

# BUTCHERS PLAN TO GO OUT MONDAY

### Demand \$1 a Day Increase. Offered 50 Cents by Employers.

Unless the Butte Butchers' union recedes from its position in the next 48 hours, the butchers will go on a strike Monday, and Butte citizens will have a real opportunity to put into effect Hoover's theory that we should consume less meat as a conservation measure in war times.

The butchers are demanding \$1 per day increase in wages. The master butchers, all of whom are members of the Silver Bow Employers' association, have offered as a concession that they split the difference and make the advance 50 cents per day. The butchers now receive a minimum of \$4.50 per day. The offer of the master butchers, if accepted, would make the wage \$5 per day.

### Refuse Compromise.

But the butchers' union refuses any compromise and stands pat on the dollar per day increase. This the master butchers are determined not to grant, and as the butchers declare they will walk out Monday unless the demand is granted, this means that no meat will be delivered and the only meat sold over the counter will be what the master butchers can cut and handle themselves.

It was Tuesday that the demand of the butchers reached the employers. The master butchers met in the employers' association offices Wednesday and decided that a raise of a dollar at this time would be unfair for the employers inasmuch as only recently one hour per day was cut off the working time of butchers, which is equivalent to a raise of 50 cents.

### Appointed a Committee.

The master butchers appointed a committee. This committee met with a committee of the butchers today when the compromise offer of 50 cents was made by the employers. It was rejected and the employers were informed that every meat shop in Butte will be declared unfair Monday morning unless it pays the \$5.00 demanded.

A meeting of the 30 butcher employers of the city, including the slaughter houses and the packing companies, will be held tonight in the offices of the employers' association, when uniform action will be taken. Every man, it is said, will close his shop tight if necessary before the demands are made will be granted.

**From Employers' Standpoint.**  
"We might just as well turn over our business to the butchers' union," said one employer this morning, "as to concede to all the demands. We only recently knocked off an hour a day to the butchers, which is the same as granting 50 cents increase. We are willing to grant 50 cents more now, which makes our concession \$1 in all. But the butchers are not satisfied and demand a full dollar now, which, added to the recent concession, would make \$1.50 more than we can afford and more than is right."

"A dozen unions in Butte, including the clerks, have recently accepted 50 cents increase, and if this was a fair adjustment for them it is fair for the butchers."

The butcher employers also point to the fact that there are 13 holidays in the year granted the butchers. The butchers are paid in full for these holidays, though no extra work is done by them, it is said, to make up for this time off.

**AMUSEMENT FEATURES ATTRACT MANY AT FAIR**  
(Continued from Page One.)

broke out that resounded through the valley.

Judging of awards progressed today in the main hall, where the county competitions and special events are holding the interest. All the awards, it is expected, will be announced by this evening. Max Atwater of Basin entered the amateur auto racing tournament today with the announcement that tomorrow he will enter his Mercedes against Jim Reynolds' super-six and Stanley Smith's "50-50" Ford. Reynolds and Smith have raced twice this week, each winning, and the three-cornered contest tomorrow is heralded as a feature, with Smith and Reynolds after the rubber and Atwater keen to grab off the honors with one race.

Many motorists are arriving from various sections of the state each day. The roads are in fine condition. The fair management announced today that the road from Butte to the state fair at Elk Park is in its best shape of the season. There is no mud or dust and the road is fast. A large crowd of motorists is expected from Butte tonight and tomorrow morning.

### THE LORD ON SALESMEN.

Lord Eustace Percy told at a reception a story about Lord Devonport, the British food controller.

"Lord Devonport," he said, "runs the largest chain of groceries in England. When he was a poor man, running only one provincial grocery, he hated ostentation and display.

A traveling salesman once dropped in on him in his little shop.  
"In from London," the salesman said, haughtily, "I want to show you a line of London goods that will open your eyes."  
"Where did you say you come from?" asked the humble grocer.  
"London," said the salesman, proudly, "London, my man."  
"London, eh?" The grocer smiled pleasantly. "Who runs the hotel in that town?"

# T. R. BITTER IN ARRAIGNMENT

### Former President Would Destroy "The Enemies Within Our Gates."

Racine, Wis., Sept. 28.—Neo-copperheads, Hun within the gates of America, who are preaching disloyalty to the country's cause, and German-American newspapers which continue their anti-American propaganda, were denounced by Theodore Roosevelt in an address he delivered here last night at the annual meeting of the League of Wisconsin Municipalities.

