The "NYMCO" Auto and Sports Hat

Is here—the newest thing in autumn millinery. See the windows. The fiber in this hat is "Cravenette" finished, which, while NOT making the hat waterproof, helps to preserve its shape and appearance against rain and dust. Test these hats by pouring a little water on top of them—the water remains in drops and can be shaken off.

Similar fabric—NOT "Cravenette" finished will absorb the water instantly. These hats are especially suited to Montana's fall climate and will be very popular in Butte. Price. \$2.50 to \$5.00
 Handsome showing of children's hats are now ready for inspection.
