pets, house furnishing goods, wall-paper, ready-made clothing, boots and shoes, hats and caps, merchant tailoring, dress-making, millinery, etc. Although the last three departments were added within the past year, yet because of their excellent management, they have deserved and received a patronage the extent of which is perhaps the best evidence of popular approval.

E. L. Bonner & Co., of Deer Lodge, Montana, and the Missoula Mercantile Co., of Missoula, Montana, are associate houses, and are among the largest and best-known in the Territory. The firm is also very extensively engaged in the lumbering business.

The history of the Butte house is coeval with that of our city, and the present magnitude of its business is second to none in the Territory. The building is eligibly located on the principal street of the city, and it is one of the largest and most substantial, and most attractive in the Territory, being supplied with every modern convenience, including an elegant passenger elevator. Owing to the rapid and great increase in their business, the firm contemplate numerous and extensive improvements during the year, upon which we have just entered, which will include the addition of another story to the building now occupied and the annexation, by means of arches, of the large brick building adjoining on the north. The success of the Order Department of the house is phenomenal, as its patrons throughout this and adjoining Territories will attest. Samples and quotations are furnished on application, and goods promptly forwarded by mail or express to all accessible points.
