EQUIPMENT IS COMING FAST AT CAMP LEWIS

Clothing for the Drafted Men is Received in Large Quantities.

Tacoma, Wash., Sept. 15.—Clothing is arriving daily for the men in the national army to be stationed in Camp Lewis, Tacoma. Equipment which will be ready Sept. 19 includes 15,000 olive drab breeches and pants, 12,892 overcoats, 15,000 hats, 13,000 pairs of shoes, 26,000 shirts and 29,000 pairs of socks.

Commission as captain has been received by Quartermaster Sergeant John O. Roth, who will be assistant to Captain Como, camp quartermaster. He has had 21 years' service in the army.

Thirty-five national army men are due from Alaska soon. Orders were received by the Hurley-Mason company yesterday to build seven additional officers' barracks, 20x112 feet each, and for the construction of a heating plant for the administrative building.

These are in addition to the 18 regimental hospital buildings and the increase of the number of regimental exchanges to 18. New work ordered this week includes an administrative building and bungalows for Major-General Greene and staff.

Captain Welty Named Censor

The official appointment of a censor on all news of Camp Lewis and instruction that permission for absence from camp on pass is to be given only sparingly to both officers and men, due to the necessity for intensive training, were contained in general orders received by all regimental officers of the camp. Capt. Maurice D. Welty, aide-de-camp to Maj. Gen. H. A. Greene, has been named as military censor. The orders issued call for the closest application of all officers to the work in hand of shaping the 91st division for service in France at the earliest possible time, and were being interpreted everywhere as a call to put forth every energy.

A section of the general orders calls the attention of officers to the powers of the president to discharge from office any officer for any cause which is deemed may be in the interests of public service. By the same act of congress authorizing such discharge it is pointed out a division commander may appoint a board of from three to five officers to inquire into and report on the qualifications, conduct and efficiency of any officer within his command. The findings of the board, if adverse and approved by the president, constitute a discharge of the officer examined. In this connection instructions are given that all officers be observed by their superiors and unfitness be reported.

Hours Long and Hard.

The hours of work at the camp will be long and hard, the orders warn all officers. While it is realized a certain amount of relaxation is necessary, it is stated, requests for permission to leave camp from both officers and men must be reduced to a minimum and not asked as a right but as a privilege.

In accordance with the new orders, the drafted soldiers in camp were being given full hours of setting-up exercises and drill. Platoons were being marched to the base hospital for final physical examinations as fast as army physicians under the charge of Capt. H. B. Reynolds could examine them. It will be some days before the 2,400 draft men can be examined.

A check of the arrivals of the first 5 per cent quota of draft soldiers was being made Thursday by officers of the quartermaster's office working under Capt. F. J. Rosenberg, assistant camp adjutant, to determine whether a number of men who are apparently missing from their respective county quotas are in reality delinquents, as may be the case. Officers believe that at least some of these missing men will be found as reporting with other than their own county quotas, due to clerical errors in the confusion of arriving. As proof that this is a strong possibility, it was pointed out that the fear that was aroused by the apparent non-arrival of an entire quota of 17 men from Montana proved to be unfounded, as they had been erroneously credited in a body to another county than their own.

Rejections Above Average.

The number of rejections for physical reasons among the first squads of men examined has been above the percentage expected by army officers, considering that all the drafted men had already been examined at their home board offices. The percentage of the first 65 examined who failed to pass was nearly five, three being found unfit, one on account of a nervous disorder, another on account of trachoma, a dangerous eye disease, and a third on account of a stiff elbow. Perhaps 100 men of the first quota will be rejected, it is believed by examining officers.

Where minor defects can be cured by operation men will be given an opportunity to enlist and then operated upon by army physicians free of charge, according to Captain Reynolds. There will be no compulsion as to the operation, however.

IS STRIVING TO PREVENT TIIEUP

Government Seeks Agreement With Heads of the Ship-building Unions.

Washington, Sept. 15.—The shipping board is depending on the national heads of the Metal Trades union to control shipping strikes at Portland, Seattle and elsewhere on the Pacific coast pending investigation by the shipbuilding labor adjustment board.

Under an informal agreement made with the union heads by the shipping board and the navy department, no strikes were to be called until after the adjustment board had tried to bring about a settlement. Members of the shipping board are of the opinion that local unions on the Pacific coast so far have not been fully acquainted with the terms of the agreement and that strikes generally will not be called when union leaders have made the situation clear.

At San Francisco, where 24,000 men have threatened to strike Monday, the situation is complicated because many of the workers are not shipyard employes and the agreement does not include adjustment of their differences. These men, however, threaten to carry out with them many shipyard metal workers.

2,000 WALK OUT IN PORTLAND YARDS

Portland, Ore., Sept. 15.—Union employees of wooden shipyards on the Willamette and Columbia rivers at Portland, Vancouver, Wash., St. Helens, Ore., and Astoria, Ore., struck today for higher pay and the closed shop. Reports indicate about 2,000 men laid down their tools in the various yards. Some yards closed, while others continued to operate with reduced forces.

NO EFFORT TO SETTLE TROUBLE IN SEATTLE

Seattle, Wash., Sept. 15.—There was no change today in the shipyards strike situation. Labor headquarters said 4,000 shipwrights, carpenters and laborers in the wooden mills were out and most of the wooden yards tied up. At certain yards it was said the total number of strikers did not exceed 2,000. The strike was called to enforce the general boycott against ten-hour labor. No effort at negotiations is being made here.