"The time has come," declared Colonel Roosevelt, "when we should insist that any man in this country who believes 'Germanism' or any other nationalism except straight out unadulterated Americanism is a foe of America and should be bundled straight out of the country to any other country that is willing to receive him. There isn't room any longer here for a 50-50 allegiance."

Describing the Hun within our gates as "The one from whom we have most to fear, for he is the tool and ally of Hun without," Colonel Roosevelt asserted:

"Of those Huns within our gates these who do most mischief are the men who hold office and the men who edit newspapers. These neo-copperheads stand towards the loyal Americans today exactly as the old copperheads over half a century ago stood toward Abraham Lincoln.

"Men like Senators La Follette and Stone and Congressman McLemore occupy substantially the same position as Vallandigham occupied in 1863. They denounce this war as Vallandigham aided the cause of secession. They use the same high sounding words that Vallandigham used. They demand peace as he demanded it. They now slur over or defend the hideous iniquity of Germany as he in his day slurred over or defended the iniquity of slavery. They try to excite class hatred exactly as Vallandigham and his followers roused the New York mob against the draft.

"Abraham Lincoln sent Vallandigham into the hostile lines. I wish that we could send to Germany the neo-copperheads of today and especially all those congressional and editorial copperheads who have taken the lead in directly or indirectly preaching disloyalty to our country's cause while at war and giving aid and comfort in this crisis to the public enemy."

Asserting that this country should not permit, during the war, any paper to be published in German, Colonel Roosevelt added that "There are plenty of papers printed in English whose utterances are at least as bad as those of the worst German-American papers."

"Our government," he said, "has been remiss in not dealing with all necessary severity with the strongest and most influential of these papers."

Quoting a German-American newspaper as asserting that "The problem of the German press is to save Germanism in the United States," Colonel Roosevelt said:

"This shows that the men making it and the men defending it are not Americans and have no business longer to remain in America. They are Germans; they are aliens here and perilously near traitors. The time has come to make short shift of such men."

# SINN FEINERS INFLAMED OVER DEATH OF LEADER

### Inquest Over Thos. Ashe Indicates Death Not Due to Hunger Strike.

London, Sept. 28.—The death in Dublin Wednesday of Thomas Ashe, a Sinn Fein leader, reported to have been due to voluntary starvation, according to a dispatch to the Daily Mail from Dublin, has accentuated painfully the difficulties underlying the surface of Irish politics and Sinn Fein opinion is inflamed seriously. Ashe's body, dressed in the uniform of the Irish volunteers, lies in state in Dublin hospital and there may be a public funeral on Sunday. It is said that other Sinn Fein leaders in the hospital prison where Ashe died are in a dangerous condition.

At the inquest Thursday into the death of Ashe, Professor McEneaney testified that the post mortem examination, at which several other doctors were present, showed that Ashe did not die of hunger. The body was not emaciated and there was an abundance of food in the stomach. Death, he said, was due to syncope, arising partly from heart trouble and partly from an intense congestion of the lungs. Ashe's heart, he added, was abnormal and he would be apt to succumb to any sudden shock or prolonged struggle.

Dr. McKenna, a hospital surgeon, testified that Ashe told him after he had been fed forcibly on Tuesday he had collapsed from a fit of coughing.

### GETTING ALONG NICELY.

A clergyman taught an old man in his parish to read. After his lessons were finished he was unable to call upon him for some time, and when at last he did found only the wife at home.  
"How is John?" said he, "and how does he progress with his reading?"  
"Oh, nicely, sir."  
"I suppose he can read his Bible quite comfortably now?"  
"Bible, sir," exclaimed the woman. "Lor, bless your soul; why, John was out of the Bible and into the sporting papers long ago."—Philadelphia Star.

# NED GRADY CALLED IN SECOND DRAFT

### Famous Football Star Included in Contingent From Idaho.

Edward Grady, famous as being one of the Columbia football players of some years ago, is back in the city for a few days. He is visiting friends here preparatory to leaving for Camp Lewis, American Lake, Washington, with the Idaho contingent in a few days.

Mr. Grady will be very pleasantly remembered as one of the best football players that this city ever produced. He was a leader in the Columbia team which won such honors for Butte several years ago. Later he was coach of the Centerville Young Men's club football team. He was also a prominent member of the Grizzly Bears' club.

For a year or more he was engaged at Basin at the smelting plant there and later went to Utah, thereafter going to Idaho. While in Idaho, the draft took effect and Mr. Grady was called. He sought no exemption and came to Butte two days ago to visit his old friends before going to Germany to capture the kaiser.

If "Ned" uses the same tactics in war as he did in the football field, he will surely make the kaiser look very sick, his friends say.

