What Small Savings Mean

In the struggle for big things too often we overlook what small savings mean—that are directly within our reach each day. When we analyze we find the greatness of seemingly small savings.

A freedom of choice.
 A right to live, think and act freely.
 A chance to save by cash dealing.
 A position to profit by greater undertakings.
 A restful mind that you owe the world nothing.
 Happiness in the thought of opportunity to accomplish your aim.
 Satisfaction of planning and following those plans to a definite culmination.
 Lastly, joy in the knowledge of a safeguarded future.

FRESH VEGETABLES	FRESH FRUITS
Tomatoes—Perfect, ripe, red, firm ones for preserving, catsup or chili, wood boxes \$1.00	Dutchess Apples—A very desirable quality, early Montana eating or cooking variety, small size fruit, largest box, cheap at \$1.35

ANDERKCHIEF SERVES AS HANGMAN'S NOOSE
 Desperate Criminal Suicides in the Washington State Penitentiary.

Walla Walla, Wash., Sept. 25.—Being himself by knotting a heavy andkerchief and a bed sheet together, tying one end around his neck and the other around a water pipe at the ceiling, then throwing himself from his cell, J. J. Casey, one of the most desperate criminals in the Washington state penitentiary, last night committed suicide. Casey was sentenced to Walla Walla county for murder in 1914. He had been a leader among the trouble-makers of the prison and in the recent five-day riot was a ringleader. He did not know where he was born or how old he was.

METAL MINE WORKERS ADDRESSED BY PASTOR
 At a meeting of the Metal Mine

Workers' union at Finn hall yesterday afternoon, the Rev. Mr. Wilson, pastor of the People's church, on the flat, was the principal speaker. He attacked the newspapers of Butte and Anaconda, upheld the agitation against the mining companies and, in general, encouraged the strikers to hold out for their demands. He had much to say about "solidarity," commending that principle as one in which the interests of labor rested, and was frequently applauded by the I. W. W. element present.

Colder weather is bringing many miners back to Butte. There is a steady increase in the number of men employed and in the tonnage of ore sent to Anaconda.

Presenting in a remarkably daring and original fashion of a great issue in the moral life of our country today.

ORPHEUM THEATER

FOUR DAYS STARTING SUNDAY, SEPTEMBER 30

MANY ARRIVALS AT CAMP LEWIS

Californians Arriving at Training Ground in Large Numbers Today.

Camp Lewis, Tacoma, Wash., Sept. 25.—Four hundred and sixty-seven California men are due today and 143 tomorrow, when the second quota will practically be in camp. California counties were represented by 418 men on an early special as follows: Yolo, 42; Colusa, 33; Glenn, 37; Yuba, 41; Sutter, 29; Siskiyou, 108; Plumas, 48; Trinity, 19; Shasta, 71.

Enrollment for a course in French at Camp Lewis will begin tomorrow and continue through the week. A heavy enrollment is expected. The first shipment of textbooks has arrived.

The second of the Y. M. C. A. buildings to be completed for the 302d regiment, northern California, was dedicated last evening.

Announcement was made yesterday of officers in charge of the regimental exchanges as follows: Capt. D. C. Oldenburg, division exchange officer; Second Lieut. W. S. Zimmerman, 363d infantry; First Lieut. A. S. Whitney, 34th machine gun battalion; Capt. Willis D. Penrose, 316th engineers; Second Lieut. Walter M. Keck, 364th infantry; Second Lieut. H. A. Mallum, 362d infantry; Second Lieut. E. R. Block, 364th field artillery; Second Lieut. Howard C. Charlton, 348th field artillery; Second Lieut. Paul L. Levy, 347th field artillery; First Lieut. Charles H. Moore, Jr., 361st infantry; Capt. R. Cadwalder, base hospital; and First Lieut. Harry J. Vogel, 346th and 347th machine gun battalions.

Will Get Colored Men.

Camp Lewis, Tacoma, will be one of the camps at which a regiment of colored troops will be trained for service in France. It was learned in late orders from Washington, D. C., with respect to the division of the cantonment among the various units to be housed. The regiment of colored troops will be trained as a separate organization from the Ninety-first division and the depot replacement battalions, all constituted of white troops.

Up to the present time no colored drafted men have been received at the camp, orders to local boards being to hold them until further orders. It is believed that they will be included in the last 15 per cent quotas to be sent next month. As the Western department, furnishing the men for the Tacoma camp, is not expected to furnish enough colored conscripts to form a regiment, it is probable that some southern states will be brought here to fill the regiment up.

