"That fellow Smith is a quarrelsome cuss, isn't he?" remarked Brown.

"He certainly is," agreed Jones.

"Why, even his statements conflict."

SPECULATION AS TO NEXT BRITISH MOVE

Correspondents Send No Dispatches—Briefest Report From Headquarters.

THE WAR SUMMARY

Field Marshal Haig is extremely laconic in his dispatch today from the British front in France and Belgium. "Nothing to report except the usual artillery activity on both sides," is the essence of it.

The warnings yesterday from the newspaper correspondents at the front that nothing need be expected from them for the time being, read in this connection, tend to create an air of tentativeness, with the possibility of big events impending.

Military observers not on the spot, however, seem at sea over the probabilities. The interval since Wednesday's big attack appears too short for the launching of another extended offensive movement in Flanders, and there have been no visible signs of preparation for a drive in any other sector.

The possibility exists, too, that the veil drawn over the activities along the fighting line is intended only to cover up some new disposition of the entente forces until the change is completed.

On the French front only the artillery has been active, chiefly in the Verdun region. East of the Meuse in this sector, however, the gunfire reached a violent pitch last night, Paris reports.

SMALL NORWEGIAN VESSEL IS SUNK

London, Sept. 29.—The Norwegian foreign office reports the sinking in the Atlantic of the Norwegian sailing vessel Sulven, says an Exchange Telegraph dispatch from Copenhagen.

The Sulven, 605 gross tons, until recently was the American schooner Louis Bossert. She was built at Bath, Me., in 1911 and was owned in New York until her transfer to Norwegian registry.

BRITISH CASUALTIES DURING THE MONTH

London, Sept. 29.—British casualties reported during the month of September total 194,598, divided as follows: Officers killed or died of wounds, 636; men, 18,392. Officers wounded or missing, 2,161; men, 83,569.

The severity of the fighting in which the British have been engaged during September is indicated not only by the total casualties of more than 190,000, but by comparison with the August figures, which were 59,811. Casualties in some of the late August fighting in Flanders are naturally included in the September total, but this may well be offset by late September casualties not reported in time to be covered in the figures announced.

The total compares favorably, however, with the figures for September, 1916, the third month of the battle of the Somme, when the casualties were 119,549.

VIOLENT FIGHTING ALONG THE MEUSE

Paris, Sept. 29.—Violent artillery fighting occurred last night on the right bank of the Meuse in the Verdun sector, says today's official statement.

ing declaring the state department had no evidence indicating members of congress had any connection with Count Bernstorff's \$50,000 fund.

Lansing's Letter

Secretary Lansing wrote: "In respect to your inquiry over the telephone today, addressed to the department, I beg to inform you that the department has no evidence that could in any way connect a member of congress with the payment of money by the German embassy in its propaganda activities."

Speaker Was Ready

Speaker Clark, sending a repetition of yesterday's row on the floor, declared: "What is the gentleman up to?"

Norton replied he wanted time to speak and if he did not get it he would object to consideration of a bill then before the house. The speaker refused to grant him time. Norton objected and the house passed on to another question.

The galleries were crowded in expectation of another clash; so was the floor.

ANXIETY OVER EFFECTS OF THE HURRICANE

New Orleans, Sept. 29.—Word was anxiously awaited here today from Pensacola, Fla., which was struck by the tropical hurt. Pensacola had been in communication with the city yesterday about 1 o'clock when messages from day after today the wind was blowing about 100 miles an hour and indicated considerable damage to property.

I. W. W. LEADERS ARE HELD IN JAIL

Arrests Have Been Made in Many Parts of the Country.

Chicago, Sept. 29.—Federal agents in various parts of the country today continued to arrest members of the I. W. W. indicted yesterday, according to telegrams received at the office of the United States district attorney, Charles F. Cline.

The nine leaders of the Industrial Workers who were arrested in Chicago last night on indictments charging seditious conspiracy returned by a federal grand jury against 186 members of the organization throughout the United States were still in jail today, having been unable to furnish bonds which were fixed at \$10,000 each, except in the case of William D. Haywood, international secretary-treasurer, who was held in \$75,000.

Mr. Cline said that he had 50 telegrams announcing arrests and that he believed with the arrest of the leaders the grave menace of this organization which had reached a growth of more than 250,000 members had been curbed and its propaganda eliminated.

FIVE MEMBERS JAILED AT MINNEAPOLIS

Minneapolis, Minn., Sept. 29.—Five members of the I. W. W., C. A. Lambert, Theodore Fraser, Forest Edwards, Ben Buckley and Sanford Stormberg, were arrested at the organization's local headquarters and placed in the county jail early today.

TWO ARE ARRESTED AT DETROIT HEADQUARTERS

Detroit, Mich., Sept. 29.—Federal authorities today arrested two Detroit members of the Chicago grand jury which investigated I. W. W. acts. The men are Otto Juth and Albert Christ, it was announced.

SHIPBUILDERS' STRIKE SPREADING ON COAST

(Continued from Page One.)

ment the employers have refused to sign its demand of a basic minimum wage of \$5 a day for practically all mechanics. The old scale gave mechanics a minimum of from \$4.50 to \$5 a day in most trades.