# MICHAELIS AGAIN TO BE QUESTIONED

### New Charges of Pan-Germanism Made Against Officials by the Reichstag.

Copenhagen, Sept. 28.—Charges that certain government authorities are supporting the Pan-German and conservative forces in the agitation to reverse the reichstag majority peace resolution and commit Germany to the so-called Hindenburg peace may be made the subject of an interpellation at the present session of the reichstag. Berlin newspapers which arrived tonight after a three-day interruption indicate that the interpellation was discussed at a meeting of the steering committee of the reichstag on Wednesday.

It was decided to postpone action in order to give Chancellor Michaelis and his aides an opportunity to make certain explanations. This, Phillip Scheidemann, the socialist leader, explained, would allow the committee to determine the form which the interpellation should take, but it will not head off a big debate on the subject.

Georg Ledebour, the radical socialist, made a vain attempt to set the debate for today.

# REICHSTAG PREPARED TO CO-OPERATE FOR PEACE

Amsterdam, Sept. 28.—The constitution committee of the reichstag, according to a dispatch from Berlin, by a vote of 15 to 12 yesterday adopted a proposal to cancel the concluding sentence of Article 9 of the imperial constitution which debar members of the federal council from simultaneous membership in the reichstag. The committee adjourned after passing an order of the day which declared:

"The reichstag will co-operate in the event of the conclusion of peace."

# CREATE THE POST OF VICE CHANCELLOR

Amsterdam, Sept. 28.—The main committee of the reichstag, a dispatch from Berlin says, yesterday passed on first reading the bill creating the post of imperial vice chancellor. Considerable discussion preceded the favorable action.

# PAN-GERMAN PAPER ORDERED SUPPRESSED

Copenhagen, Sept. 28.—Under orders of the military authorities the Pan-German newspaper Deutsche Zeitung of Berlin has been suppressed and the Socialist Volkswacht of Danzig has been placed under preventive censorship. In connection with this and other recent suppressions of newspapers in Germany, it is interesting to recall the ultimatum issued by the main committee of the reichstag at its session in August. The committee gave the government four weeks to reform the censorship, restoring it to its proper place in the control of publication of military news. Censorship of political newspapers by the military has never been more active than at present.

# KERENSKY BRAVES FOES OF THE NEW GOVERNMENT

(Continued from Page One.)

to make himself heard. "But bear in mind that a German fleet is moving up the Baltic."

The delegates of the right jeered the Bolsheviks, asking them why they did not cheer the premier's remark, inasmuch as the Germans were their friends.

### 1,200 Delegates.

There were 1,200 delegates from all parts of Russia in attendance. All the members of the provisional government were present. Several members of the diplomatic corps occupied a special box.

N. C. Tcheidse, president of the Council of Soldiers and Workmen's Delegates, said that the moment had arrived for democracy to gather all its political wisdom to save the conquests of the revolution, which were threatened with irreparable catastrophe if not safeguarded now.

# FOOD ECONOMY TO BEAT THE FOE

### That is Atkinson's Plan—Not Sacrifice, Merely Economy, Needed.

(Continued from Page One.)

the food in question is forbidden. Not so in this country where democracy reigns. Here the people are not given any orders. They are asked to economize and eliminate waste for patriotic reasons. The kaiser believes that the people of this country will not take the plea for economy seriously. But the citizens of the United States will rally to the flag by assisting the government in its food conservation, and it is this factor that will win the war and give liberty to the entire world.

"The problem of food conservation is not primarily to save money for the people. It is not for this reason that the country is asking us to economize. The great purpose in economizing is to enable us to send our increased surplus to our allies and thereby enable them to keep up the fight.

### The Cry for Wheat.

"The normal export of wheat per year by the United States to England, France, Russia, Belgium and other allied countries is 50,000,000 bushels. With their imports from other countries completely shut off, America is asked to furnish 225,000,000 bushels. The point is that we cannot eat the wheat if we export it. We must eat something else. The argument is sometimes advanced that we could ship them corn. The answer to this is that these war-ridden people are not accustomed to corn. They must have the articles they have been accustomed to eating and, therefore, they demand and need wheat. The situation in the allied countries is critical. It is not the soldiers fighting at the front who are in need of food supplies. The women and children at home are the sufferers. Do you know that France has more than one million men invalided and sent home from the trenches suffering from tuberculosis? Think of this—a million homes having tubercular patients on their hands. It is not for us, under these circumstances, to ask the women of France to take on new forms of baking. It would be rank injustice. It is up to us to send them wheat—an article they have been accustomed to."

