**Buy a Box---They Keep Well**

The first car of Montana Wealthy apples rolled in yesterday from Hamilton. It's grower had promised us that perfect selection of his fine orchard, and upon opening the car for inspection we proclaimed it as fine as ever come to Butte during the early opening season. Wealthy apples—perfect in shape and smoothness—rosy cheeked—ripe—with just enough tartness for fine eating, cooking or baking. Well tiered and shipped, heavy pack, bulging boxes, nearly 50 pounds net weight. This variety has good keeping quality, which would advise having a box at hand for the grown-ups as well as the children.

**160 LEADERS OF I. W. W. INDICTED**

**Charged With Seditious Conspiracy, Nearest Charge to Treason.**

(Continued from Page One.)

The grand jury to find indictments on the broader charge of seditious conspiracy.

**Ton of Documentary Evidence.**  
 William C. Flitts, the assistant attorney general, under whose direction the nation-wide raid of Sept. 5 was carried out without a hitch, is in Chicago today in personal charge of developments.

The evidence laid before the grand jury was of such volume as actually to weigh a ton or more.

It concerned anti-draft demonstrations, crippling of war industries by so-called strikes, burning of wheat fields, burning of timber which the government was planning to use for airplane construction and continuous anti-draft and anti-war propaganda. There was evidence that German money was plentifully supplied, as shown in many letters and cancelled checks.

**Many Austrians Involved.**

One feature which the investigation brought out sharply was the large, almost predominant, membership of Austrians in the ranks of the I. W. W. Local organizations and also the large membership of the various races which comprise Austria-Hungary. Thousands of these men, unrestrained because the United States is not at war with Austria, federal investigators have found, have been free to carry on whatever activities were planned.

It is understood that the indictments have been passed under the section of the criminal code defining "offenses against the existence of the government."

**The Law Involved.**

Section 8 of the criminal code, under which it is understood the indictments have been found, reads as follows: "If two or more persons in any state or territory or in any place subject to the jurisdiction of the United States conspire to overthrow, put down or to destroy by force the government of the United States or to levy war against them, or to oppose by force the authority thereof, or by force to prevent, hinder or delay the execution of any law of the United States contrary to the authority thereof, they shall be fined not more than \$5,000 or imprisoned not more than six years, or both."

The offense charged is regarded by officials as next in gravity to treason itself and is defined in the criminal code immediately after the definition of treason and the punishment thereof.

**HURRICANE IS ADVANCING ON SOUTHERN CITY**

**People of New Orleans Leave Homes to Find Safety During Night.**

Mobile, Ala., Sept. 28.—Late this afternoon the hurricane reached a velocity of 90 miles an hour, and the weather bureau predicted a further increase. The police stopped street cars and shut off all electric current. Telegraph wires to Pensacola are down. Slate roofs and wooden galleries of houses were being torn away in the business section.

New Orleans, Sept. 28.—The tropical hurricane passing inland from the Gulf of Mexico was central early today about 75 miles south of New Orleans and moving in a northerly direction. Reports from Pilotown near the mouth of the Mississippi river said the wind's velocity there was more than 75 miles an hour at 5:30 a. m. and the barometer had fallen to 29.18.

Weather bureau officials were inclined to the opinion that the full force probably would pass a little east or west of New Orleans.

Heading the weather bureau's warning of the probable approach of the storm, hundreds of New Orleans residents deserted their homes in the outskirts and spent last night in hotels, public and office buildings down town. More than 300 sought refuge in the postoffice building, the customs house and the new courthouse.

A dispatch from Gulfport, Miss., stated the barometer there at 7 a. m. registered 29.65. An east wind was blowing about 40 miles an hour, and there were squalls of rain. The tide there was reported two and a half feet above normal.

Telephone communication with Pilotown became interrupted for several hours and reports from there were received by wireless.

As a precautionary measure, Dr. I. M. Chas. district forecaster here, advised the authorities at Tibidoux, Hammond and other small towns near here to keep their schools closed today. The New Orleans school board issued orders to the same effect.

**BLOWING 100 MILES AN HOUR AT PENSACOLA**

Mobile, Sept. 28.—Last reports from Pensacola, Fla., at 1 o'clock before communication was cut off this afternoon, said that a 100-mile wind was blowing there and that property damage was great.

