Reports have been circulated in the various cities of the association and also in Chicago, that the league would be dissolved, and that the effect that there was to be a break in the association circuit and that Indianapolis, Louisville, Toledo and possibly Columbus were to affiliate with the International League, thus forming a major-league, or, as some termed it, a third major organization.

UP AND DOWN THE STATE

Jobbers in men's furnishings are employing women drummers. The Y. W. C. A. is to establish American catereries in Russia.

Chicago's stockyards report as one result of the war an enormous increase in the number of girls and women employed. By official decree, women have recently been granted equal rights in every respect in the Armenian church throughout the world.

Miss Irene Boltz, who has been named weighmaster at a colliery at Beaver Brook, Pa., is probably the first woman to take a position in the actual operating staff of any coal mine in the United States.

Miss Belle Robins is the socialist candidate for grand jury judge in one of the New York City districts at the election to be held next week. For the past two months Miss Robins has been waging a campaign which has aroused politicians and is said to be causing no end of worry in the councils of the republican and democratic parties.

It is not considered likely that the United States government will follow the example of England and France in sending large forces of girl carpenters to build huts for the soldiers at the front. However, the lot of the girl carpenter does not appear to be a hard one, while the pay is up to the high schedule established for all war work.

All of the girls are under strict military discipline. They live in huts like the soldiers and receive the same food ration. When at work the girls wear khaki shirts and riding breeches. The most of them have had their hair cut short, just to be in keeping with their costume.

"I only hope that before this war is over I shall meet the man who ordered my cousin's execution," he said as he left Chicago.

POWELL COUNTY EXCEEDS HER AMOUNT BY \$11,000

Deer Lodge, Oct. 29.—With the time for receiving Liberty loan subscriptions expiring Saturday night, Powell county has again acquitted herself from any charges of lack of patriotism upon the part of her citizens. The county's allotment of the bonds was \$210,000, which in the opening period of the campaign was thought by some to be hopelessly large. The citizens, however, not only subscribed this amount, but exceeded it by some \$11,000, just for good measure.

One of the welcome subscriptions of the final day was that of John Bieleberg for \$25,000. Mr. Bieleberg having given a similar amount to the credit of Helena. Two thousand dollars was subscribed by the prisoners of the state penitentiary.

The trains arrived at intervals of an hour, and time was allowed for the overhauling of the electric motors at the local shops. All of the soldiers appeared to be in the pink of condition, and hope was expressed by many that they were on their way to France, although the inquiry as to their destination was usually met with the answer, "Search me."

HOLLAND BANK STOCKS QUADRUPLE SINCE WAR

But National Debt of Netherlands Nation Doubles to \$9,000,000.

The Hague, Netherlands, Oct. 29.—The position of Holland is beginning to show an uncomfortable resemblance to that of Midas, at whose touch everything turned to gold. Instead of recently needed goods, more and more gold, not to mention \$200,000,000 worth of credit paper, has been sent to Holland by her belligerent neighbors.

This is far more than she can employ, with the result that the gold stocks of The Netherlands bank have quadrupled since the outbreak of war, amounting now to some \$265,000,000. This means that the central bank's directly callable liabilities, in the form of banknotes and current account balances, are backed by gold to the extent of 77 per cent, which compares with only 17 per cent in Germany.

"But of what use are our big gold reserves?" Hollanders are beginning to ask, "if our productive capacity is being more and more reduced, ever more businesses are being brought to entire or partial standstill for lack of raw materials or coal, workmen dismissed, the supply of foodstuffs cut off, and our colonies, one of the nation's mainstays, likewise hard-pressed by the prevailing circumstances."

If he needs further evidence that the world has turned upside down, the Hollandier may find it in the curious fact that his normally much-coveted gold is declined with thanks in Sweden, while gold exports to Spain are impossible on account of the obstacles in the way of shipment. The unpleasant result is that the Swedish exchange has risen. Holland's exports thither are too small to balance her imports from Sweden. Nothing would appear more logical than to pay in gold for the excess imports, but the Swedish bank refuses to accept it.

From practically the commencement of the war the Swedish government has taken the standpoint that it wants goods paid for in goods, the population needing foodstuffs and other necessities, rather than gold. Hollanders are beginning to keenly feel the strange limitation which has been placed on the powers of gold.

Holland's national debt, which stood at \$440,000,000 before the war, has nearly doubled in the past three years. The added burden amounts to date to \$826,000,000. It is expected to go on mounting as long as the war continues and an army of some quarter of a million has to be kept on a war footing as well as big sums spent on the provision of cheap food and other necessities for the people.

SAN FRANCISCO, Oct. 29.—Investigation is being made of the charge that Italians have employed substitutes to take their names and places in the draft. The advice received from Camp Lewis that several Italians have been found in the 347th field artillery who possess names other than appear on the rolls will be found, it is believed, to have resulted from errors due to the ignorance of the men themselves. While no official information has been received, Warren Olney, Jr., chairman of the federal board, said that his board stands ready to cooperate to the fullest extent with the military authorities in finding out just what has taken place.

WOMAN TAKES POISON BECAUSE OF WAR TALK. San Francisco, Oct. 29.—Continually worried over the war arguments that beset her home Mrs. A. Schiffermann, 34, Oakland, swallowed poison yesterday in the presence of her five children.

She is in a serious condition.

SUPPORTERS.

"I am thinking of running for Congress," said the Suff. "Do you think I can get any support?" "Sure," replied the Politician. "Being a woman you are sure to have at least two supporters."