Trench Mortar Battalion.

There will also be a trench mortar battalion as well as the three machine gun battalions, one to each of the three brigades already organized. This will be a part of the Ninety-first division.

Work on the many additions and alterations to buildings of the cantonment, ordered by the war department to fit the cantonment to the new form of army organization, will begin soon, it is announced by the constructing quartermaster. The capacity of some buildings will be increased by extensions and some barracks will be divided across the middle by partitions and each half furnished with separate entrances and stairways, so as to allow companies to occupy one and one-half barracks each and house the 250 men that now form a company.

The installation of street lights for the cantonment was begun Monday and within a few days the gloom of night will be driven from the cantonment streets.

Real Taste of Drill.

The men who came in the last three days had their first taste of drill yesterday. Full companies of infantry turned out for the first time, but were broken up into platoons and squads for drill. The parade grounds were covered with these small groups going through the rudimentary movements. Light shirt sleeves distinguished the newest arrivals from those who have been in camp long enough to have at least an olive drab tunic or two.

One of the most bewildered men to arrive at the Tacoma camp was a miner from southwest Washington, who turned up Sunday. After wandering around he finally came upon the quartermaster's headquarters and into the hands of Lieut. H. L. Archer of the receiving staff. The miner, 25 years of age, had heard that his name was drawn in the draft, and without knowing that he must await word to appear before the exemption board, started for the Tacoma camp, paying his own way. Ignorant of military ways, and bewildered by the mass of humanity into which he plunged, he was at the breaking point when he appealed to Lieutenant Archer. The draft is bringing into camp many men from out of the way and country places whose methods of life have been so utterly removed from scenes of confusion that they are visibly scared upon arrival.

The knees of some upon arrival, and some even have to hold to railings in the receiving shed to support themselves. The announcement that they must go to the contagious disease inspection tent generally is the climax of the timid arrival's period of trepidation.

MISSOULA RAILWAY MEN STAND BEHIND DEMANDS

Missoula, Mont., Sept. 26.—The Missoula branch of the Brotherhood of Railway Clerks and Station Employees, it was announced today, has voted its entire support to the committee of the order now negotiating the brotherhood's demands with officials of the Northern Pacific railway at St. Paul. The branch has authorized the calling of a strike unless the demands of an eight-hour day and a 25 per cent increase in wages are granted.

CONFEREES AGREE ON THE HUGE TAX BILL

Compromise Reached on Excess Profits Clause—Report Tomorrow.

Washington, Sept. 26.—A basis for complete agreement on the two billion dollar war tax bill was reached today by senate and house conferees. Its presentation to both houses of congress tomorrow is planned.

A compromise war excess profits taxation system combining the house and senate plans at about a gross levy of one billion dollars was agreed upon.

PARTIAL EVACUATION OF PETROGRAD PROGRESSING

Petrograd, Sept. 24.—(Delayed.)—Although there are no signs of panic among the population and there are indications of returning confidence, the partial evacuation of Petrograd is proceeding. Irrespective of whether the government will be transferred to Moscow.

A priceless collection of pictures at the Hermitage gallery is already boxed for shipment to an unknown destination. The treasures of the synod and parochial churches in Petrograd also are being removed.

Look Years Younger—No Gray in Hair

It seems so unwise to have gray, faded or lifeless hair these days, now that Q-Ban Hair Color Restorer will bring a natural, even, dark shade, without detection, to gray or lifeless hair.

Have handsome, soft, lustrous hair in abundance without a trace of gray. Apply Q-Ban—guaranteed harmless—\$6 a large bottle—money back if not satisfied. Sold by Newbro Drug company and all good drug stores. Try Q-Ban Hair Tonic, Liquid Shampoo and Soap.

NO ATTEMPT TO PREVENT STRIKE

Strike Committee of Seattle Shipyard Workers Calls the Men Out Saturday.

Seattle, Wash., Sept. 26.—The strike committee of the Seattle Metal Trades council today decided to make no attempt to postpone the shipyard and contract shop strike set for next Saturday morning at 10 o'clock. The committee said that such an effort would not only fail, but would breed disorganization. Nearly 12,000 men in three large steel yards are involved.