**THE POST FOR THE NEWS**

**GERMAN EFFORTS ARE UNAVAILING**

**British Troops Hold Ground They Captured in Hard Fight.**

**THE WAR SUMMARY.**  
 Efforts to break into the new ground won by the British in the renewal of the Flanders offensive on Wednesday are being continued by the Germans. They tried it out last night at Zonnebeke, where the British have pushed far along the road to Roulers. The British artillery, machine gun and rifle fire was too much for them, however, and the attack was broken up.

Zonnebeke is an important point for the British. Their present position in the village places them within a half dozen miles of the important north and south railway line connecting Lille with Ostend on the coast, the cutting of which or its domination at even medium range artillery fire would seriously handicap the Germans in their Flanders operations.

**GERMAN ATTACK IN ARGONNE REPULSED**

Paris, Sept. 28.—The Germans made an attack last night in the Argonne region. Today's official statement says they were repulsed three times, suffering heavy losses.

**BRITISH SMASH COUNTER ATTACK OF THE TEUTONS**

London, Sept. 28.—Another German counter attack was made last night against the new British position near Zonnebeke. The attack was broken up by the British, the war office announces.

**RUSSIAN DESTROYER IS SUNK BY A MINE**

Petrograd, Sept. 28.—The Russian destroyer Ochotnik was sunk by a mine in the Baltic on Wednesday.

The Ochotnik, 246 feet long, of 615 tons displacement, was built in 1905. She was armed with two 4.7-inch guns and six 6-pounders. Her normal complement was 98 men.

**RUSSIANS CAPTURE A CAUCASUS CITY**

Petrograd, Sept. 28.—The Russians have captured Oromaru, 24 miles west of Meri, in the Caucasus, it is announced officially.

**BRITISH DRIVEN BACK NEAR FREZENBERG ROAD**

Berlin, Sept. 28 (via London).—British forces, which yesterday advanced for strong local attacks northeast of Frezenberg, on the Menin road, on the Belgian front, were driven back, says the official statement issued today by the German war office. On the Ypres Passchendale road, the statement adds, the British still occupy crater positions on the German front line.

**AUSTRIAN FRONTIER IS CLOSED TO TRAVEL**

Geneva, Thursday, Sept. 27.—The Austrian frontier was closed yesterday. No telegrams or travelers or newspapers arrived in Switzerland from Austria, Albania, Italy, former khedive of Egypt, however, received a special pass for Vienna. The ex-khedive, who has been living in Switzerland for several months, has decided to take up permanent residence in that city.

**MICHAELIS ON THE PEACE NOTE AND REPLIES**

Amsterdam, Sept. 28.—Dr. Michaelis, the German imperial chancellor, in a speech to the main committee of the reichstag, said that Pope Benedict's peace proposals were inspired by moral seriousness, pure justice and neutrality, which things were lacking in the reply made by President Wilson to the pope.

**DELAY IN SHIP WORK NOW AID TO ENEMY**

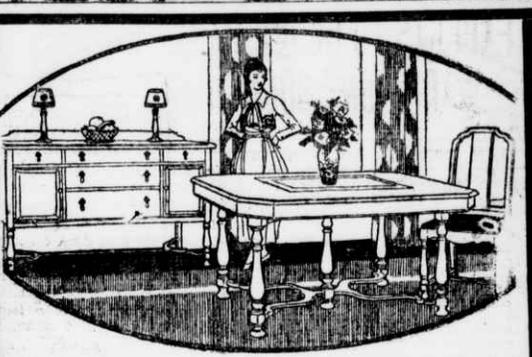

(Continued from Page One.)

bases and it has become necessary to send troops and supplies in large quantities to France. Under existing conditions ships of the allies, although solely needed for their own maintenance and supplies, have been diverted and have been assisting the United States in the transporting of naval supplies and of army troops and their supplies.

"The foregoing very conservative statement of the existing military situation shows conclusively that any delay or obstruction in the shipbuilding program is one which favors our enemy, the German nation, and delays and obstructs the termination of the war. In this connection, it is not a question of finishing ships now on ways at shipyards within contract time limits, for the military situation demands that ships be launched and commissioned at the earliest date practicable and any delay or obstruction thereto is one that seriously obstructs our efficient prosecution of the war, and correspondingly sets back in days, weeks and months that victory which is essential on land and sea to effect peace."

