Is Your Family Reading "Worth While"?

So much of current reading is merely entertaining at best that the question naturally arises, Is it worth While? Your sons and daughters are bound to read something. They hunger for stories which take them into the other half of the world—the world of adventure, of valor, of fortune-making. The problem is to give them such reading without putting into their hands the literature that is either silly or demoralizing. The editors of The Youth's Companion believe that a periodical can be made entertaining and yet "worth while," and The Companion is conducted on that theory. And that is one reason why more than half a million American families read it. The paper is safe but not dull. Its tales of adventure illustrate the advantages of fortitude and self-reliance. Its stories of character lay stress on the truth that right conduct is never a mistake.

FARMERS INSTITUTE

To Be Held in Culbertson Next Wednesday—Prominent Speakers Will Be Here.

In view of the fact that the Farmers' Institute is to be held in Culbertson so soon after the session of the Dry Farming Congress held at Billings every farmer in the vicinity should make it a point to be present. We are under the impression that all the speakers at the Institute to be held here and in Homestead attended the meeting of the congress and are therefore saturated with the Campbell idea of Dry Farming.

The following institute schedule is announced for November in Valley County.

Prof. Thomas Shaw of Minnesota, one of the most distinguished agricultural lecturers of the country, has been engaged to address all the farmers' institutes listed.

Other speakers will be Director Frederick B. Linfield of the Montana Experiment Station, F. S. Cooley, Superintendent of farmers' institutes, Edmund Burke, irrigation and soil expert and chemist of the Experiment Station, and Miss Verna Ervin, lecturer in home science.

Tuesday Nov. 9, Homestead. Wednesday Nov. 10, Culbertson. Thursday Nov. 11, Peplar. Friday Nov. 12, Glasgow. Saturday Nov. 13, Hinsdale.

The lectures are free and merit the attention of everyone interested in the prosperity of Montana.

Let every public spirited person work for the welfare of his town by getting out a creditable attendance at the Farmers' Institutes.

F. S. COOLEY, Superintendent.