TWO UNIONS VOTE TO REJECT PROPOSED PLAN

San Francisco, Sept. 25.—Announcement that the boilermakers and patternmakers' unions had rejected the temporary wage scale drawn up by employers' and workers' representatives in the strike of 25,000 ironworkers and other mechanics here was made today at the San Francisco Labor temple.

The 25 unions in the Iron Trades council affected by the strike have completed the referendum vote on the proposal to return to work under the new scale. The negative vote of the boilermakers and patternmakers will not be considered if the remaining unions have voted to return to work, labor leaders announced. These two unions, according to their constitution, must abide by the majority action in the council.

The agreement reached by the conference committee of the council and the California Metal Trades association and California Foundrymen's association, the organizations of employers, provides that the men shall return to work at a slightly increased wage pending a definite settlement by government mediators. The temporary agreement followed efforts of President Wilson to end the strike by appointing Attorney Gavin McNab special federal mediator.

SEEK TO ARRANGE A PORTLAND CONFERENCE

Portland, Ore., Sept. 25.—Efforts were made today by striking Portland shipyard employes to arrange a conference with the yard owners in an effort to reach an agreement under which work in the idle plants would be resumed by the men, who, approximately 7,000 strong, recently walked out, demanding higher wages and the closed shop.

No announcement was made by the men of the terms under which they will return to work. It was not believed the employers would treat with the strikers, as last night the yard owners decided to take no steps toward settling the strike before the arrival of a committee President Wilson appointed yesterday to come to the Pacific coast to investigate labor conditions in the shipyards.

Reports came to the police that several men were attacked when they reported at the Northwest Steel company's plant for work today. Confirmation could not be made. As a result Mayor George L. Baker has ordered the police to enforce rigidly the state anti-picketing law.

PATTERNMAKERS GO BACK AT NORFOLK

Norfolk, Va., Sept. 26.—Patternmakers at the navy yard today decided to return to work after receiving advices from union officials in Washington asking them to return.

NEW PAVING PLAN IS PROVED SUCCESSFUL

With Granite Blocks Turned Over, Plenty of Room for Bitulithic.

City Engineer Ellis was elated this morning when he learned that his experiment on West Park street concerning the use of the granite blocks has been proved a success. With the blocks turned over, a space of two inches remains for bitulithic. With the bitulithic laid, Park street will be the best improved street in the city.

"The whole thing has been more or less an experiment," said Mr. Ellis. "That the experiment is proving successful is gratifying."

In tearing up the old granite blocks on Park street the city engineer has learned the reason for the rough streets throughout the downtown districts. The men who paved the street originally, put in a sand bed from two to eight inches in depth. This caused the bumps that have been so annoying to all persons who have had occasion to drive automobiles or other vehicles over the granite blocks.

"I believe that there will be no more substantial pavement in the country when the downtown district is completed," said the city engineer.

ASKS THAT PREACHER BE SENT TO ASYLUM FOR CRIMINAL INSANE

Red Oak, Ia., Sept. 26.—A life sentence for Rev. Lyn George J. Kelly and committal to the ward for the criminal insane at Anamosa penitentiary was asked today by F. F. Faville of counsel for the state in his address to the jury in the trial of Kelly for murder in connection with the Villisca ax slayings.

The defense insisted that if the jury decided Kelly committed the crime, a verdict of "not guilty because of insanity" should be returned. The case is expected to go to the jury late today.

CHOOSE YOUR HEATER NOW

Two Carloads of Peninsulars Here

This new shipment of Peninsular heaters is the most expensive in the way of styles, shapes, finishes and new features that we have ever yet shown to the people of Butte. Variety of price is also an important item when buying a heater, and here again we can meet any demand. To choose now while the lines are complete is a great advantage, and we urge you to make an early selection if you are thinking of buying a heater.

If You Live Out of Butte, Order by Mail. We Pay the Freight to Your Own Town

- PENINSULAR OAK HEATER**

BROWNFIELD-CANTY CARPET CO.
 48 to 64 WEST PARK

NO DISORDERS NOW ON ROADS TO THE MINES

"It looked like old times this morning on the various roads leading to the mines," remarked Undersheriff Jack Mella today on returning with a number of his deputies from a tour of the different roads leading to the mines to ascertain if any attempt was being made to interfere with men going to work. "We failed to find a single man on any of the roads attempting in any way to interfere with the miners and everything was quiet."

HUH!
 "I thought you told me that the doctor ordered you to take more exercise," said Waldo.
 "I did," replied Reggie. "I am rolling twice as many cigarettes as I used to."
