "I want to see the membership rolls." "You have them in your hands now," replied Peterja. "You see, the I. W. W. is next to you fellows. We don't let you get much when you come around to raid us. If you want to know who the men are whose names are on the book you'll have to go out on the highways and byways and ask them personally."

Agent Byrn was insistent, but the I. W. W. secretary refused to tell any

names. The book, together with copies of Solidarity, the I. W. W. official publication; Tyomias, a Finnish newspaper published at Superior, Wis., and Industrialist, an I. W. W. publication of Duluth, Minn., were seized, as were also song books and confidential letters. They were placed in a wagon and taken to Agent Byrn's office in the federal building.

**BUT FIRST STEP IN THE PLAN TO STOP SEDITION**  
 (Continued from Page One.)

been collecting a tremendous amount of evidence which can be utilized in prosecutions in connection with yesterday's seizure of I. W. W. papers and other prosecutions contemplated in the near future.

Telegraphic reports from all sections of the country were received by the department of justice telling the results of yesterday's raids. A great mass of documentary matter was obtained and all of this will be gone over carefully by the local United States attorneys.

To curb the activities of citizens and others suspected of seditious utterances and activities, the department has increased its force of field workers and the forces at the disposal of federal marshals and attorneys in the chief cities.

**Held for Examination.**  
 In some cities I. W. W. officials were taken into custody for examination in court. Federal agents took charge of the national headquarters of the socialist party in Chicago and served on its counsel a warrant requiring the surrender of its documents. The wholesale raids were carried out in accordance with orders of William C. Fitts, assistant to Attorney General Gregory.

Chief Justice Covington of the District of Columbia supreme court was preparing today to make a report to President Wilson on his investigation of the I. W. W. situation in the west. He made a close personal study of the recent outbreaks which have been characterized by federal agents as an effort to embarrass the government in its conduct of the war.