### Meat Situation.

Getting down to meat, Professor Atkinson declared that there are 33,000,000 less head of live stock in the allied countries today than at the beginning of the war. This makes a serious situation, as the decline also affects dairy products.

"Let us ship meats—pork, mutton and beef—to these people," said Professor Atkinson. "In order to do this, let us substitute for these meats fish, poultry products, beans and vegetables, on our own tables.

### His Economy Plan.

Professor Atkinson explained that, besides the hotel and restaurant men, he plans to organize all the activities in Montana. Through the organization of the hotel and restaurant men he expects to greatly economize in the state. He added that another activity he has organized is a state merchants food conservation committee. W. J. Strain of Great Falls is chairman of this committee. The work of this organization will be window displays in the 5,000 stores of the state. There will be six different window cards on food conservation and these will be displayed in the stores.

### Conservation at Home.

Professor Atkinson will also organize a state committee on home conservation. In this way he expects to reach every one of the 130,000 homes in Montana. Oct. 21 to 29 will be known as "Home Pledge Campaign." Every housewife in the state, as well as the conservation pledge. She will then be given a schedule showing how she can economize.

That the hotel men will assist Professor Atkinson in food conservation is demonstrated by the fact that after his address last night they formed a temporary organization. A meeting will be held in Helena Oct. 15, at which time a permanent organization will be perfected. Officers of the temporary organization are: W. F. Love of Butte, president; George F. Shea, Billings, secretary; organizing committee, George Dier, Bozeman; W. E. Ward, Great Falls; J. M. Hitchins, Missoula; George McCann, Livingston, and W. H. Davey, Butte.

### Those in Attendance.

The hotel men in attendance at last night's conference were: George McCann, Park hotel, Livingston; George Dier, Bozeman hotel, Bozeman; J. F. Hitchins, Florence, hotel, Missoula; George Shea, Northern hotel, Billings; W. H. Dunnigan, Turf cafe, Anaconda; W. H. Davey, Butte restaurant; F. K. Wilson, Butte hotel; George Voyer, Montana hotel, Anaconda; W. E. Ward, Rainbow hotel, Great Falls; F. Van Du Putte, Park hotel, Great Falls, and Maurice Weiss, Placer hotel, Helena.

President Love of the new hotel men's organization said today that the hotel men in attendance will immediately cut down their menus on the lines laid down by Professor Atkinson. Mr. Love also stated that two federal experts representing Mr. Hoover will be in Pocatello, Ida., Oct. 9 and that he expects to confer with them there. These experts will not stop in Montana.

At the next meeting of the hotel men in Helena, Mr. Love will make an effort to have all of the 1,157 hotels and restaurants represented.

# Conservative Hand-Tailored CLOTHES

### For Business Men

In all the new fall materials and shades. . . . \$25 to \$45  
Other fall suits of fine quality, all new designs and materials, at . . . . . \$12.50 to \$25

## New Shipment Just In Manhattan Shirts

Silks, Madras, Soisette Crepe, Linen and Flannel. Bright colors and stylish figures and stripes, \$1.75 to \$8.50.

# CHICAGOAN IS NAMED A SHIP BOARD DIRECTOR

Washington, Sept. 28.—(Bulletin.) Edward F. Carry, a car manufacturer of Chicago, was today made director of operations for the shipping board. He will be directly in charge of the government's merchant fleet. Mr. Carry is a member of a shipbuilding wage adjustment board.

Mr. Carry will name three assistants, one each to direct operations on the Atlantic, the Pacific and the Gulf. The shipping board will begin to operate ships on Oct. 15, when American merchant vessels will be requisitioned either for government operation or general service under government direction.

### How to Cut Down.

In cutting down their menus, Montana hotels will be guided by printed forms left by Prof. Atkinson. Bread and rolls made from corn, rye and sea food. War portions or reduced quantities will be served. Butter-milk will largely take the place of milk. Cream and milk will be cut down except for children.

As few fried dishes will be served as possible in an effort to cut down on fats. To conserve sugar, honey, maple syrup and molasses will be used where possible. More vegetables and potatoes will be used. Fruits and vegetables will be made into salads. Waste foods will be saved to feed animals or for reduction to obtain fats.

Professor Atkinson is a member of the faculty of the Montana State Agricultural college of Bozeman. He has been connected with the college for some years as professor of agronomy, being recognized as one of the country's experts in agricultural operations. He was recently summoned to Washington by Food Administrator Hoover and accepted the post of food administrator of Montana.
