Browning

T. W. Wheat, the genial and
obliging allotting agent and his crew
have moved to town. There are
about twelve claims to be allotted yet
and then Mr. Wheat's work in the
field is finished. The allotments
have yet to be approved by the De-
partment and then the trusts deeds
will be issued, and children born be-
tween now and the time of the op-
ening the reservation will be allotted
claims by the resident Indian agent.

Quite a large number of Brown-
ingites intend to visit Helena this
week.

And once again we would broach
the subject of the opening of this
townsite. Why do not the business
men of Browning "get busy?" We
have in a previous issue gone into
all the details and given several ad-
vantages that Browning would re-
ceive from being an open town, and
any wide-awake Browning man
knows that if the town were opened
we would have the busiest, brightest
and best town in Teton county. We
have the people and we have the
country and just as soon as Brown-
ing is an open town watch us drift.

The Browning Literary and De-
bating Society has resumed its regu-
lar meetings. At the annual meet-
ing last Wednesday evening the
following officers were elected:—
President, Abner Hall; Vice-Presi-
dent, Gus Mosnes; Sec.-Treasurer,
Jesse Armstrong. Lee Loomis is
leader of the orchestra and Gus
Mosney heads the Glee Club. Sev-
eral topics of national interest have
been discussed.

Work on the St. Mary's and Two
Medicine projects is about through
for this season, but rumor has it
there will be "something doing" next
spring.

Big sales have been conducted by
McCabe & Barrett and H. Amann,
and considering the tightness of the
money, market have been well at-
tended. Browningites would like to
see these sales oftener.

Alex. Richards of Cut Bank was a
Browning visitor Saturday and
Monday.

A Note of Optimism

The Minneapolis bank clearings
for the month of November surpass-
ed those of the corresponding month
a year ago by several millions and
the Journal states that that the
volume of trade in all lines of
Minneapolis industries surpasses by
far those of the previous year. As
Minneapolis is considered the gate-
way to the Northwest, this is taken
as a barometer of the business out-
look for a very prosperous year in
1911 is exceedingly bright at this
time.
