

I'm sure Resinol will heal your skin

For years and years Resinol has been a favorite household remedy for eczema and other common skin troubles. It usually stops the itching at once and quickly heals the eruption. Doctors prescribe it very widely. It also makes an excellent dressing for burns, wounds, chafings, and sore, irritated places generally.

Resinol contains nothing that could injure the tenderest skin. It is even more effective if used with Resinol Soap. All druggists sell Resinol and Resinol Soap.

BUTTE TO ASSIST IN LIBRARY DRIVE

Citizens to Be Asked to Help in Raising \$1,000,000 Next Week.

Butte citizens will be asked to assist in the million-dollar "Camp Library" campaign which will begin next Monday and last for a week. During the week it is proposed to raise \$1,000,000 for Uncle Sam's soldiers.

Details regarding the collection of subscriptions are awaited by Miss Gertrude Nichols, city librarian. Now that the national army is going to its 16 great cantonments and the national guard to its 16 tented cities and the picked men of the country are being trained for officers in 14 great schools of intensive training, the great American public is going to be asked to help make their lives more pleasant.

For the soldiers who are digging practice trenches and preparing to go into the war trenches in Flanders, the people are asked to "dig down" into their pockets and raise a fund of \$1,000,000 with which to build, outfit and maintain libraries for the soldiers and sailors ashore and afloat and for the sick and wounded.

A nation-wide campaign is to be conducted as a "great drive" for this fund by a war council appointed by the secretary of war from the American Library association. Besides the 16 national army cantonments, the 16 national guard camps and the 14 officers' training camps, there are five aero training stations, one army balloon school, 185 army posts and stations, including hospitals and disciplinary barracks, and 65 naval stations and marine barracks.

In order that people may have the gratification of contributing to the recreation of their own home soldiers, they will be allowed to designate the camp, and even the regiment, to which their money shall be applied.

Not a penny will be used for any other purpose than the erection of main library and branch library buildings in every camp, the provision for expert librarians to handle them, the equipment of reading rooms with every convenience and comfort and the stocking of the thousands of shelves. The soldiers and sailors will get 100 cents of pleasure recreation and diversion from every dollar contributed, and not a penny will be diverted for any other purpose.

George B. Utley, executive secretary of the American Library association, is in Washington from Chicago to help in raising the \$1,000,000 fund.

Miss Nichols is in receipt of the following appeal from Secretary Utley: "The donation of the old, disused volumes, brought back to light from the attics and cellars, might seem an easy way of fulfilling one's patriotic duty to our soldiers and sailors, but this, alone, is of little practical value. This campaign is truly a governmental war activity, not to dump down a lot of miscellaneous books, but to furnish adequate buildings, adequate traveling libraries and adequate service."

NEW CHOIR LEADER FOR IMMANUEL PRESBYTERIAN

William Stevens has taken charge of the choir of the Immanuel Presbyterian church. Mr. Stevens formerly led the choir of this church for several years and his many friends of the church are pleased to learn of his return.

The Sons of St. George Glee club, of which Mr. Stevens is the efficient leader, will take charge of the singing at this church next Sunday night. The interest at this church has continued to increase since Rev. Mr. Williams became its minister and Mr. Stevens' additional service will be an attractive asset to this organization.

NO DATE NOW FOR THE BIG MEETING

Socialist Committee Cannot Say When the Gathering Will Convene.

Stockholm, Sept. 17.—The organizing committee of the Stockholm socialist conference in its report on the question of holding the conference, which, it said, had not been abandoned, but that a date would be fixed as soon as passport difficulties had been settled, after declaring that Stockholm was closely connected with the revolution in Russia, expressed the hope that Russian comrades would close their ranks and depend upon Russian democracy to solve the present crisis there.

"Working classes in all countries," the report added, "hail with enthusiasm the Russian emperor's fall and condemn the counter-revolutionary efforts."

The committee's report hoped that German and Austrian socialists would protest energetically against projects and tactics tending to weaken the Russian revolution and to make Germany an accomplice of the counter-revolution.

The Next Work.

Declaring that the present circumstances prevented the giving of a definite reply regarding the date of the conference to various requests from France, Austria, Germany, Bohemia, etc., the committee resolved to continue its activities, to publish a collection of documents from adherents and to issue a general report. It decided also to send, if the organizations concerned were willing, delegates to the new inter-allied conference.

The committee asserted the Stockholm conference must inaugurate a new era in the struggle of the proletariat against imperialism by the re-establishment of an international code of common action and concludes: "The working class desires this war to be the last, to democratize the nations, to prevent new conflicts and, above all, to create, by guarantees of right and arbitration, a pacific, disarmed world on land and sea and a Europe of democracy and true liberty. The conference is now delayed, but for every organized proletariat the watchword is still 'To Stockholm!'"