The general strike committee Chairman J. G. Brown today made the unqualified statement that the Metal Trades council has not planned to call out its unions on sympathetic strike with the carpenters and allied crafts in the shipyards. "The Metal Trades council has not changed its attitude since the strike was ordered," said Brown. "Its unions will remain at their posts as long as the shipyards can provide work for them."

ENTENTE NATIONS WAIVE PART OF BOXER INDEMNITY

Russia Insists on Part Payment Because of Her Difficulty.

Peking, Monday, Sept. 10.—(Delayed.)—Ministers of the entente powers at Peking have advised the Chinese foreign office that their governments are willing to waive the Boxer indemnity payments for five years. Russia waives one-third of the first portion of the indemnity, requiring the remainder because of her financial straits.

The United States, it is said, probably will ratify the action of the entente nations, but will not waive its portion of the Boxer indemnity, which is necessary to maintain the Chinese students in America.

The entente countries also will grant to China the privilege of increasing her tariff to an effective 5 per cent, which will represent something like a 2 per cent raise. They will concede to China the right to send troops through the foreign concessions at Tien Tsin if necessary. The Italian minister has withdrawn his request that Italy be given the right to the Austrian concessions at Tien Tsin.

SWEDISH MINISTER TO ENGLAND TAKES SHORT LEAVE AFTER MEETING

London, Sept. 15.—Count A. Wrangel, the Swedish minister to Great Britain, and the Countess Wrangel left London today for the continent on a few weeks' leave of absence. Count Wrangel yesterday had a long conference with Lord Robert Cecil, the British under secretary for foreign affairs, presumably on the subject of the Swedish-Argentinian disclosures. W. P. Bostrom, counsellor of the Swedish legation here, took charge during Count Wrangel's absence.

DATE OF HEARING SET.

William Scallon and Francis E. Sargeant today filed a petition with the clerk of the district court asking for authority to sell certain personal property belonging to the estate of Ida Wilcox Dixon. The petition has been set for hearing by Judge McClellan on Sept. 22.

SEED GROWN IN RUSSIA.

Vancouver, B. C., Sept. 15.—Seven thousand sacks of sugar beet seed, valued at more than \$200,000, has passed through Vancouver consigned to California. It was grown in Russia in a district adjacent to the Black sea.

EXPECTS RELIEF IN THE PAPER PRICE SITUATION

Government Prie Will Be Expected to Publishers is Expectation.

Washington, Sept. 15.—Senator Fletcher told the senate yesterday that the joint congressional committee on printing had saved the government half a million dollars by close supervision of paper purchases and its refusal to become panicky when others, scared by the false cry of shortage, were buying paper at excessive prices. "I am hopeful," said the senator, "that in view of the president's order fixing the price of news print paper at 2 1/2 cents as found by the federal trade committee to be a fair compensation, the news print paper manufacturers will at once recognize the justice of such an act and make their product available to the publishers of the country at this figure without further action by the government."

There are indications that the government is seeking a way out. As an instance, M. Kishkin, the new minister of the interior, declares that the government has decided not to take extreme measures against Korniloff, as it does not wish to appear revengeful.

MAKING EXCUSES FOR GUILTY DIPLOMATS

her that military mishaps might be avoided, as for example, concealing the fact from other ships that she was sunk by a submarine and not a mine. "It is self-evident," said the Koelnische Zeitung, "that the German government cannot be held responsible for the opinions of any one of its ministers. It is on that basis, the entente press attempts on the strength of the contents of these dispatches to accuse German politics of duplicity, or the German navy of atrocities, such accusations must impress the unbiased mind as willful exaggeration."

SOME ENTENTE DIPLOMATS ASK SWEDEN TO EXPLAIN

Stockholm, Thursday, Sept. 13.—Diplomatic representatives of entente governments here up to today had displayed only "natural curiosity" as to the Swedish government's view of the situation brought about by the disclosures from Washington regarding cable dispatches sent by the German minister to Argentina through the Swedish legation. From this attitude of waiting, one of action developed when the French minister, E. Thiebaut, called upon Foreign Minister Lindman with a formal request for an explanation of the incident on behalf of his government. The other representatives of the entente nations are expected to follow Minister Thiebaut's initiative. The American, British, French and Russian ministers held a meeting today at which the situation was thoroughly canvassed.

ECKHARDT SAYS IT'S AMERICAN INTRIGUE

Mexico City, Sept. 15.—Heinrich von Eckhardt, the German minister to Mexico, today made a statement denying anything in connection with the disclosures from Washington that he had been employing a former Swedish charge d'affaires to convey information to the Berlin foreign office. Von Eckhardt declares that he had never sent any communication through Folke Cronholm and that he never wrote any communication recommending Cronholm for a decoration for his services.

OFFICIALS SURPRISED AT VON ECKHARDT'S DENIAL

Washington, Sept. 15.—German Minister von Eckhardt's denial that he used the Swedish charge d'affaires in Mexico City for transmitting messages to Germany or that he had written a letter recommending an award for those services, arouses no anxiety at the state department, where officials, although surprised at the sweeping denial, declared that their investigation determined the authenticity of the disclosures and that Von Eckhardt's letter speaks for itself.

clamor for vengeance. Having re-established capital punishment at the front, however, the government, if it spares the rebel commander, must face the reproach that it executed common soldiers for less serious offenses and it would be virtually impossible to impose the death penalty in the future. Against this, the facts of General Korniloff's brilliant services, his chivalrous and personal character and the happy circumstance that there has been no bloodshed so far.