**Strikers Fail to Return.**

The return of 39,000 striking iron workers engaged on the government's merchant marine program, who were scheduled to resume work here today after a temporary wage increase, was blocked by the refusal of the Boilermakers' union to accept terms stipulated in the agreement after a ma-

**THE POST FOR THE NEWS**

**M'ADOO EXPECTS VAST EXCESS CALL FOR BONDS**

(Continued from Page One.)

"We shall have to have an army of food producers in the furrows," he declared.

In urging increased food production, Mr. Vrooman declared we are face to face with famine. "Not as a people, of course, but as one of a sisterhood of nations. We are not ourselves starving, but millions of our fellow men are."

**WOULD HAVE SENATE EXPEL LA FOLLETTE**

**Dr. Nicholas Murray Butler Condemns Wisconsin Senator in Address.**

Atlantic City, N. J., Sept. 28.—Nicholas Murray Butler, president of Columbia university, yesterday in an address before the American Bankers' association upon "The Changing World" advocated the expulsion of Robert M. La Follette from the United States senate because of his pro-German attitude and efforts. Mr. Butler's words were cheered by the bankers.

"We are repelling attacks upon American people and institutions of two kinds," Dr. Butler said. "We are fighting across the sea and we are fighting evil-minded suspicion, cowardice and treason which have raised their hands at home. Our soldiers can fight the soldiers of the enemy. You and I have to fight sedition and treason here."

"Have the American people lost their capacity for corporate indignation?" he asked.

"There is a provision in the constitution providing that congress may expel a member by a two-thirds vote. What are they thinking about to sit there and permit themselves to be contaminated by Senator La Follette?"

Cries of approval came from every side as Dr. Butler proceeded.

"Gentlemen, you might just as well put poison into the food of every boy that goes to his transport as to permit this man to make war upon the nation in the halls of congress.

"I am a native son of New Jersey, which has two patriotic sons in the senate. I call upon them to take the lead.

"I am a citizen of New York. New York has two patriotic sons in the senate. I call upon them to take up the challenge. No single act would go so far to shorten the war."

Again the audience applauded.

"Hundreds of millions of dollars are being expended and thousands of lives are being lost because we sit by indignant and supine," Dr. Butler declared.

Speaking of peace Dr. Butler said: "Do you see the significance of the coinings of peace which come from Berlin? They are intended to weaken our efforts before the new world in which we are in search has been discovered—a world for which the free nations have armed themselves for a contest that will not cease until this world has been founded.

"Any human being who asks for peace on any other terms than unconditional surrender is asking another and still greater war. Peace will only come when the supreme confidence the Germans have in their instrument of arms and their world dominating scheme are brought to defeat. That is the only road to peace."

majority of the unions had voted favorably.

The Boilermakers' union, which is affiliated with the Iron Trades council, refused to assent to the agreement, although the council endorsed it.

Approximately 100 of the shops, which had not received the notice to remain closed, resumed work early today, but were notified by the employers' associations to shut down until the difficulties with the boilermakers were settled.

A force of 2,000 gathered at the gates of the Union Iron works, where government shipping contracts to the extent of \$100,000,000 are being filled. The plant was not opened, however, and the men turned away.

The patternmakers, sheet metal workers and shipyard laborers, who voted with the boilermakers yesterday against the decision to return to work today, will also meet tomorrow.

**STRIKERS AID POLICE BRING IN PICKETS**

Portland, Ore., Sept. 28.—Striking Portland steel workers joined forces with the police today and sent delegations to order pickets from the several shipyards which have been idle since approximately 7,000 union men walked out recently demanding higher wages and the closed shop.

Both sides have announced that they believe the strike will not be settled until the federal ship labor adjustment board arrives from Washington.

**SEATTLE MEN AWAIT NEWS FROM WASHINGTON**

Seattle, Wash., Sept. 28.—The conference committee of the Metal Trades council and representatives of three large steel shipyards met this morning in the office of one of the yards in the hope that news from Washington would enable the conferees to reach an agreement that would avert the strike of nearly 12,000 steel shipbuilders called for tomorrow morning at 10 o'clock.

**FIGHT IN HOUSE OVER GERMAN FUND INQUIRY**

(Continued from Page One.)

toward the combatants. Disorder reigned in the galleries where people rose from their seats and rushed to the rails to see into the pit of the house.

Friends separated the men without difficulty and led them to the cloak rooms. The only marks of combat showed on Norton's white collar and Hefflin's usually immaculate white shirt front.

Order was restored as quickly as it had been disturbed.
