PATRONIZE YOUR HOME BANK IT PAYS.

Did you ever think why it pays? There are many good reasons. You may want to borrow money some day and would rather ask your home banker for a loan than go to a bank in a neighboring town. You, however, hate to ask him for a loan if you had not been keeping your money on deposit with him when you had money to deposit. He naturally cares for his own depositors first when they are in need of funds. You can not blame him for that.

He is interested in building up your home town and so are you, especially if you own property there.

Back him up when ever you can. It Pays to be a Booster.

You can Boost a little by keeping your money on deposit with your home bank, and as long as you know as much or more about the condition of your home bank as you know of the condition of the bank, you have been patronizing, you will find it more convenient and just as safe to keep it at home.

The fact that it is a small bank is an argument in its favor. It is not so hard to know all about it. If you know your home banker and his associates to be honorable and reliable in their business dealings, stay with them.

It is good business for you to do so.

If it pays other people to BOOST their own towns, it will pay you to BOOST your town.

Be a booster for 30 days

TRY IT.

Ole Flasted was in town this week from the Neadmore ranch.

Frank Chamberlain and wife were in town the fore part of the week from their ranch on Coal Creek.

It is very seldom that you hear some friend say that he saw a man who claimed that he noticed a fly on the moon, but these days, it is not hard to find a man that is telling himself that he dose not have to be told that old Montana is a wet climate. He knows better from experience. How about you?

NOTICE.

On account of bad weather the Ladies Aid didn't have their regular meeting this week with Mrs. Beazley, but will meet here next week. —Clay W. Taylor.