During the life of the old agreement the employers granted voluntary increases of wages to skilled workers in practically all of the trades involved, and for this reason it is virtually impossible to make a comparison of the old and the new agreements to show the increases demanded.

The striking unionists contend, however, that the increases average less than 25 per cent over the scale that now prevails. The boiler makers and iron shipbuilders' local union, whose membership includes more than one-third of the workers on strike for example, has prepared figures to show that the increase asked for its men will average about 23 per cent. The machinists make a similar claim. The steam engineers assert that they are asking about 29 per cent more than they are now receiving.

FEW MEN OBSERVE THE ORDER TO RETURN TO WORK AT FRISCO

San Francisco, Sept. 29.—But a handful of men responded when the Union Iron Works and other structural concerns here opened for business last night following official announcements that the strike of 29,000 iron workers and other mechanics in the bay region was at an end.

In defiance of the order of President W. R. Burton of the Iron Trades council that all of the strikers return, James Edwight, secretary of the Boiler-makers union, declared today: "Any boilermaker who returns to work will be discharged from the union."

Couldn't Notify Them

An early announcement from the office of the Iron Trades council declared that the failure of most of the men to return to work was due to the fact that the official notice to definitely end the strike could not be sent them in time.

Failure of the city to run its special municipal electric and steam trains to the residence of the industrial district was also given as a reason for the majority of the workers failing to report at the shops today. The officials in charge of these trains declared they received the order definitely calling off the strike too late for action. These trains trolley lines, tied up by a strike of platform men of that company.

MAKE NO APPARENT PROGRESS IN PORTLAND

Portland, Ore., Sept. 29.—Portland union officials and shipyard owners made no apparent progress today in their efforts to settle the strike of approximately 7,000 shipworkers who walked out recently to press their demands for higher wages and the closed shop. Both sides were awaiting the arrival of the federal ship labor

NEW NAME ON LABOR ADJUSTMENT BOARD

Washington, Sept. 29.—Louis A. Coolidge of Boston was made a member of the shipbuilding labor adjustment board today, succeeding Edward F. Carry of Chicago. Mr. Coolidge will take up his duties in time to leave Washington with the adjustment board to investigate strike conditions in the west.

GERMAN RAIDERS FIND DEFENSES IMPREGNABLE

attacks were made on London, but in no case did the raiders penetrate the outer defenses.

DEFENSE IS ABSOLUTE

The successful operation of the British aerial defenses in the frustration of attempts of German raiders to reach London last night and the destruction of at least two Gothas on the coast lead to the hope that means have been found to deal with moonlight visitors, as the Zeppelins were countered last year. It is true that the condition of the sky last night was not altogether favorable for night flying, but the defense by airplanes and anti-aircraft guns has been made so strong that future raiders will cross the coast of England at their own peril.

DROP SEVEN TONS OF BOMBS ON THE GERMAN POSITIONS IN BELGIUM

London, Sept. 29.—British aviators dropped seven tons of explosives in attacks Thursday night on German military establishments in Belgium. The following official report was given out today by the admiralty:

"On the night of Sept. 27-28 there were bombing raids by naval aircraft on the following objectives: "The lock gates at Zebrugge, the St. Denis Westrom airfield, the Gontrode airship shed and the Houtvaert airfield.

The bomb-dropping at Zebrugge appeared to be good, while at Houtvaert bombs fell among hangars and huts on the southwest side of the airfield. Seven tons of explosives were dropped. All the machines returned."

Safe Remedy for Children

Every parent in, or should be, careful in giving medicine to children. Chase Baker, Brownsville, Tex., writes: "For some years past I have used Foley's Honey and Tar and have found it especially efficient for bad coughs of my children. I always recommend it to my friends as a safe remedy for children as it contains no opiates. My wife would not think of using any other kind of cough medicine as it is certain to bring quick and lasting relief." It checks croup. Newbro Drug Co.—Adv.

SALE OF LIQUOR STOPS IN BRITISH COLUMBIA

Vancouver, B. C., Sept. 29.—Tonight at 10 o'clock the legal sale of intoxicating liquors as a beverage ceases in British Columbia. On Monday the provisions of the new provincial prohibition act become operative and the bar and the liquor store as known in the past go out of existence. The stocks held by the liquor stores are very low today. There has been a large demand for their goods and prices on standard liquors have advanced since this week.

PRESERVED THE BENCH

Berkeley, Cal., Sept. 29.—When the average city sets about improving its streets it has no quarter for old landmarks that happen to stand in the way. But not this place. The battered old bench that used to set in front of one of the electric railroad depots on the main street has survived a very severe and decided improvement of the street and has been tenderly deposited in a sheltered place nearby.

ARGUE MOTION FOR A NEW TRIAL

The motion for a new trial in the damage suit of Thomas Eccles against the Great Northern Railway company was argued at some length before Judge Lynch this morning. Attorneys Maury and Wheeler representing the plaintiff and Attorneys Venzey and Hopkins appearing for the defendant. At the conclusion of the argument the judge took the question under advisement, each side being given time to furnish briefs. At the trial the plaintiff was given a verdict for \$35,000.
